Health Unit Urges Immunization From Diphtheria

A warning from the county health department that steps should be taken by parents to immunize children against diphtheria was issued today following a report of the second case of the disease in recent weeks. The first was that of a 17-year old boy and the latest case is that of a pre-school child. It is unnecessary for any child to suffer from this disease if parents will see that the children are given toxoid immunization followed by the Schick test to determine whether the immunization has been effective. If the

Schick test is positive, a second toxoid immunization should be given. Dr. Waincott, acting county health officer, has announced that he will be in the health office in the courthouse Thursday afternoon and parents are invited to bring their children for immunization. A small fee is charged for the service. A clinic will be held at Fullerton school Friday morning, beginning at 9:30 o'clock, at which time Dr. Waincott, assisted by County Health Nurse Hazel Lytle, will examine children in the first grade. Following the examination of the beginners, immunization will be offered the entire school. Toxoid, smallpox vaccination, Schick test and tuberculosis test will be offered, and the health department urges that all children avail themselves of the service.

Oregon's First Non-Friday Hanging Stated Oct. 30

SALEM, Oct. 23—(AP)—James Harvey Thomas, 19, sentenced to die in the state lethal gas chamber a week from today, is the first man ever sentenced in Oregon to die on any other day than Friday, prison officials said today. Friday also is the customary execution day in most other states. Thomas, unless Governor Sprague commutes the sentence to life imprisonment, will die for slaying Douglas Smith, salesman, near Arlington, Smith, who picked up Thomas when the latter was hitch-hiking, was en route from Idaho to his mother's death-bed in Aberdeen, Wash. Governor Sprague has given no indication that he would take any action.
