Women themselves discovered how to tell good GRAPEFRUIT

Easy as rolling off a log to choose good grapefruit. The heavy, round grapefruit is usually full of juice. The lighter grapefruit probably runs more to thick skin.

If you put your grapefruit on the scales and weighed them—then you could tell the good juicy ones. Then you could get your money's worth.

The way to get full value is to pick out your own grapefruit. And then pay by the pound. And that's how your Safeway now sells grapefruit.

Not only grapefruit. All the many advantages of buying by weight are available at your Safeway nowadays on every kind of fruit and vegetable.

You can even select each carrot and each beet—get just as many or as few as you want, and pay only for what you get.

Come in and try buying your fruits and vegetables this full-value way, by the pound. When you do, you'll realize how far it makes your money go.
