**New Officer Arrives at Local Air Filter Unit**

Lieutenant Wm. J. James, who recently has been stationed at the Portland airbase, arrived in Roseburg last night to aid in the operation of the army filter center here. He is to work with Lieutenant J. T. Runyan, commanding officer, who has been on continuous duty since Sunday afternoon, prior to the arrival here of his aide. The filter center, now operating on full war-time basis and on a 24-hour schedule, was given two enlisted men Sunday night to assist the commissioned officers. The balance of the crew is made up of approximately 170 women volunteers and an appeal is being

made for at least 30 more volunteers.

**Oil Operation Movies Viewed at Kiwanis Meet**

Technicolor pictures, exhibited by Al Flegel and Val Strong of the Texaco company, were shown before the Roseburg Kiwanis club at the regular Tuesday luncheon program. The pictures gave an interesting story of oil operations.

Announcement was made of the club's Christmas dinner and party to be held for club members, their ladies and invited guests at Riversdale grange hall at 7 p. m. Monday. Tom Parkinson is chairman of the committee in charge of entertainment.

MANILA, Dec. 10—(AP)—Japanese planes dropped leaflets Monday over the province of Ilocos Norte in extreme northwestern Luzon urging the Filipinos to revolt and stating "we are here to finish the war in the Far East and liberate the Filipino people."

TOKYO, Dec. 10—(AP)—Official Japanese quarters, in denying what they called "United States claims" of the sinking of one Japanese aircraft carrier off Hawaii, suggested that "United States observers might have seen a United States vessel believed to be the U. S. S. Enterprise (19,900-ton aircraft carrier) sink after being hit by Japanese bombs and mistaken for a Japanese warship."

Local dairies, he reports, have received complaints of late milk deliveries. This is not the fault of the milk distributors, Pinniger states, but is due to orders which keep the delivery vehicles off the streets until after the blackout period. Customers are urged to adjust their schedules to meet this situation.

Further warning also was issued with regard to dairy barns, chicken houses, etc., in rural areas. All such plants, it was stated, must eliminate all lights which show through to the outside, otherwise electric service

may be cut off from the offending farm.

**Mrs. Russell Parr of West Roseburg Dies**

Mrs. Russell (Pearl Ione) Parr, 51, died suddenly from a heart ailment last night at her home on Balfour avenue, West Roseburg. Her death came unexpectedly following a collapse shortly after midnight.

Born in Illinois, July 12, 1890, she came to Roseburg with her family from Elgin, N. D., about five years ago.

Surviving are her husband, seven sons and daughters, Carroll, Roscoe, Eugene, Gayle and Ronald Parr and Mrs. Joseph (Zelma) Sand, all of Roseburg, and Mrs. Eldon (Zada) Weber, Marshfield; a brother, Orin Polk, Roseburg; a sister, Mrs. Fae Parr, Elgin, N. D.; and five grandchildren.

The body has been removed to the Roseburg Undertaking company parlors. Funeral arrangements have not been made.

local veterans circles. Mr. Pancoast, a world war veteran, who for a number of years has operated the general merchandise store at Bridge, was a member of Dean-Perrine chapter, Disabled American Veterans, at Roseburg.

He was a member of the V. F. W. post at Myrtle Point. Funeral services are being held at the Holman-Lutz chapel in Portland at 1 p. m. Friday, according to the word received here.

Word was received here today of the death at the veterans hospital in Portland of Albert Pancoast of Bridge, well known in

More than **75,000** DODGE JOB-RATED TRUCKS are in the Army NOW!

**Both Fronts DEPEND ON DODGE TRUCKS**

**Philippines Defense Battles Jap Invaders**  
(Continued from page 1)

have captured the northwestern Luzon port of Vigan today and sea-borne troops landed near the northern port of Aparri in the first full fledged landing on American soil since the war of 1812.

An army communique said the Japanese fought their way ashore at Aparri under the protective fire of their warships amid bombing by American planes which sank one transport and damaged two of five others.

Japanese headquarters admitted two transports were sunk and two were damaged but declared there was no loss of life aboard them.

**Manila Raided**

While the battle in the north still raged, two waves of Japanese bombers raided Manila and its suburbs shortly after noon, hitting hard at military centers including the Nichols air depot, Fort William McKinley and Nielson airport districts.

The port of Iba and Clark airfield were reported unofficially to have been bombed at the same time.

Philippine constabulary reported the paratrooper capture of Vigan, only 200 miles northwest of Manila.

American and Filipino troops went into action immediately against the invaders.

The U. S. army headquarters announced that the enemy was "in heavy force off the northern coast of Luzon, extending from Vigan to Aparri" and had landed at Aparri and perhaps at several contiguous points.

The landing at Aparri, which is 400 miles north of Manila, was under cover of a heavy, nightlong air bombardment.

(A war department communique issued in Washington reported "defeat of a hostile attack against the west coast of Luzon between San Fernando and Vigan," apparently a different operation than the landing at Aparri recorded in the Manila communique. It was not indicated which action was the earlier.)

The two announcements indicate the Japanese attempted landings along a 200-mile length of coast. San Fernando is 150 miles north and west of Manila. Vigan is 75 miles north of Fernando. From Vigan the coast runs north 75 miles and thence west about the same distance to Aparri, which is just west of the central point of the northern coast.)

The nature of the fighting at the points of landing can not be disclosed.

There was intense excitement but no panic in Manila. Many rushed to leave the city but conveyances were hard to find. No taxis were running, and most of the two-wheeled, horse-drawn

**Local Civil Defense Organizations Increase**  
(Continued from page 1)

air defense warning observation posts throughout the county are being operated on a war status and are being fully manned 24-hours daily. Lieutenant J. T. Runyan, commanding officer announced today that 30 or more women are needed to complete the crews necessary for operation of the plotting board and communications equipment. He is endeavoring to organize permanent crews of 21 women each, with each crew working four hours daily.

At the present time difficulty is being encountered in securing women for the "graveyard" shifts—the early morning hours—and he is requesting that women already trained in the operation of the filter center equipment arrange their schedules so that a sufficient number can take over these difficult shifts. They are being asked to volunteer for the early morning work rather than being arbitrarily assigned. Women willing to volunteer for work at the filter center are asked to register immediately, either with Lieutenant Runyan at the armory, or at the chamber of commerce office.

**Motor Corps Beckons**

An appeal also was made today by Mrs. Harris Ellsworth for volunteers for the Women's Motor corps. Under the arrangements now in progress, only the automobiles operated by this corps will be permitted on the streets during blackout hours. The women will provide transportation for all civilian defense units. Arrangements also are being made whereby the women assigned to those corps will provide transportation for all filter center workers, both to and from their homes. This will add greatly to the work of the unit and will require an increase in personnel, Mrs. Ellsworth reports. Women of the motor corps must be licensed and experienced automobile drivers with a record of no accidents. They must furnish their own automobiles for transportation service. Registrations will be accepted at the chamber of commerce office from 2:30 to 5 p. m. today and tomorrow.

In connection with the operation of automobiles during blackout hours, Chief of Police William Moar requested today that all drivers maintain speeds not exceeding 15 miles per hour. This particularly applies to those persons driving to their places of employment in the mornings prior to the sounding of the all clear signal. Such cars must be operated with headlights covered by at least two thicknesses of blue transparent paper, or without lights. Due to the low degree of visibility, it is essential that low speeds be observed, Moar declared.

**Social Priority Frowned On.**

The defense coordinator, Harry Pinniger, appealed today to all members of civilian defense units to subordinate their social engagements, meetings, etc., to the defense work. Some persons, he states, have been reluctant to as-
