New "Thin Man" Episode Good as Predecessors

By L. K. P. "The Shadow of the Thin Man," featuring William Powell and Myrna Loy, which opened last night at Hunt's Indian theatre and will continue through Tuesday, has proved to be as entertaining as its two predecessors, "The Thin Man" and "The Last of the Thin Man." The fast-moving comedy revolves around the finding of a jockey shot in a shower room at the race track stables, and the murder of a newspaperman. The murder has been cleverly carried out and only the sleuthing of the famous detective, "Nick Charles," played by Bill Powell, and his charming wife, Nora, played by Myrna Loy, brings the slayer to justice. The Nick Charles' young son and their dog, "Asta" come in for their share of adding enjoyment to the play.

In addition to the main feature, an unusually clever cartoon comedy is presented as well as news of sports and the filming of President Roosevelt's recent address to congress on national defense. A special spot comedy, "The New Lambeth Walk" (without permission by A. Hitler) furnished additional entertainment to the movie goers.

Surviving are five sons and daughters, Charles Morgan, West Branch, Mich.; James Morgan, Roseburg; Goldie Walker, Roseburg; Betty Graham and Helen Auli, Detroit, Mich.

Funeral services will be held at the Tenmile church at 2 p. m. Wednesday. Services will be conducted in the Tenmile cemetery. The Roseburg Undertaking company is in charge of arrangements.

It is expected the class will be held six hours daily, six days per week, for a period of three weeks. A local contractor is expected to be in charge. Men completing the course will have an advantage in securing employment in the contentment work.

There is no fee charged for membership in the class, as all instructional costs are paid by the federal government under the defense program.

Auto-Tire Ration May Cut Program At Hatcheries

Possibility of a greatly curtailed program at state hatcheries is foreseen as a result of automobile and tire restrictions, James Vaughn, superintendent of the game commission trout hatchery at Rock creek said today. Mr. Vaughn stated that he is keeping only about 750,000 of the Utah rainbow trout eggs taken at the hatchery this year, although more than one million fry were hatched and released last year. About three million eggs were taken from the brood fish at the hatchery, but those not being hatched at Rock creek are being sent to other state hatcheries.

The game commission, he states, is holding back on expenses due to the fact that curtailed use of automobiles and a drastic reduction in tourist travel may cause a very great drop in revenue to the commission through a cut in the number of angling and hunting licenses. Mr. Vaughn reports also that the winter steelhead run in the North Umpqua is considerably later than usual. Up to the present time, he states, there have been very few steelheads taken at the hatchery while ordinarily at this time of year he is holding a large number of fish. Fishermen report good catches of winter steelheads in the lower Umpqua and in the south fork, but apparently only a comparatively few fish have entered the colder and clearer North Umpqua.
