Increase Storage, Wheat Growers Urged by Wickard

ENID, Okla., April 29.—(AP)—The nation's wheat farmers were urged today by Secretary of Agriculture Claude R. Wickard to start building more farm storage at once and told that future goals limited to 40,000,000 acres for flour milling might be necessary to maintain parity. Excess wheat would go to industrial and feed uses.

"It is no news to you," the cabinet member told an interstate farm audience today, that just five days before the national wheat quota referendum for the current crop, that "wheat farmers face some of the toughest problems in American agriculture."

"Storage space is already crowded. We have a year's requirements of wheat on hand and with the kind of yields in prospect there will be a tremendous shortage in storage capacity for the country."

"With terminals overcrowded, no steel or other necessary materials available for new elevators, and no chance to squeeze through by utilizing box cars for storage as was done last year, there is only one way out—farm storage."

A seven cents per bushel storage allowance will be available if the quota system is continued, Wickard said.

Hit-Or-Miss Won't Do
While it is the war duty of American farmers to produce more than ever before, hit-or-miss expansion won't do, Wickard said. "Farmers would delay victory by growing things that are not needed."

"This is where marketing quotas come in."

He reiterated statements of a year ago that no loans on wheat could be made unless the quotas are approved May 2.

Pointing out that in other wheat surplus nations prices to the farmer are higher than in this country, he said that no loans on wheat could be made unless the quotas are approved May 2.

Ladies Auxiliary to Eagles, Roseburg Aerie, No. 1497—Meets in Maccabee hall on Cass street, on second and fourth Tuesday evenings of each month, at 1 o'clock. Visiting sisters in good standing always welcome.

CLARA STEIWIG, M. Pres.
ESTHER BAKER, M. Sec.

producers were much under those to cooperating American farmers, he estimated that with loans and payments the latter would get \$1.00 per bushel this year.

Those who look back to the \$2 and 30 wheat of the first World war and think that with a bigger war, more demand for wheat will develop, reason faultily, Wickard said. Then the United States was the great exporting nation. Now Canada, Australia and Argentina have surpluses. Nor is shipping available now as it was then.

Even after the war, the secretary added, America's share of the world wheat trade likely will be small and will be disposed of at a price under parity.

Society

RIVERSDALE GRANGE TO MEET FRIDAY NIGHT

Riversdale grange will meet Friday night at 8:15 o'clock at the hall. Refreshments will be in charge of Mr. and Mrs. R. B. Hampton, Mr. and Mrs. C. T. Tipton, Mrs. C. E. Marks and Mrs. Eldon Ogle. All members of the grange are urged to be present.

The members met the hall grounds last Friday to improve the grounds, after which a potluck supper was held.
