Billion a Month **Goal Set in Sale** Of Defense Bonds

CHICAGO, Dec. 18-(AP)-The cation's 35 million wage earners must buy as many defense sav-ings bonds as they possibly can afford, Secretary of the Treasury Henry Morgenthau said yester-

In a prepared address before national meeting of state defense bond sales chairmen and administrators, Morganthau said these was ken contributions" from the wage earners would not be enough and

"I mean a real investment, the very limit that each person can afford without actually taking food and other necessities from himself and family."

Intensification of the defense bond sales is necessary, Morgen-thau said, if the government is to succeed in financing the expand-ing costs of the war "while avoid-ing the immense and dangerous evils of inflation."

"We are in reality fighting two wars—one, the great struggle on all the continents and all the oceans, and the other the war against an insidious enemy here at home. That enemy is inflation.

"The most effective course for us, as we have known from the very beginning, has been to enlist current income and to divert excess spending, to persuade our people to set aside a part of their pay every pay day in defense bonds and stamps."

Farmers as well as wage earners are expected to make regular purchases of bonds in the drive to make "every pay day bond

"A Penny a Plane" **Club Organized by** Citizens of Texas

Harry Adams of Marshall, who started the club here and signed up 200 members in four hours, said the plan was outlined to him by a friend from the Argentine. A South American club rapidly drew 50,000 members, whose con-

tributions made possible the pur-chase for the British of a fighter plane costing \$75,000 each month, Adams was told. Members—anyone may join— are being asked to drop their con-

tributions in boxes to be put up in public places. Funds will be turned over to the federal government.

A penny a plane doesn't seem like much—but with two million members the receipts on seven enemy planes shot down would be \$140,000, Adams pointed out.

"Think how good that will make the fellow who fires the guns feel," he said.
