Orr.

NATIONAL B. P. W. WEEK BEING OBSERVED

National Business and Professional Women's Week will be observed from October 5-11.

National Business Women's week was observed first in 1928. The federation had 874 clubs and 50,000 members. Today there are 1700 clubs and 75,000 members and is organized in every state in the nation, the District of Columbia, Hawaii, and Alaska.

The original idea of interpreting business and professional women's achievements to the public has been modified somewhat with the passing of years; from the effort of business and professional women to maintain their own status it has grown to their recognition of the contribution they can make as citizens today.

The theme for 1941 is "Strengthen Democracy for Defense."

The local club started the week by attending the morning services of the First Christian church in a body.
