Entered as second class matter May 17, 1920, at the post office at Roseburg, Oregon, under act of March 3, 1879.

WE admire the spunk of the city dais. Obviously no person, firm or corporation on earth is too big for them to tackle.

But all that means little, in fact nothing, to our mayor and the council. No matter if it be Joe Doakes or the mighty railroad corporation—they all look alike.

That is the spirit that makes fine clean prosperous cities. Ours may not be the largest town in the country.

But liking people or not liking them has nothing to do with the matter under discussion. When Joe Doakes keeps an unsightly place, he must clean it up.

The city government is right. We want a clean town. We wish the county government could do something about some of the awful messes we have just beyond our city limits.

It has often been noted that South American countries, long noted mostly for production of raw materials for export, have now begun to industrialize and produce their own finished goods.

ALFRED ROSENBERG, the "philosopher" of nazidom, is reported slated to become the Fuehrer's McCarthy in captured regions of Russia, if, as, and when they are captured.

much interested. We're interested rather in the victory of brains, decency, and morality over both.

YOU might also go back to General Wavell, who some time ago was sent to India. If you will take another look at your map, you will note that if Russia is defeated India will become at once an important theater of war.

RUSSIA, of course, is the big hot spot and the big question mark. There's a lot of lying going on there—so much that it is impossible to draw accurate conclusions.

Germany has CONVICTED HERSELF of lying. You will recall that some weeks ago the Germans announced they had destroyed the Russian air force.

ESPECIALLY in view of the openly expressed fear that Britain and America are becoming too confident of a Russian victory (or at least a draw) and are therefore exposing themselves to the shock of bitter disappointment that would be sure to follow sudden crumbling of the admittedly determined Russian defense.

It seems to this writer that our own war expert, Harry Hopkins, lets the cat out of the bag in regard to the chief worry as to Russia.

He had another long session with Stalin today, and at its conclusion the Moscow correspondents were permitted to announce: "Hopkins is believed to have told Stalin that American production of war materials will surpass any foreign estimates."

There is doubt as to ability of Russian factories to supply the materials for PROLONGED fighting on the present scale.

Legislation recommended by the president would permit him to establish daylight saving time upon a regional or national basis and for part or all of the year as he "might deem necessary in the interest of our national defense."

Legislation recommended by the president would permit him to establish daylight saving time upon a regional or national basis and for part or all of the year as he "might deem necessary in the interest of our national defense."

Meat market operators and food stamp users of Oregon were scratching their collective heads today wondering what to do with some few hundred dollars worth of credit slips which had been issued for future purchases of pork meats and lard.

The meat of the problem lies in the fact that the federal government eliminated pork products from the blue stamp food list as of August 1. Prior to that time stamp users who presented their blue stamps to meat markets for pork received a credit slip instead of cash change.

Now, with pork meats and lard off the list and hundreds of dollars of blue stamp credit slips in the hands of stamp users, the question is—what to do?

M. Louis Belangie, area supervisor of the surplus marketing administration, supplied the answer today when he announced that outstanding blue stamp credit slips issued prior to August 1 can be accepted by meat markets in exchange for pork products as previously defined until all such slips have been redeemed by meat dealers.

It was pointed out that orange food stamps, which public assistance families purchase in order to participate in the plan and secure free blue food stamps, can always be exchanged for pork or any other meats served in the home.

LONDON, Aug. 6. (AP)—The surrender of a German submarine to H. M. S. Broadway, formerly the U. S. S. Hunt, one of the 50 United States destroyers transferred to Britain last September, was disclosed today with the announcement of decorations awarded to officers and crew.

WASHINGTON, Aug. 6. (AP)—A growing controversy developed in the house today over whether congress should write its own standards for daylight saving time to conserve power for defense, or give President Roosevelt the blanket authority he requested to make such changes as they might be needed.

WASHINGTON, Aug. 6. (AP)—A growing controversy developed in the house today over whether congress should write its own standards for daylight saving time to conserve power for defense, or give President Roosevelt the blanket authority he requested to make such changes as they might be needed.

Q. What are the tax savings notes issued by the treasury?
A. They are direct obligations of the United States issued in the form of treasury notes and are dated in the month in which payment is received.

Q. Where may tax savings notes be purchased?
A. Through local banks, from Federal Reserve banks, their branches, or direct from the treasury department, Washington, D. C.

Q. How are the tax savings notes used?
A. Through local banks, from Federal Reserve banks, their branches, or direct from the treasury department, Washington, D. C.

NEW YORK, Aug. 6. (AP)—Dr. Rufus D. Smith, provost of New York University, says a "break-the-rich" taxation policy of the federal government may result in closing of private schools.

WASHINGTON, Aug. 6. (AP)—The pending \$3,206,200,000 tax bill is an application of that policy, he told NYU's assembly on war yesterday, and exemplifies the United States' "chaotic, political and haphazard" approach to a total war economy.

WASHINGTON, Aug. 6. (AP)—The pending \$3,206,200,000 tax bill is an application of that policy, he told NYU's assembly on war yesterday, and exemplifies the United States' "chaotic, political and haphazard" approach to a total war economy.

WASHINGTON, Aug. 5. (AP)—Defense officials announced today that the salmon industry had agreed to make available 1,200,000 cases of salmon, or about 20 per cent of the current season's pack for the army, the navy, and Great Britain.

WASHINGTON, Aug. 5. (AP)—Preliminary estimates place the current salmon pack at about 6,000,000 cases. The government buying program will absorb about 45 per cent of the expected pack of reds, the premium grade; the entire pack of cohoes, which may range between 175,000 and 300,000 cases; and a small part of the pack of chums and plinks.

WASHINGTON, Aug. 5. (AP)—Preliminary estimates place the current salmon pack at about 6,000,000 cases. The government buying program will absorb about 45 per cent of the expected pack of reds, the premium grade; the entire pack of cohoes, which may range between 175,000 and 300,000 cases; and a small part of the pack of chums and plinks.

WASHINGTON, Aug. 5. (AP)—Preliminary estimates place the current salmon pack at about 6,000,000 cases. The government buying program will absorb about 45 per cent of the expected pack of reds, the premium grade; the entire pack of cohoes, which may range between 175,000 and 300,000 cases; and a small part of the pack of chums and plinks.

WASHINGTON, Aug. 5. (AP)—Preliminary estimates place the current salmon pack at about 6,000,000 cases. The government buying program will absorb about 45 per cent of the expected pack of reds, the premium grade; the entire pack of cohoes, which may range between 175,000 and 300,000 cases; and a small part of the pack of chums and plinks.
