The Dreadful Drumfire

BEHIND the roar of the flaming bell that is the Russian front, behind the clangor of the clash in Libya, behind the steady boom of bombs flattening a score of Europe's cities, there is a dreadful obligato of rifle-fire. It is the German executions in conquered lands.

As many as 100,000 men and women have died before these Nazi firing-squads, the Inter-Alleied Information Committee in London estimates. Whether that is an accurate figure we don't know. Nobody knows, not even the Nazis.

In Poland alone 82,000 people have been executed during two years of occupation, this committee estimates. Every conquered country has contributed its toll of those who were led out to die unarmed, unconvicted of any offense.

In no modern war has anything like this, on anything approaching such a scale, been permitted to happen. It is the measure of a Nazi future.

Buying Human Blood

OF all the odd purchases of the United States Army, the one that stirs the imagination most is that made recently for a million dollars worth of human blood. Five contracts were let to chemical laboratories, totalling \$1,026,250 for the purchase of gallons of human plasma.

The blood bank is stored against that time, it ever, when it might be needed for blood transfusions. This doesn't necessarily mean a fighting war reserve of human blood. With 1,500,000 men in the Army now, the amount of blood needed for accidents resulting from training activities of a mechanized army and for "normal" illnesses is tremendous.

His Own Worst Prospect

ALTHOUGH Secretary of the Treasury Morgenthau is the No. 1 salesman of defense savings stamps and bonds, he can't even sell himself a two-bitter.

It's not that his sales talk isn't convincing, even to the secretary, but it's against the law.

It seems that back in the 19th century, one of our secretaries did a little government bond buying at the rate of 60 cents on the dollar and sold out at par. After deliberating that for some years, Congress in 1889 came to the conclusion that such tactics weren't strictly on the up and up and passed a law that no secretary could sell himself government securities.

Editorials on News

Continued from page 1. pean Russia, the area he has conquered is RELATIVELY small. On the entire globe, it occupies a space not much larger than a postage stamp stuck on an apple.

THEN get out your history books. You will read in their pages that NAPOLEON conquered an area roughly comparable with that conquered so far by Hitler—somewhat smaller, of course, but still comparable. Napoleon was STOPPED. He tried to break in to Africa, but failed. He cast longing eyes at India, but never could muster the strength to make the attempt to seize it.

In time, the hatreds and the stresses he had set up in the countries he conquered COMBINED to overthrow him.

IF Hitler can be stopped in European Russia, if he can be held at the Caucasus, if he can be thrown out of Africa and prevented from getting back, there is a very fair chance that the record written by Napoleon may be REPEATED in the case of Hitler.

IT is British SEA POWER that is opening up the possibility that Hitler may be stopped as Napoleon was stopped. Hitler realizes it. So he is reaching for sea power with which to combat that of Britain, now aided by the United States.

LET no doubts enter your mind that it is Hitler who is firing up Japan to go to war with the United States. Japan has a powerful navy. It is Hitler who is tightening the screws on beaten and humiliated France, seeking to compel her to come over on his side. France has a considerable remnant of a once-powerful navy.

HITLER can not fail to see the ring of encirclement that is beginning to threaten to close on him. He is trying desperately to BREAK it before it is too late.

Douglas Fir Door Price Ceiling Reveals Slash

WASHINGTON, Dec. 1 (AP)—A ceiling on manufacturers' prices for Douglas fir doors will go into effect December 10 under orders issued today by Price Administrator Leon Henderson.

The order, affecting approximately 60 per cent of all doors made in the United States, sets maximums at about 15 per cent below current levels. It will save consumers an estimated \$3,000,000 annually.

Henderson revealed that 80 per cent of the manufacturers of western pine doors, door frames, sashes, window frames and screens had voluntarily agreed to stabilize prices at approximately the levels prevailing during the last two weeks in August.

He said a price ceiling on western pine products would be issued on completion of a current OPA investigation of the industry.

Gift Holly Shipments Require No Inspection

The individual who wants to include some cut holly in Christmas gift packages or who wants to send a package of cut holly or other Yuletide greenery need not worry about getting inspection on the shipment.

The state department of agriculture points out that this year, as in the past several years, all gift shipments of cut holly may be made to any point without inspection, certification or license.

No inspection stickers are needed for such shipments, and the department is informed by the post office officials that such shipments may be labelled properly as merchandise.

Christmas trees, salal, huckleberry, fir, cedar boughs and other cut greenery may be shipped also without necessity for inspection.

Trade Credit Will Be Topic at Meeting Here

A meeting of much importance to all Roseburg merchants who sell on credit or contract will be held at the office of the Roseburg chamber of commerce at 7:30 p. m. Tuesday, Dec. 2, it was announced today by Harry Pinniger, chamber of commerce secretary.

The meeting will be attended by E. N. Crouch, credit expert of the Federal Reserve bank, and J. King Bryon, managing director of the Retail Furniture Dealers of Oregon, Inc.

Merchants will be given complete information regarding the new federal regulations governing credit and contract buying and will be given an opportunity to hold a general discussion of the regulations and to present any problems which they may have in that connection.

OUT OUR WAY

U. S. Navy Boasts Secret Device to Spot Planes, Ships

WASHINGTON, Dec. 1 (AP)—Existence of a secret navy weapon for use in detecting both ships and airplanes at great distances was disclosed in authoritative quarters today as the navy department called for increased enlistments for training in radio maintenance.

The device has been in use for some time, according to the best available information, but has been a carefully guarded secret. Word of its existence leaked out in connection with the campaign of recruiting radio technicians, but even so navy officials declined all official discussion of it.

The recruiting campaign was disclosed in a letter issued to the recruiting service by Rear Admiral C. W. Nimitt, chief of the bureau of navigation, asking that special efforts be made to meet the demands of the expanding navy for trained radio experts.

To qualify, it was said, the men enlisting must have had experience in the design, construction and operation of amateur or commercial radio transmitting and receiving equipment or they may have had experience with television or cathode ray equipment.

The nature of the detection device despite disclosure regarding its existence, remain a naval secret. Whether it is similar to the radio airplane detection equipment now being widely used by military forces both in this country and in England could not be determined.

Defense Quiz

Q. How does the buying of Defense Savings Bonds help to keep down the cost of living? A. With increased national income resulting from armament expenditures, more and more earnings are likely to be spent for the limited supply of consumer goods available, sending prices up. Widespread buying of bonds tends to act as a brake on rising prices by diverting to defense uses money which otherwise would be spent for consumer goods.

Q. What is the Christmas gift for almost any purse and purpose? A. Defense Savings Stamps. Any quantity desired may be bought in denominations of 10 cents to \$5 and put in an album which is provided with the purchase. These Stamps are always exchangeable for cash at their face value.

Q. Buy Defense Bonds and Stamps, go to the nearest post office, bank, or savings and loan association; or write to the treasurer of the United States, Washington, D. C. Also Stamps are now on sale at retail prices.

O. S. C. to Battle Unbeaten Duke in Rose Bowl Game

CORVALLIS, Ore., Dec. 1 (AP)—This happy town of 8,000 people—including students—carried on its victory celebration today over the fact that Oregon State college will meet Duke in the Rose Bowl New Year's day. Duke college is located at Durham, North Carolina.

making had subsided Saturday night, all the townspeople and students knew was that Oregon State had won the Pacific Coast conference championship by beating Oregon at Eugene, 12-7 and had earned the bowl bid.

The Rose bowl game will match bowl-wise Wallace Wade, the Duke coach who will be making his fifth trip to that classic, against 38-year-old Lon Stiner, youngest coast conference coach who like his school, will be making his first appearance in the Pasadena saucer.

Stiner said he was tickled with the Duke selection because "it's the only major team with an undefeated, untied record, and that ought to make a good talking point for me with my boys. They wanted Duke, too."

California Beats Stanford Oregon State was an unquestioned conference champ. Probably it needed only its victory over the University of Oregon Saturday to become the north's first representative at Pasadena since Washington lost to Pittsburgh, 21-0, on New Year's day, 1937.

But Stanford's 16-0 shutout by California clinched the issue. It left the defensively powerful Orange team from Corvallis a full notch above its closest contenders.

The Beavers finished with five wins in their seven games against the teams that count, their list of victims including both Stanford and University of Washington.

The USC Trojans took their fourth conference licking from Washington Saturday, 14-13. Oregon State held command during most of its game with Oregon, but the Beavers still had to come through with a last-quarter touchdown to pull out ahead. Substitute Fullback Joe Day cracked the line for 28 yards and the winning points a few moments after Oregon had gone momentarily in front, 7-6, on Curt Mechem's sweep down the sidelines from midfield.

DURHAM, N. C., Dec. 1 (AP)—Duke university is something like a kid who had peeked at his Christmas presents in advance. It's tickled pink about going to the Rose bowl, of course, but well, it was sort of expected.

So sure was the squad that it held a secret meeting last week end decided that the Rose bowl bid would be accepted—if it were received. And last night it came—a bid to play Oregon State.

It will be Coach Wallace Wade's sixth appearance in the Rose bowl. He went there first as a player on the Brown university eleven in 1916. He took his first team, Alabama, there in January, 1926, and beat the University of Washington 20-19.

The next year another Wade-coached eleven tied Stanford 7-7. His last Alabama team beat Washington State 24-0 in 1931. Wade's 1928 Duke team was defeated by Southern California 7-3 on a last minute touchdown pass.

Duke's 1941 team is the highest scoring on the university's record. In nine starts the Blue Devils rolled up 311 points. The nearest approach to that was in 1937 when the Devils piled up 228 points.

EUGENE, Dec. 1 (AP)—The University of Oregon football squad left last night for a Dec. 6 game against the University of Texas at Austin, Texas. Coach Tex Oliver took 32 players, and said workouts would be held at Sacramento, Los Angeles and Tucson.

Dudley of Virginia Top Football Scorer

NEW YORK, Dec. 1 (AP)—"Bullet Bill" Dudley, Virginia's backfield ace, is the collegiate football scoring leader of the nation for 1941. Dudley moved into the lead in his final game when he scored 22 points, boosting his total to 134. Ben Collins of West Texas State finished in second place with 132 points.

Bill Mielick, Idaho, led in the Pacific Coast conference with 66. Music Pupils Will Be Heard in Recital Over KRRR Two Roseburg music teachers will present pupils at the weekly "Recital Hour," program over station KRRR Tuesday, 7:45 to 8 p. m. Mrs. Grant Moore, contralto, a pupil of Mrs. Charles A. Brand, voice instructor, will be heard in vocal selections, and Miss Dorothy Bush, pupil of Mrs. C. H. Beard, piano instructor, will be heard in instrumental numbers.

DAILY DEVOTIONS

DR. CHAS. A. EDWARDS All of us live by faith. Because we cannot know what tomorrow holds for us, life itself depends upon the exercise of confidence. By faith all things are done. We are living by faith when we build a home, sow grain, plant a garden, accept a check, or buy tomorrow's needs. Because we all live by faith our need is not more faith, but faith in the right things. The tragedy of life is that so many people place their faith in things which ultimately fail them. That is what the prophet meant when he said: "Why do you spend money for that which is not bread? And your labor for that which satisfieth not. We all resent being overcharged for a purchase, but that is insignificant compared with being over charged in life. This always happens to us when we invest our lives in the things which do not abide. Paul says: "Faith is the substance of things hoped for, the evidence of things not seen." Take that quality out of life and what a miserable condition would exist. "By faith are ye saved. It is not of yourself, it is the gift of God." Every day is a life of faith in the loving kindness and tender mercy of our Heavenly Father, until one day our faith will turn to light. We know omnipotence hath heard our prayers and cries. It shall be done, some time, some where. Amen.

'Out of Night' Author Pardoned

LOS ANGELES, Dec. 1 (AP)—Governor Olson has pardoned Jan Valtin from a 10-year sentence for assault during a hold-up.

The German-born writer, whose "Out of the Night"—a purported expose of communist and nazi activities—is a best-seller, said at Dallas, Texas, when informed of the pardon yesterday.

The first round of the fight against deportation is won. Valtin, whose true name is Richard Krebs, is on a lecture tour. Seized last March for deportation, he pleaded for a chance to apply for citizenship. It returned to Germany, he said, he would be beheaded.

Krebs pleaded guilty to a charge of assault with a deadly weapon upon Maurice L. Goodstein, 67-year-old Jewish merchant of Los Angeles.

He was paroled after serving approximately three years and one month and was deported to Germany December 9, 1929.

He was alleged to have reentered the country illegally by "jumping ship" at Norfolk, Va., March 6, 1938.

Defense Quiz

Q. How does the buying of Defense Savings Bonds help to keep down the cost of living? A. With increased national income resulting from armament expenditures, more and more earnings are likely to be spent for the limited supply of consumer goods available, sending prices up. Widespread buying of bonds tends to act as a brake on rising prices by diverting to defense uses money which otherwise would be spent for consumer goods.

Q. What is the Christmas gift for almost any purse and purpose? A. Defense Savings Stamps. Any quantity desired may be bought in denominations of 10 cents to \$5 and put in an album which is provided with the purchase. These Stamps are always exchangeable for cash at their face value.

Q. Buy Defense Bonds and Stamps, go to the nearest post office, bank, or savings and loan association; or write to the treasurer of the United States, Washington, D. C. Also Stamps are now on sale at retail prices.

Nutrition Expert Locates Here To Aid Homemakers

Miss Frances Welch, home management supervisor for the farm security administration, has been recently delegated to Douglas county and is making her home in Roseburg. Miss Welch has announced a meeting to be held at 10 o'clock in the Methodist church basement in Roseburg, Friday, December 12, by Miss Welch's nutrition specialists from O. S. C. Homemakers and leaders of service clubs and women's clubs of the county are urged to attend this demonstration.

Miss Welch will be found at the offices of the farm administration in the court house. She is available to homemakers for suggestions on better family living for defense. A graduate of O. S. C. in home economics and with a master's degree in vocational guidance and psychology, Miss Welch is ably prepared to help homemakers in any capacity. She has had experience as homemaker teacher in Oregon and California and as adviser of family relations bureau in California.

"No other institution has ever supplanted the home as the base of the nation's strength," said Miss Welch. "Let us do what we can to insure this our nation's stronghold." She will be in Portland for a brief period but upon her return will be happy to give suggestions on carrying out the nation wide program on "food to keep you fit."

In a bulletin issued by Oregon State on "Food to Keep You Fit," milk is listed first. "Milk is a necessary daily requirement. With every glass of milk," Oregon State food specialists would have the public know, "there is protein, fat, calcium, phosphorus, milk sugar and vitamins added to the diet. Milk is a good investment. It is necessary as a protective food, for growth and resistance to disease and for upkeep and repair. One cup of milk," they state, "is equal to two and one half eggs or three and three fourths ounces of lean beef in energy value."

Surplus Commodities For December Listed

Surplus commodities for the month of December were listed in a bulletin issued today by the Surplus Marketing administration. The commodities which may be secured with the blue (surplus foods) stamps include pork, Irish potatoes, fresh pears, fresh oranges, fresh apples, fresh vegetables, corn meal, shell eggs, hominy grits, dry edible bean, dried prunes, dried raisins, wheat flour, enriched wheat flour, whole wheat (Graham) flour, butter, fresh grape fruit. The list is effective through December 31, 1941.

Glenn Woodruff, Jr., Passes Navy Music Exam

Word has been received here that Glenn Woodruff, Jr., has passed required examinations for rating as musician first class in the U. S. navy. He is now located on board a cruiser in Hawaiian waters. He is a son of Mr. and Mrs. G. E. Woodruff of this city.
