Don't blame your child! It looks like just a nasty habit, but it may mean that ugly, crawling roundworms are starting trouble inside the child right now. Other warning signs are: "icky" appetite, fidgeting, uneasy stomach, itching seat.

Anybody, anywhere, can "catch" roundworms! If you even suspect your child has them, get Jayne's Vermifuge right away! It's America's leading proprietary worm medicine. Scientifically tested, and used by millions for over a century. Jayne's expels stubborn worms, yet acts gently. If no worms are there, it is just a mild laxative. Demand Jayne's Vermifuge.
