War is a Matter of Faith

WAR is a matter of faith. War is not a chess game in which men sit in favored nooks...

War is not a balance of forces, in which some geometrical ratio between the productive power of one group is balanced out on a sheet of white paper...

War is not entirely factory against factory, gun against gun, plane against plane...

War today is not color against color, or race against race, or even nation against nation...

We have today a conflict of faiths, as we have had so many times in the world's past.

We are going to win this war, for many reasons. Not alone because we will pile up the greatest mound of munitions...

We are going to win this war because we have faith that we must win. We are going to win because we have faith that the things we fight for are good...

The other side believes it is ordained to establish a superiority over other men. The German and the Japanese believe (the Italians do not really believe it) that they are somehow chosen to dominate others...

The other side believes man is a puppet, a cog, a unit. We believe man is a personality, a soul, a collaborator. We believe he is competent to get together with his fellowmen and to rule himself...

The guns are necessary. The tanks, and the planes are necessary. The industrial production is necessary. The whole material panoply of victory is necessary...

Pearl Harbor and the Highways

THE wounded from Pearl Harbor are arriving in the United States. It is a spectacle to which the rest of the world has long been inured...

The wounded from Pearl Harbor, however, have given their lives or their bodies to a cause that is worth defending, worth suffering for...

P. T. A. Meeting Announced—The Greens school P. T. A. has announced an important meeting for Friday night at eight o'clock at the schoolhouse...

Pearl Harbor—and for nothing. We cannot spare any more in these days the toll of the road, the dead who produce nothing, the wounded who suffer...

Enlist Them—Naturalize Them!

THOUSANDS of Filipinos in the United States are unable, because of a quirk in the naturalization laws, to serve in the United States military forces.

When Congress gets back to work it might well consider a law providing for enlistment of these eager Filipinos in the U. S. forces, with further provision for their citizenship on honorable discharge.

things that go to make living fuller and richer and more pleasant. Things such as automobiles and radios and mechanical refrigerators and electrical appliances of all kinds...

Now, suddenly, our need is for weapons of war with which to defend this American way of life we have been so happily building up.

All we have to do to meet this need is to turn our productive energy into producing weapons instead of devices for making living richer and fuller and pleasanter.

In order to do that, we shall have to DO WITHOUT (temporarily) the things that have made our American way of life so pleasant—for we haven't the capacity to produce both kinds of things at once.

And if we don't produce the weapons we need we may LOSE our pleasant American way of living.

CEASE worrying about taxes. Cease worrying about DOLLARS. Dollars are only COUNTERS in this game we are called upon to play.

If we work loyally and efficiently, if we produce to the extent of our great capacity the things we must have to win the war and learn intelligently to do without (temporarily) the things we don't HAVE to have...

When we stop thinking in terms of dollars and begin to think in terms of THINGS we will have begun to make real progress.

DON'T get excited. Don't hoard. Don't try to do without the things that are present in abundance—such as food and clothing and shelter...

Just go ahead and do your job the best you can, accept what deprivations are necessary without complaining, buy what there is to be had (and there will be plenty of a lot of things)...

DAILY DEVOTIONS

DR. CHAS. A. EDWARDS

O God, our help in ages past, Our hope for years to come, Our shelter from the stormy blast, And our eternal home.

Before the hills in order stood Or earth received her frame, From everlasting Thou art God To endless years the same.

A thousand ages, in Thy sight, Are like an evening gone; Short as the watch that ends the night Before the rising sun.

Under the shadow of Thy throne Still may we dwell secure; Sufficient is Thine arm alone, And our defense is sure.

O God our help in ages past, Our hope for years to come, Be Thou our guide while life shall last And our eternal home. Amen. (William Cowper.)

LETTERS to the Editor

VALUE OF AIR SPOTTERS STRESSED BY MATRINE

Roseburg, Ore., Jan. 5, 1942

Editor News-Review: I received this message from my son, that I feel you will be glad to print in your paper. It should carry encouragement to those who are patiently serving at the observation posts...

"You can't over-estimate the importance of air raid spotters. No fooling, we are helpless if we can't get in the air before they reach their target. I know it takes great patience to be always on the alert. If the enemy really does try something you can be sure he will be high and hard to spot. Ninety per cent of winning a fight is the way you engage the enemy, and climbing up from below is the worst way."

Sincerely, MRS. ELVIN CLOAKE

Will Install Officers—Florence Nightingale tent, No. 15, Daughters of Union Veterans of the Civil War will hold its annual installation of officers Friday night at 7:30 o'clock at the Knights of Pythias hall.

Louis Picked to Beat Buddy Quickly

By SID FEDER

NEW YORK, Jan. 8.—(AP)—The biggest pile of "fresh" ever collected under one roof in the history of boxing will be heaped in the middle of Madison Square garden's ring tomorrow night...

This chunk of exchequer has been lured in by the heavyweight championship shindig between Joe Louis and Buddy Baer, and since that's our way when the cause is good, by the fact that the show is for the navy relief fund for the families of sailors at sea or those killed in action.

So far as the nose-flattening itself is concerned, Louis, making his last trip to the post before trading in his trunks for a soldier suit—and possibly his last outing for keeps—is high and hot for this one.

This corner, having watched him tear sparring partners apart to see what makes them tick, picks the bomber to give Buddy enough, and a little extra, before the bell sounds starting the fourth.

Buddy's not afraid; he has a right hand that packs a can of ether, and when he fought Louis last May he gave Joe a whiff of it.

But he is easy to hit—and when a fighter has that nasty little habit, the safest way to fight Joe is out of a bomb proof shelter.
