American Legion Auxiliary Activities

By MRS. CLAUDE BAKER

Carry on and strive to keep at your command
Justice, freedom, democracy and helping hand;
Auxiliary of the Legion, our task is not in vain
Ever loyal we will be, Legion and auxiliary
To the Red and White and Blue.

This radio theme song must be our song of duty this year, remarked Mrs. Irvin Riegel, president of Umpqua unit. All aid to the nation in the form of service in emergency volunteer civil defense tasks must be given by the auxiliary, she said.

Mrs. Victor Micelli has been appointed chairman of emergency service and is urging all members who are not enrolled in some form of defense service to do so now.

In what other group of women in America can you find hundreds of trained hospital workers, hundreds who have benefited from child welfare schools of instruction or who have made a study of problems in national defense and of legislative procedures, Mrs. Micelli asked.

Roseburg's unit has members in the motor corps, rescue squads, first aid instructors, Red Cross production, hospital workers, air filter station warning service and in nutrition for better family living.

Miss Lucy Case, nutrition specialist from O. S. C., will hold a food demonstration beginning at ten o'clock Friday in the basement of the Methodist church. Leaders and club women throughout the county are urged to attend.

Charming homemakers are being trained at senior high. Your president and the writer were priviledged to attend an impressive initiation ceremony Thursday night. Daintily groomed in their flowing gowns the officers told how it was their purpose that each member of the home economics club should learn to be charming, cooperative and dependable, and thus gain their goal of happiness.

Happiness is also the desire of the Legion auxiliary for the disabled veterans in our hospitals, explained Mrs. Walter Olmscheid, unit chairman of rehabilitation. To reach this goal the auxiliary spent more than a million dollars and gave friendly assistance to over 127,000 veterans last year, she said.

Merry Christmas may be said by many a veteran to his family because of the gift shop at the hospitals, Mrs. Riegel said. In Roseburg, Colonel Tandy has set aside a room for gifts which are sent in by loving unit members. Each man may choose a gift for each member of his family. This is done because it is not always possible for the men to shop downtown. But the gifts are their own, given to them, and bearing no auxiliary tag, Mrs. Riegel stated. These are wrapped and mailed for the men.

"We want nothing more," said Mrs. Olmscheid, "this year than that we shall as patriotic, Christian women, do our utmost for the disabled veteran. Christmas, the anniversary of the birth of the Prince of Peace, should inspire all Americans to rededicate their services to perpetuating peace for our beloved America. Our hope is to give those now in hospitals, happiness and cheer on Christmas."

Do you have toys you would like to see some child receive this Christmas? Leave them at the fire hall where they will be gathered and repainted for the hundreds in Douglas county who look to the rest of us for happiness on Christmas.

Magazine "Sub" Drive Of Roseburg Junior High Begun

The Roseburg junior high school will conduct its fifth annual magazine subscription campaign for a period of two weeks, beginning today it was announced by R. R. Brand superintendent. The time for the annual campaign was moved forward two months, Mr. Brand said, in order that subscriptions might be used as Christmas gifts.

The project has been carried on by the school as a means of raising funds for school equipment. Started four years ago the proceeds from sales the first year were used to purchase a sound motion picture projector, which has had almost daily use since that time. Profits from the second year's campaign were used to purchase a stage curtain. A sound system, consisting of a central panel, radio and speaker for each class room was purchased and installed with commissions obtained from the third year's campaign. The money raised last year was used to provide extra equipment for the activity clubs, the equipment including ping-pong tables, chess sets, etc.

It is planned to use profits from this year's sales to enlarge the sound system, obtain larger lenses and rewind equipment for the motion picture projector and purchase a large display case for trophies and to secure more equipment for activity clubs.

Merchandise prizes will be awarded to all salesmen. The three highest will receive special awards which will include a bicycle, radio and camera. Additional awards will be given for the largest daily scores.

"This project," Mr. Brand said, "has been adopted in the belief the people of Roseburg would rather have the commissions on their magazine subscriptions put to use for the benefit of our school system, rather than to go personally to itinerant salesmen. This project has been endorsed by local magazine dealers."

Reported A. E. F. Plans Should Not Cause Surprise

U. S. Already at War With Axis, and Troops May Go Overseas if Necessary

By DeWitt Mackenzie
(Wide World war analyst)

The Chicago Tribune caused much discussion with its copyrighted report that a joint army-navy board has prepared a confi[illegible] ... includes provisions for an American expeditionary force of 5,000,000 to fight the axis by July 1, 1943.

That report will stir divers emotions among the American public—but surprise shouldn't be one of them.

Surely there can be few people who don't recognize by this time that the United States is at war with the axis.

Since this is true, the logical corollary is that the government must be prepared to implement the commitment by action. This means that our army and navy chiefs must prepare plans, and they must do so before the event and not after it, unless we have been bereft of all reason.

Every major power in the world has filed away in its secret archives plans calculated to meet all sorts of hypothetical situations. It would be astonishing and most disconcerting to learn, for instance, that our fighting branches didn't have detailed plans for our conduct in event of war with Japan. And the Japanese, shrewd people that they are, naturally are equally prepared.

Allies May Need Men

Most certainly if Hitler tries an invasion of Britain—and that remains a possibility—the British will ask us for naval aid unless they are able to crush the nazi attempt right at the start. Should things go badly for the allies in the Mediterranean, there would be a demand for our navy.

We don't need to rehash the dangers of the Japanese-American crisis.

But what about an American expeditionary land force—say the 5,000,000? Well, come the spring and the intensified fighting, the allies are going to need well-trained and well-equipped man-power. It will be a surprise if they don't turn to Uncle Sam for it.

The great call for man-power will come from the middle east and the Russian theater, as I view it. More and more it seems that this front will develop the decisive land engagements of the war. As remarked before, ultimately the allies will undertake an invasion of western Europe, but this can only come after the German resistance has been broken from other directions.

The British have a great army in the British Isles for defense, or for western continental invasion when the time is ripe. The Yankees will be wanted in eastern Europe and the middle east as things look now.

Landon Says Government Tries to Discredit Press

TOPEKA, Kas., Dec. 5—(AP)—Alf M. Landon told the young republicans in convention last night the 'administration controls the radio" and said "we are overlooking . . . the systematic campaign to discredit the press."

Landon, unsuccessful republican candidate for president in 1936, said administration spokesmen are "attempting to use the holy cause of national solidarity in this great crisis as a smoke-screen to stop all criticism of domestic policies and the national defense failures."

"We are overlooking the perils in the third term business," Landon went on, "the systematic campaign to discredit the press over a long period of years, the continual support of those who believe our capitalistic system is a failure and no longer can perform its historic function.

"The administration controls the radio. If it can make the people of the country lose confidence in the press, and eliminate any real worth while minority party, then anything is possible. We will have a one-party system and the machinery to perpetuate [illegible]"
