

West Coast Needs Constant Alert, Dies Tells House

WASHINGTON, Jan. 29—(AP)—Representative Dies (D., Tex.) told the house yesterday that "unless the government adopts an alert attitude there will occur on the west coast a tragedy that will make Pearl Harbor sink in significance."

The Pearl harbor disaster, Dies said, was largely due to "the fear of displeasing foreign powers and a maudlin attitude toward fifth columnists."

He said the tragedy might never have occurred had the house committee on un-American activities, which he heads, been "permitted" to disclose last September its findings on Japanese espionage.

Dies said he would make public within a week or two "a full and complete report" on Japanese espionage and sabotage in this country, including official letters disclosing "the true attitude of official Washington toward the whole fifth column question."

Turned Down by House.
Dies was arguing—unsuccessfully—in favor of his amendments to specify communists and bundists as foreign agents in a pending alien propaganda registration bill, and force them to file lists of their members and records of their finances.

The house, by a standing vote of 228 to 40, rejected Dies' motion to recommit the bill to committee and then passed it as it stood, without specifying the groups he named.

A joint house and senate conference committee recommended elimination of the Dies amendments, contending that everyone engaging in activities for a foreign power was blanketed by the measure and that the specifications were not necessary.

Senators Plan Inquiry.
Senator Bone (D., Wash.) said yesterday that Pacific coast senators will meet soon to consider the problems arising from the presence of large numbers of Japanese on the coast and will survey measures taken to protect the people from air raids and fifth column activities.

"We want to thresh out the question of whether a definite program of protection is under way and whether the controls are adequate. Lot of people out there are badly frightened," Bone said.

There are about 14,000 Japanese in Washington and a large number in California, he pointed out.

Other senators have complained about vague answers from the government when attempts to learn of protective steps are made.

Loss of Tankers Means Gas Rationing, Claim

PHILADELPHIA, Jan. 28—(AP)—Sol A. Herzog of New York, counsel for the eastern states gasoline dealers conference, predicts that gasoline rationing is "just around the corner," because of tanker-torpedoings and military requirements.

He told about 400 delegates from 14 states yesterday that the fuel may be one of the first commodities rationed by Leon Henderson under his new powers.

The dealers, in a series of resolutions, proposed a mandatory closing of stations between 7 p. m. and 7 a. m. and a dealers' margin of five cents a gallon on sales instead of four cents.

Owners Asked to Call for Dishes at C. of C. Office

It was reported today from the office of the Roseburg chamber of commerce that a number of unclaimed dishes are being held at that office. The dishes were used at Christmas time, when a group of Roseburg women provided food for a number of soldiers. Some of the dishes were not collected by their owners and were removed to the chamber of commerce office. It is requested that they be claimed immediately. Those not claimed within the next few days, it is stated, will be given away or destroyed.

Civilian Defense Arms Only for Police Aides

SALEM, Ore., Jan. 28—(AP)—Civilian defense workers will not be armed except in the case of auxiliary policemen, who may carry arms only when local police authorities believe it advisable, the state civilian defense council said today.

The council also warned its volunteer workers not to discuss locations of aircraft warning service installations, and asked county councils not to assign persons who are not physically fit to activities which require strenuous effort.

The councils advised persons who have gas appliances to turn off stove burners during blackouts or air raids, but not to turn off the pilot light. The main gas valve at the meter should not be turned out just for a blackout, but it should be off if bombs actually drop in the immediate neighborhood.

Waste Materials to Be Collected in Oregon

SALEM, Jan. 28—(AP)—The state defense council announced today that Governor Sprague would appoint a state salvage committee to supervise the collection of waste materials. The committee would function as part of a nationwide campaign.

Materials to be collected include waste paper, scrap metals, rags, and used rubber.

Chairmen of county defense councils will organize county salvage committees. Material collected will be sold

to waste dealers or given to charitable organizations. The salvage campaign will last until the war ends.
