

Papooses Set For Journey to Take On Ashland Quint

By MICKEY CAMPBELL. The Roseburg junior high Papooses journey tonight to Ashland, where they will play the Ashland junior high basketball team.

Reports which have come in about the Ashland team are that the players are small but extremely fast.

The Roseburg team will stay over night at Ashland with their opponents. Arrangements have been made whereby each player of the host team entertains one of the visiting team.

action the appropriations committee made it clear that the program was a "preliminary step" toward President Roosevelt's goal of 60,000 planes this year and 125,000 in 1943, and that still more huge sums of money would have to be allocated.

Billions Requested of Congress for Warplanes

Nazi Prisoners Bagged in British Raid on Norway

The above photo taken during a raid of British Commandos on Norway shows German prisoners being herded on invasion barges. The raid also gave many anti-Nazi English and enter the service of the allies against the axis. It led, however, to severe Nazi reprisals against their relatives and fellow patriots at home.

riars building, 7 built; 54 cruisers building, 37 built; 193 destroyers building, 171 built; 73 submarines building, 113 built—in all 346 building, 345 built.

Record Output in Full Swing

With "good strong foundations" already established, America is on its way today to "outbuilding the world" in planes and tanks—the "two most important weapons" in modern war—and is stepping up rapidly all lines of war output.

Moreover, said a "report to the nation" issued by the newly formed office of facts and figures, the navy has 346 new combat vessels under construction—double its present strength; contracts have been let for 999 merchant ships; the army is expanding toward a possible 7,000,000 men, and economic warfare is proceeding on world-wide fronts.

Some of the highlights of the report: 1. Production of all weapons and supplies will be increased nearly 300 per cent in 1942 over the last 18 months.

2. Army warplane production has been "stepped up to the point where, with Great Britain, we soon will exceed the plane output of the axis countries. More important, we will have the plant capacity to increase our production to the point where we can seize control of the air in all areas of the world struggle."

4. Plans and tank production this year will equal that of Hitler "in all the years before 1939 when he was preparing to conquer the world."

5. Despite "all handicaps," production of tanks and combat vehicles is more than three times that of a year ago; guns of all types nearly five times as large; ammunition, nine times. "We already are producing light and medium tanks in quantities and the first heavy tank was delivered to the army the day we declared war on Japan."

6. At the time of the attack on Pearl harbor, the navy was building 15 battleships to add to its 17 already built; 11 aircraft car-

had been thrown back 300 miles from the Egyptian-Libyan frontier, is 80 miles south of Bengasi on the gulf of Sirte.

Cairo bulletin said axis troops, screened by a swirling red sand storm, lunged forward from the Mersa Brega sector, 25 miles northeast of El Aghelia, on the second day of what was described as a "reconnaissance in force" yesterday.

Astonished by the setback, at the peak of the British drive toward Tripolitania, London military quarters suggested heavy aerial reinforcements must have reached the Germans and Italians.

The German high command reported briefly that German and Italian troops are following up the defeated enemy and claimed the destruction or capture of 10 British tanks, 46 guns and more than 100 vehicles.

Japan Conquest Sweeps Closer to Australia

(Continued from page 1) between Australia and New Guinea and force allied shipping into a 3,000-mile detour south of the Australia mainland.

Australia Pleads For Aid In swift alarm, Australia ordered blackouts in all cities, militia units were equipped with full battle dress, and the commonwealth war cabinet was called in emergency session. Urgent new appeals were sent to Washington and London stressing the need for reinforcements.

The locale of the Japanese landing in New Guinea was not given, but presumably the invaders put ashore near off-bombed Madang, on the northeast coast, 450 miles airline from Cape York, Australia, and 1,200 miles from Australia's great Port Darwin naval base.

Deputy Prime Minister Forde, warning that "we must realize the gravity of the situation," said it was assumed that the Japanese had also landed at Rabaul, New Britain island, where the British garrison had withdrawn after firing and dynamiting dock installations at the approach of a Japanese flotilla of 11 ships late yesterday.

Subsequently, Forde announced that the only confirmed landing in the Bismarck archipelago—which includes New Britain, New Ireland and small adjacent isles—was at Keito, 250 miles south-east of Rabaul.

A fleet of commercial airliners, carrying double loads, evacuated 800 women and children from Rabaul in the last few hours before the Japanese landed there.

Japanese Premier Tojo boasted that Japan was assured of further triumphs in "Greater East Asia," and declared: "I am not afraid of America, although I do not dismiss lightly the huge military expenditure called for in President Roosevelt's message to congress."

Tojo asserted that in manpower "Japan tops the world." On the Malayan front, the Melbourne radio broadcast a message from Maj. Gen. Gordon Bennett, Australian commander, frankly conceding that the situation "if anything is more serious than it was a few days ago."

Poser for F. D. R.

NASHVILLE, Tenn. — "Dear Mr. President," wrote a worried Davidson county registrant. "Confidentially, I am married and in class 3-A. My wife is some 12 years older than me. What I want to know is, if I divorce her and marry Miss x x x, who is several years younger and loves me very much, will you still keep me in class 3-A?"

President Roosevelt's office relayed the query to the registrant's local board for action.

RHS Senior B Quintet Loses to Yoncalla, 29 to 28

By MICKEY CAMPBELL.

The Roseburg senior high B squad was defeated at Yoncalla in a close basketball contest by Yoncalla high school last Wednesday 29 to 28. The Bees held a narrow margin throughout most of the game but lost it momentarily in the last quarter. They then drove out in front again and held a one point margin as the final minutes were ticking away but Yoncalla scored a field goal in the last ten seconds of play.

According to Coach Swartzkopf, coach of the B squad, all of the local players turned in exceptional performances. None of these players has had much experience and their ability to hold up while playing on an opponent's floor showed they have great promise, the coach said.

The B squad is made up entirely of sophomores and juniors who are not on the main "A" squad. They are thus able to obtain valuable playing experience although they are not on the main team. By limiting the B squad to sophomores and juniors, the prospects for next season are developed and all these players remain to replace gaps in the main team. Already the B squad has played three games this year and has several yet to go.

As time goes on they improve rapidly, due to more confidence and general floor play. Several of last year's B squad players are now on the varsity team so the value of these games has been proven. Lineups for the Yoncalla game were:

Roseburg (28) (29) Yoncalla Wiley (4) F. (6) Gross Anderson (11) F. (4) Shapiro Olson (3) C. (8) Williams Dishman (4) G. (2) Wright Caey (2) G. (2) Bigelow Maulding (4) and Clark (2). Marsters (2), Main (2).

Japanese Premier Tojo boasted that Japan was assured of further triumphs in "Greater East Asia," and declared: "I am not afraid of America, although I do not dismiss lightly the huge military expenditure called for in President Roosevelt's message to congress."

Tojo asserted that in manpower "Japan tops the world." On the Malayan front, the Melbourne radio broadcast a message from Maj. Gen. Gordon Bennett, Australian commander, frankly conceding that the situation "if anything is more serious than it was a few days ago."

Dispatches from Singapore said

grim-fighting British, Australian and Imperial Indian troops who had stemmed Japan's main invasion armies for three days now are throwing their full weight into a terrific counter-offensive, with the battle raging on an 80-mile front across Johore state, less than 70 miles north of Singapore.

The Japanese were throwing planes over all sections of the front and once more raided Singapore, where in the last three days their bombs have been officially credited with killing 420 persons and wounded 1,049.

British Retreat in Burma

British troops faced with superior Japanese forces are being withdrawn from the mountain areas east of Moulmein, Burma, it was announced today as the Japanese moved to within 26 miles of the Gulf of Martaban port.

Fighting with the Japanese are Thai troops.

The British were said to be moving their forces back to points where transport and communications were better.

Moulmein, the latest objective of troops driving westward from Thailand, was raided by Nipponese fliers yesterday. Seven civilians were killed.

The port of Burma had two air raid warnings this morning while an even larger than usual number of British and American volunteer corps fighters patrolled the skies.

Japanese Base Blasted

The Japanese base in French Indo-China which was attacked by Chinese bombers yesterday was Hanoi, the capital, Reuters in London reported today in a dispatch from Chungking.

Reuters said 15 fighter planes of the American volunteer group took part in the raid, carried out by 57 planes. The others were 27 Chinese bombers and 15 Chinese fighters.

Not a Japanese plane took off to offer resistance, the dispatch added, and all of the Chinese and American planes returned safely.

The British radio relayed today a report that Chinese guerrillas had crossed the Yellow sea and stormed Japanese naval headquarters on Yoko island, off the coast of Korea.

Use of Gas Threatened

In a possible attempt to pave the way for Japanese use of gas attacks in the Philippines, a Nipponese government press spokesman has acted as a sounding board for charges that American troops have utilized gas bombs against the invaders.

In a radio Tokyo broadcast, picked up by a CBS listening post in San Francisco last night, the Japanese press official, supposedly in commenting on reports appearing in Japanese papers about the alleged American use of gas, was quoted as saying he "would not be surprised to hear that news, judging from the barbarous and desperate tactics so far resorted to by American troops."

The broadcast stated the spokesman did admit "he had no official report about it."

Joins Marines—Robert Hollinger, son of E. W. Hollinger, of Myrtle Creek, has enlisted in the marines through the recruiting office at Eugene. Upon completing physical exams in Portland, he left Tuesday for San Diego to receive training. He is a former student of Myrtle Creek high school.

Compromise Reached On Price Control Bill

(Continued from page 1)

than taxes, estimated that food costs might rise as much as 11 to 15 per cent under the compromise measure because of restrictions placed on farm price ceilings.

"Even so, I think this is a good workable bill," he said.

Bankhead, who sponsored the amendment to give the secretary of agriculture a virtual veto power over price ceilings of farm products, was jubilant over conference acceptance of this provision. President Roosevelt openly opposed the restriction, although officials noted that the chief executive always had an ace in the hole, because both the price administrator and the secretary of agriculture serve only at his pleasure.

The compromise set prices during the period October 1 to 15 of last year as standards for the price ceilings with the exception of farm prices. In this field the price administrator could not fix ceilings or order reductions below the highest of these: Average farm prices for the period 1919-29; or 110 per cent of parity prices determined by the department of agriculture.

War Profits Assailed

Demands that congress take immediate steps to limit war profits were sounded in the senate yesterday by Chairman Walsh (D., Mass.) of the senate naval committee.

"Checkbooks will not win this war," Walsh shouted as he asked what drafted men in the armed forces must think when they read congressional reports of excessive profits and new millionaires.

Assorting that he favored a strict limit on all war profits, Walsh said that while "soldiers getting \$21 and \$31 a month were pouring out their life blood, wealth is being piled up and more millionaires are being made."

Walsh recalled that from 1924 to 1938 congress placed a profit limit of 12 per cent on aircraft and 10 per cent on navy vessels and that in 1938 congress reduced these to 8 and 7 per cent but these limits were removed in an appropriation measure.

"I was bombarded by the of-

fice of production management, by the National Manufacturers association, and by aircraft manufacturers with protests on the profit limits," Walsh said. "They said it would delay our naval expansion program because there was no limit on profits of subcontractors who would take more profitable foreign orders."

Close Call

RICHMOND, Ind. — Merlin Frank told the 15-year-old boy who had come into the store he couldn't buy a gun because he was too young.

Then, his back turned to the youth, the salesman heard him say, "stick 'em up and don't move." He turned and looked into the muzzle of a rifle the boy had taken from a display.

Frank walked toward him. The boy pulled the trigger. Nothing happened. He put down the gun and ran out.

The salesman looked at the rifle. In the firing chamber was a cartridge. But the safety catch was on.
