Logging Trucks Need Tires

It cannot be possible, of course, that the rationing of tires will finally be so tightly enforced that productive industries will be hampered. Various announcements heretofore have made special note of the fact that vital production will be provided with necessary rubber.

It is doubtful, however, if the head-men, located for the most part in sections of the country where logs and lumber are not produced, realize the extent to which the lumber industry now depends upon motor trucks. The action of the local tire rationing board in appealing to Washington for a classification that will permit tire sales to logging and lumber hauling trucks is definitely in order.

With lumber industry trucks in this county using a total of 3,262 tires it is obvious that the 96 tires ordered released for the county will not be sufficient to keep the log trucks rolling. Meanwhile, lumber and wood products have been rated as important defense goods.

As time goes on wood products will become far more important than they are now. Wood can be used in countless places where steel has been employed lately. Wood products will do their part to win the war—but they must be carried out of the forests on rubber tires.

Hope Deferred

HOPE deferred maketh the heart sick. So runs the old proverb, and if it be true, there must be a lot of people in Germany who aren't greeting the new year too cheerily.

A year ago, in a new year message, Hitler said:

"Soldiers, the year 1941 will bring consummation of the greatest victory of our history."

So the year 1941 came and went, and as it closed the great German army was in disarray, withdrawal on the Russian front, while his expeditionary force in North Africa was nearing complete annihilation. Having added Japan as an ally, he has added the United States as an enemy.

Complete victory which seemed almost within Hitler's grasp in mid-1940, and again in mid-1941, has now receded farther than ever, and dances like an illusion will o' the wisp before the tortured eyes of the German people.

Editorials on News
 (Continued from page 1.)

under running attack by German submarines and long-range bombers. Two of the 20 freighters were sunk. The rest reached port. The defending British lost a destroyer and an auxiliary war ship. The Germans lost at least three submarines and at least two long-range bombers.

THE Battle of the Atlantic is one phase of the world war in which we are engaged. The Battle of Luzon is another phase. It is all ONE WAR, whose primary purpose, on our side, is to lick Hitler. When Hitler is licked, the axis will crumble.

FROM Hitler's headquarters (somewhere in Russia) comes this report:

"Defensive fighting in the Moscow sector continues despite INTENSE COLD. In one battle in the central sector the bolsheviks attacked four days and five nights without interruption. Our troops had almost no rest, and this was

in the SEVEREST COLD AND SNOWSTORMS.

IN late June of 1912, Napoleon invaded Russia with an army of some half million men, of whom 250,000 were seasoned veterans. In late November of the same year he got out of Russia with less than 20,000, of whom only 8000 answered the rollcall. The rest were disorganized stragglers.

In his entire Russian adventure, from its beginning to its disastrous end, Napoleon NEVER LOST A BATTLE. He took every city at which he directed his efforts.

His staggering reverses on the plains of Russia, which set the skids for his ultimate descent into oblivion, were brought about by the terrible Russian winter and the vast Russian distances which made supply of his army impossible.

That is something for Hitler to think about.

UNCONFIRMED Swedish reports assert that the Germans are already building defenses along the Polish border, which was the jumping-off place for Hitler's invasion on June 22.

Napoleon crossed the river Niemen into Russia (through what is now Poland). It was not until it recrossed the Niemen on its way back that the shattered remnant of his army found sanctuary from the pursuing Russians.

These Swedish rumors may not be wholly moonshine. What has happened once can happen again.

OUT OUR WAY

Increase Yield Of Tomatoes, Urge On Douglas Farmers

Douglas county farmers who have land suitable for the production of tomatoes are overlooking a great opportunity if they fail to put in large crops for the 1942 season, according to L. A. Smith, manager of the Riddle Valley cannery. There is every indication, he reports, for a big demand and a good price on tomatoes, and as Douglas county, which normally has a longer growing season than any other county of the state, is ideal for tomato production.

The federal government, Mr. Smith reports, is asking that tomato acreage be increased 100 per cent over last year and that tomato producing sections furnish 40 million cases for 1942, an increase of 20 million cases over normal years.

Reports received from some of the larger production areas are that contracts for 1942 already have been made at \$16 per ton, minimum, Mr. Smith states.

Possibilities are, he reports, that the Willamette valley yield will be materially reduced, due to heavy losses resulting last season from blight which could not be controlled.

Mr. Smith suggests that growers who have proper ground should make plans at once to set out as much acreage as can be handled. Plant men should be advised immediately regarding seed needs so that seeds can be produced, cold frames provided, fertilizer obtained, and other preparations made to supply the grower with plants.

With regard to financing, he suggests arrangements with banks or local business interests, rather than waiting for aid through federal agencies, due to the danger of delay beyond the time for required advance preparations.

Roosevelt's Naval Aide Will Head Annapolis

WASHINGTON, Jan. 6—(AP)—Capt. John Beardall, President Roosevelt's naval aide since last May, has been selected as the next superintendent of the naval academy at Annapolis, it was learned yesterday.

His nomination as rear admiral is now before the senate.

The president is understood to have chosen Capt. Beardall for the post because he wants a vigorous young man in the job who can speed up the vital wartime task of educating and commissioning naval officers.

In order to satisfy the increased demand for naval officers, the navy department has shortened the Annapolis course and has set up a 120-day special officer's course to train civilian college graduates.

Copco Revenue Mounts, But Net Income Drops

SAN FRANCISCO, Jan. 6—(AP)—California Oregon Power company reports a rise in revenues but a decline in net income for the final month of 1941 compared with 1940.

Revenues increased to \$476,995 from \$455,927, while net income declined to \$83,074 from \$94,971. Figures for the first 11 months

Costa Rica Rounds Up 50 Germans on Spy Counts

SAN JOSE, Costa Rica, Jan. 6—(AP)—Police yesterday arrested fifty Germans on charges of espionage and subversive activities. Informed circles said they might be sent to the United States for internment.

The arrests were said to have been made after police discovered a plot to destroy oil tanks belonging to the West India Oil company, a Standard Oil subsidiary.

Among those taken into custody, it was reported, were many prominent Germans who established business in Costa Rica many years ago and others who arrived in recent years ostensibly on business trips but actually as undercover agents.

Don't Buy Outfit for Air Raid Protection, Advice

SAN FRANCISCO, Jan. 6—(AP)—Citizens were advised by the office of civilian defense yesterday not to buy air raid protection equipment unless advised to do so by their own air raid wardens. Federal defense and production agencies and the war department were reported conferring in Washington to arrange for the distribution of protective equipment where it is most needed.

Tourist Bureau Not to Advertise This Year

SALEM, Jan. 6—(AP)—Because of the war the Oregon highway commission tourist bureau will not advertise this year.

Acting director Ben Titus announced that the bureau's only activities will be the printing of road maps and answering of letters seeking information about the state.

Oregon Protests Plan to Remove War Industries

PORTLAND, Ore., Jan. 6—(AP)—Oregon organized opposition yesterday to a war department plan to keep future war industries at least 400 miles inland from the west coast.

Gov. Sprague said the fate of a \$20,000,000 aluminum rolling plant projected for Fairview, Ore., 12 miles east of Portland, would be decided in Washington, D. C. this week.

He said he had discussed the situation by telephone with Robert P. Patterson, assistant secretary of war, and Jesse Jones, RFC head. Both promised to consider Oregon's objections, Sprague said.

K. C. Conyers president of the Portland chamber of commerce, said at least one army general thought the region could be defended from attack. Conyers added other industries here would require protection and addition of another plant would not increase the defense problem.

Chromite Sands Near Bandon to Be Worked

PORTLAND, Jan. 5—(AP)—Earl K. Nixon, director of the state department of geology and mineral industries, predicted Saturday that beach deposits of chromite oxide in the black sands north of Bandon would be developed soon.

He said the deposits could make up one-eighth of the national need annually, or 92,295 long tons of chromite concentrate.

He added that one operator has contracted to supply 90,000 tons of chromite concentrate to the federal metals reserve corporation's stockpile.

Good Results of F. B. I. Activities Cited to Congress

WASHINGTON, Jan. 5—(AP)—Attorney General Biddle told congress Saturday that the Justice department's normal work of law enforcement had been "almost overshadowed" by special defense activities during the year ended June 30.

The department has achieved substantial success" which "will not be diminished in the future—however arduous may be the days that lie ahead," Biddle said in the annual report of the agency.

Summarizing the activities for the year, during which he was attorney general, Associate Justice Robert H. Jackson praised the federal bureau of investigation "technique of counter-espionage" to prevent crime.

He cited the case of a German spy ring, recently convicted in New York, in which the FBI had operated a radio station for the spies and thus controlled the information sent to the Nazis. "The spies were arrested, he said, when "no further advantage seemed to accrue from continuing the operation."

The FBI reported that its investigations led to a record total of 6,182 convictions during the year, including 412 cases classified under national defense. There were 58 national defense convictions in the previous year.

Wendell Berge, assistant attorney general in charge of the criminal division, reported that 31,640 alleged violations of the selective service act had been received. The division closed 10,814 cases without prosecution. Convictions were obtained in 303 cases.

Thurman Arnold, head of the anti-trust division, said that "concentration of defense contracts has aggravated" the dangers of narrowing economic control, and that "the scattering of enough contracts to keep small business alive is now recognized as of paramount necessity."

Aluminum Plant Job Not Halted, Portland Told

SALEM, Jan. 6—(AP)—Forty employees of the Miles Lincen company ended their 22-weeks old strike last night when they accepted a new contract increasing minimum wages from 40 to 45 cents an hour. They are expected to return to work tomorrow.

Your Federal Income Tax INCOME TAX DON'TS

DON'T prepare your income tax return until you carefully read and understand the instructions accompanying the forms. Make out a work-sheet and check it with the instructions before filling in the forms.

DON'T delay in making out your income tax return. Tax problems deserve careful study, and the early assembling of your data expedites this.

DON'T, if your gross income is \$3,000 or less and is wholly from salary, wages, or other compensation for personal services, dividends, interest, rent, annuities, or royalties, file your return on Form 1040 without carefully considering the option to file the simplified Form 1040A, since the filing of your return on either form in such case constitutes an election which prevents you from filing an amended return on the other form.

DON'T overlook the fact that for the majority of taxpayers the tax for 1941 will be two or three times as much as for 1940 and that it is important for you to save out of your weekly or monthly earnings, or otherwise provide, a sufficient amount to pay your tax when it becomes due. For the calendar year 1941 the tax is payable on or before March 16, 1942, or it may be paid in four equal installments on or before March 16, June 15, September 15, and December 15, 1942, respectively. If any installment is not paid when due, the whole amount of the tax unpaid is required to be paid upon notice and demand from the Collector.

DON'T omit any explanation or information that is essential to a complete audit of your return. An ounce of care may save you a pound of unnecessary expense, and time and annoyance both to you and to your government.

Ex-Governor, Son Face Charged in Georgia

ATLANTA, Jan. 6—(AP)—Former governor E. D. Rivers was indicted Saturday on charges of embezzlement and conspiracy to defraud the state.

Several other state officials in the regime of Rivers were indicted by a Fulton county (Atlanta) grand jury on charges of attempted bribery, conspiracy to defraud and various felonies.

Among these was the former

DAILY DEVOTIONS
 DR. CHAS. A. EDWARDS
 God of our fathers whose almighty hand Leads forth in beauty all the starry band Of shining worlds in splendor through the skies. Our grateful song's before Thy throne arise.

Thy love divine hath led us in the past. In this free land by Thee our lot is cast. Be Thou our Ruler, Guardian Guide and Stay. Thy word our law, Thy paths our chosen way.

From war's alarms from deadly pestilence, Be Thy strong arm our ever sure defense, Thy true religion in our hearts increase Thy bounteous goodness nourish us in peace.

Refresh Thy people on their toilsome way. Lead us from night to never-ending day. Fill all our lives with love and grace divine. And glory, land, and praise be ever thine. Amen. (Daniel C. Roberts.)

governor's son, E. D. Rivers, Jr.

Presentments of the grand jury said its investigations had shown "most shocking and shameful conditions" in state affairs in recent years.

Sprague Intervenes in Furniture Plan Strike

SALEM, Jan. 6—(AP)—Governor Sprague said today he would lend his good offices in an attempt to settle a five-day-old strike of 1600 CIO employees at the Doernbecher Furniture company at Portland.

He agreed to forward to the company a proposal by unionists, who accused the management of refusal to arbitrate. Terms of the proposal were not disclosed.

Aluminum Plant Job Not Halted, Portland Told

PORTLAND, Jan. 6—(AP)—The war department notified K. C. Conyers, local chamber of commerce president, yesterday, that it did not order work halted on the \$20,000,000 aluminum rolling plant 12 miles east of here.

Construction halted Dec. 31 on order of the defense plant corporation and later it was announced that projected war industries would be moved to safer territory in the interior.

Conyers said he was trying to learn which agency induced the DPC to issue the order and added a decision on the plants location would be made in Washington, D. C. this week.

Student Registrations U. of O., and O. S. C. Drop

EUGENE, Jan. 6—(AP)—Student registration at University of Oregon declined 68 per cent to a total of 2504 on the opening day of winter term yesterday.
