MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve aching backaches, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 1 1/2 pints a day. When disorder of kidney function permits poisons to remain in your blood, it causes aching backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or empty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
