Anti-Axis French Smash Parade of Fascists

BERN, Switzerland, May 27.—(AP)—A parade of French fascists at Beziers in unoccupied France was broken up today by allied sympathizers in a street battle which involved about 1,500 persons, it was reported, as political discussions at Vichy centered on possible adjustment of Italy's extensive territorial demands.

Information from the occupied zone said the fight at Beziers, a town in southern France near the coast west of Marseille, was ended by police intervention.

The paraders were carrying anti-British and anti-Churchill placards when jeers from people on the sidewalks started the fighting.

Admiral Rene Platon, secretary of state in the vichy foreign ministry, made a bitterly anti-British speech at Beziers yesterday.

Women of U. S. Being Enrolled For Army Service

WASHINGTON, May 27.—(AP)—Women enrolled today at regular army recruiting offices for the first time in history—seeking selection to be among the first candidates in the women's army auxiliary corps.

In the line of applicants at the Washington recruiting office was an indication of the nationwide response, thousands will apply for places among the first 450 candidates to report at Fort Des Moines, Iowa, about July 15.

Applications will be accepted through June 4 but evidently many women here thought an early application would help their chances.

The first woman said she was Sybil Batchelor, 21, who thought her education in physics and other science subjects at the Woman's college of the University of North Carolina would qualify her for a radio assignment. She now works in the bureau of standards.

Next in line was a navy department worker, her hair streaked with gray, who would not identify herself. The age limits are 21 to 45.

From those enrolled throughout the nation each of the nine corps area headquarters will select 60 candidates for recommendation to the war department. The department will select 40 for training. It will also designate 90 candidates from members of the aircraft warning service to make the total 450.

Laughing Eyes, a 29-year-old Creek Indian, in full tribal regalia, was among the first of more than 250 women who stormed army recruiting offices in New York to apply for enlistment. She said she was a graduate of Haskell institute, Lawrence, Kan., and her brother, Straight Arrow, had joined the navy last month.

Lightning Bolt Wrecks Mount Scott Lookout

The forest lookout station on Mt. Scott, near Glide, was badly wrecked when it apparently suffered a direct hit by a bolt of lightning recently, Fred Southwick, supervising warden of the Douglas Forest Protective association, reported today. The damage to the structure was discovered Tuesday, when Southwick went to the station on a regular trip of inspection.

The roof was torn from the building and all windows shattered, he stated. The lightning struck the telephone, although the instrument had been disconnected, shattering the equipment into bits, Southwick reported. The lightning travelled along the telephone wires in two directions from the station and jumped insulators and grounded on trees for a distance of a quarter of a mile each way.
