

Ex-Circuit Judge Fee Of Pendleton Passes On

PENDLETON, Aug. 26.—(AP)—James A. Fee, 86, former circuit court judge and one of the best known members of the bar in this area, died at a hospital here today.

Some weeks ago he suffered a fall in which his collar bone was injured and a large gash was cut in his head.

He is survived by his widow; two sons, Federal Judge James Almer Fee of Portland and Chester Fee of Eugene; and two daughters, Helen and Doris Fee, living in California.

Army O. K., Should Be Left Alone, Stimson Says

SEATTLE, Aug. 26.—(AP)—Making an early getaway for Fort Lewis for an inspection visit, Secretary of War Henry L. Stimson said today the "army is all right, don't worry about that."

"The army's morale is good and the soldiers can take care of themselves if the public and congress will leave them alone," Stimson said.

Iran Starts Ouster of Objectionable Germans

(Continued from page 1)

sought a swift clean-up of the ancient middle east oil kingdom.

Dispatches from the new war theater said Indian and British forces, including air-borne troops such as Adolf Hitler exploited in the conquest of Greece, had seized three key points after brief skirmishes.

The German radio quoted the Iran news agency as asserting that Iran troops were putting up stiff resistance, particularly against soviet forces advancing southward along the rail line to Tabriz.

British headquarters, by contrast, asserted that the joint invasion was progressing so rapidly that casualties were few.

Bases Captured

So far, the British said, the biggest prize taken was the town of Abadan, 20 miles up the Shatt-Al-Arab river from the Gulf of Persia, where the troops occupied one of the world's three largest oil refineries.

(The Abadan refinery is comparable in size to the oil processing plant at Port Arthur, Tex., and production is normally between 200,000 and 300,000 barrels a day. The refinery could produce enough fuel to keep the entire British navy in operation.)

Under strong aerial support, advancing British Tommies and Indian contingents also gained a direct route to the Iran capital of Teheran in capturing Bandar Shapur, the southern terminus of the trans-Iranian railroad. Teheran lies on the mountain slopes 70 miles south of the Caspian sea.

A hint that Germany may soon take a hand in the conflict came from Berlin, meanwhile, with authorized Nazi quarters declaring that the reich and Iran were in active contact over the situation arising from the Anglo-Soviet invasion.

A Nazi spokesman declined to discuss the nature of the negotiations, however, and described reports of German offers of support to the Iranians as "trial balloons."

While Iran's Premier Mansur asserted that the British had bombed and shelled Iranian towns, the British reported merely that RAF bombers showered leaflets on the capital and towns promising that the invaders had

no quarrel with the Iranian people and had no designs on their independence or territory.

Establishment of an all-weather route for transport of war supplies to Russia was a prime objective of the campaign, as well as the ousting of German specialists from the country.

Turkey in Tight Spot

Mansur told the Iranian parliament yesterday that his government had tried diligently to maintain neutrality and had taken "special measures to reduce the number of Germans in the country."

Turkey's reaction to the British and Russian move was a source of widespread speculation in Berlin, as well as in London. Some sources in the British capital took the view that Turkish resistance to any German demands would be strengthened. The Turkish embassy in London, however, displayed anxiety over the move which one spokesman said "hedges Turkey with war and makes the maintenance of neutrality more difficult than ever."

The work will consist, he states, principally of operating telephone switchboards, teletypes, plotting boards, etc., and persons having had some experience in those departments are particularly needed.

Death, Damage Ride On Eastern, Kansas Storms

(Continued from page 1)

crane at Jersey City shortly after the storm spent its fury.

STORM LASHES KANSAS, INFLECTING BIG LOSS

KANSAS CITY, Aug. 26.—(AP)—A terrific windstorm, approaching hurricane force, struck Kansas City last night inflicting extensive property damage and paralyzing traffic for nearly an hour.

Three huge radio towers were blown over, store fronts smashed, trees uprooted and cornices pitched into normally busy downtown streets.

The spire of the First Presbyterian church in Kansas City, Kans., was blown onto the roof while 20 Boy Scouts were meeting in the basement. Owen Tharp, the scoutmaster, kept the boys singing until the storm abated sufficiently to permit them to leave the building. One of the walls was damaged as the spire fell.

The 544-foot broadcasting tower of radio station KMBC in suburban Johnson county, Kans., crashed onto the home of Frank Angus. Mrs. Angus, her son, Donald, 10, and her daughter, Dorothy, 13, fled to the basement at the start of the storm and escaped injury.

The 80,000-pound tower fell with such force that a steel beam was driven a foot and a half into a concrete roadway.

A nearby 275-foot emergency tower of KMBC also collapsed. The most of station KCKN on Armstrong avenue in downtown Kansas City, Kans., was blown into the street.

LAKEVIEW, Ore., Aug. 26.—(AP)—A wind of almost cyclonic proportions nearly disrupted plans for the Lake county fair. One stock shed at the fairgrounds was lifted off its foundation and blown into other buildings. Repairs, estimated at \$500, have already been started.

Stork Drama

KLAMATH FALLS, Ore.—L. L. Coon and his wife raced down the road August 21, 1940. A son was born before they reached the hospital.

Coon and his wife raced down the road August 21, 1941. Yes, the stork again. Another son.

Leave for Palo Alto—Prof. and Mrs. R. C. Bell and David and Barbara Bell left Roseburg today for their home at Palo Alto, Calif., after a visit of several days with Mrs. Bell's father, Watson E. Boise, on Chadwick street, and her brother, Eugene Boise, on the Glide road.

Air Warning Service Here Asks for Volunteers

(Continued from page 1)

to 100 more registrations. The work in the filter center, for the present, will not be of a permanent nature, but rather will be only periodically during the period of tests, and will probably not be for more than one or two days at a time.

"The aircraft warning service is the most important of all of the units of the civil defense organization, and is extremely important that we have these volunteers registered immediately."

Men Also Desired

Mr. Pinniger urges that women willing to volunteer their services fill out the available questionnaires and application blanks immediately. While women particularly are desired for this work, it is possible that a few men also can be used, he reports, and registrations of male applicants will be accepted.

The work will consist, he states, principally of operating telephone switchboards, teletypes, plotting boards, etc., and persons having had some experience in those departments are particularly needed.

Strike of Bus Drivers Stayed by New Truce

(Continued from page 1)

and Bartenders' union and the San Francisco conference. The closed places will open Thursday.

A union official said the agreement restored the 25 per cent pay cut and also secured the 40-hour, five-day week, a closed shop and the hiring hall.

SHIPYARDS AGAIN HURT AFTER 19-DAY SILENCE

KEARNY, N. J., Aug. 26.—(AP)—The vast yards of the Federal Shipbuilding and Dry Dock company, stilled for 19 days by a CIO strike, buzzed once more with activity today as the men resumed work with the navy as their boss. The strike affected 18,000 men and \$493,000,000 worth of ships.

Two cruisers, six destroyers and several merchant vessels were on the ways at the time. One cruiser, the U. S. S. Atlanta, was to have been launched August 9.

The navy took over operation of the plant last Saturday after the union and company were unable to come to an agreement. Last night the company offered to sell the whole business to the government.

STRIKE HITS GRAIN PLANT, BUT FARMERS HELP OUT

ALBANY, Aug. 26.—(AP)—A strike closed the M. Senders & Co. grain cleaning plant and its warehouse here yesterday.

The AFL Grain Processors' union called the walkout when demands for a wage scale of from 67 1/2 to 85 cents an hour were refused.

Farmers turned in to help clean rye grass, vetch and clover seed. Linn county is the principal producing section of seed for cover crops used in restoring eroded southern soil.

Leningrad Defenders Take Heavy Nazi Toll

(Continued from page 1)

citizenry would fight on at every street corner.)

Twenty-four hours of drenching rain was reported to have soaked the whole vast battlefield from Leningrad to the Ukraine, and Russians counted on increas-

ingly-bad weather to help bog down the German advance.

LAST SOVIET BRIDGEHEAD ON LOWER DNIPEER FALLS

BERLIN, Aug. 26.—(AP)—The German high command announced tonight the capture of Dnieperpetrovsk, which was described as the last Russian bridgehead on the west bank of the lower Dnieper river.

The southern axis army was reported to have captured 83,596 prisoners, 465 guns and 199 armored cars in this drive through the western Ukraine since the battle of Uman.

Dnieperpetrovsk, a commercial and communications center of 500,000, is the eleventh largest city of the soviet union.

Its fall was announced almost simultaneously with an official report of the capture of Luga, industrial city of 22,000 in the Leningrad defense ring between Lakes Ilmen and Peplus about 90 miles south of Leningrad.

(The Berlin radio said Finnish troops operating on the Karelian Isthmus were pushing southward toward Leningrad, capturing 3,500 prisoners, 107 tanks, 198 guns and other war materials and destroying 43 soviet airplanes.)

DNB said a German panzer company had captured 50 carloads of Russian munitions by shelling a racing soviet freight locomotive into immobility on a northern stretch of the eastern front.

Gasoline-Oil Shortage Facing Senate Inquiry

WASHINGTON, Aug. 26.—(AP)—The senate commerce committee voted unanimously today to undertake an immediate investigation of "the whole situation" regarding gasoline and oil shortages.

Chairman Bailey (D., N. C.) named a sub-committee headed by Senator Maloney (D., Conn.) to conduct the inquiry.

Maloney said he would start open hearings Thursday to inquire into oil and petroleum shortages which have developed in the east.

Maloney said the mere offering

of the gasoline investigation proposal had "done some good already." He cited as an example the assurance from dealers that an adequate supply would be available for motorists over the Labor Day week-end.

Classes in First Aid Being Formed in Douglas

Jack Robertson, acting first aid chairman for the Douglas county chapter, American Red Cross, announced that standard first aid classes are being organized for Douglas and other parts of Douglas county. All those wishing to take the standard course should register personally or by telephone or letter at the Red Cross office in the court house. Office hours are from 9 a. m. to 12 noon daily.

There will be a meeting of all first aid instructors Friday evening, September 5, at 7:30 in room 210, U. S. National Bank building.

Snell Cites Eight Ways To Conserve Gasoline

SALEM, Aug. 26.—(AP)—Oregon doesn't face an immediate gasoline shortage, Secretary of State Snell said today, but he listed eight ways to save gas and to serve the purpose of greater safety in traffic, without giving up normal driving.

Here are Snell's suggestions: Reduce speed, avoid quick starts, turn off motor when not in use, don't race the engine, don't strain the engine on hills, keep motor in good condition, maintain tires at proper pressure, and lubricate adequately.

Pays Fine for Being Drunk in Public Place

A fine of \$25 was paid in justice court here today by Gilbert Cobb, who pleaded guilty to a charge of being drunk in a public place. Cobb was arrested following an accident Saturday at Camas Valley, where his car was ditched. He suffered minor cuts and bruises.
