R. L. Russell Will **Head Fraternal Week Committee**

Appointment of Ralph L. Rus-il as local chairman of a committee to head observance of Na-tional Fraternal week, May 4 to 9, was announced here today by Raymon L. Wilson and Maurice Hudson, both of Portland. Mr. Wilson and Mr. Hudson, directors in the Oregon State Fraternal congress, have been assigned to organize the southwestern Ore-gon district for the special ob-

servaine.

The National Fraternal congress, composed of the various fraternal orders, has selected Oregon as one of five states in which special programs will be conducted during the week, it was reported. The Oregon congress, seeking a plan in which the fra-ternal spirit could best be public ly exemplified, decided to ask the lodges in each of 20 of the princi-pal cities of the state to unite in sponsoring a benefit for the Shrine hospital in Portland.

New Benefits Needed
It was pointed out, the state di rectors said that the hospital will probably suffer a material drop in revenue, due to the diversion of public contributions into the war effort, unless some new type of benefit is arranged. As the Oregon Fraternal congress values the work of the hospital most highly and believes that it should be given continued support dur-ing the war period, it was the opinion that a series of state-wide benefits would be the most suitable type of fraternal demonstra-

The local committee will be authorized to determine the type of benefit to be arranged and all orders will be asked to join in the activity.

The state committee, it was announced, is headed by Mayor Riley of Portland, Mayor A. J. Young of Roseburg was contacted by Mr. Hudson and Mr. Wilson during their visit here and gave

For Uncle Sam-2918 Pounds in Five Hours

A troop of Scheneetady, N. Y., Girl Scouts, anxious to aid Uncle Sam's war effort, helped launch a drive to collect metal, paper and miscellaneous junk that can be put to martial use. The scouts, three of their leaders, a woman from the Red Cross Motor Corps and a man from the office of Civilian Defense who supplied a truck, campaigned through their city for five hours. The girls, and one of their leaders, are shown above with pert of their collection—70 pounds of white cotton, 2350 pounds of newspapers, 18 pounds of mixed metals, 450 pounds of magazines and 30 pounds of rags. The scouts sold the lot for \$18—and forthwith bought a Defense Bond to be held by the Girl Scout council.

production activities thus far has made only an oral report, the chief executive said. But the question is discussed, he added, at nearly every cabinet meeting.

TEXAS SALON THINKS WAR WON'T END DURING 1942

SULPHUR SPRINGS, Tex. April 10—(AP)—Rep. Sam Ray-burn, speaker of the house, said last night the United States now has six times as many soldiers on the battle fronts—after four months—as General Pershing had after 10 months of the war of 1917-1918, and that production of supplies for these troops was run ning ahead of schedule.

But despite this bright picture the Texas democrat told a unity rally, he did not expect the end of the war in 1942.

He sketched this outline of

irms production. More than 3,300 planes are pouring out of factories monthly, well ahead of schedule, tank pro-duction is ahead of schedule with one company alone turning out an entire trainload daily, and anti-aircraft gun production is in advance of schedules.

Production goals in shipping undoubtedly will be met by sum-mer or early fall, and Garand rifles are rolling out of factories by the thousands. Enough of the latter are available to equip every soldier who needs one.
