

### Athletic Outlook At Roseburg High Regarded Bright

By MICKEY CAMPBELL  
Prospects for a successful athletic program at Roseburg high school next fall are very bright, according to Coach Jim Davis, as far as loss by graduation goes. An odd fact is that each of the five inter-school sports in which Roseburg participates loses just two lettermen by graduation. In football Marcus Wells and Tony Anderson will be lost by graduation while nine lettermen are due to return when Coach Davis issues the call next fall. In basketball Ed Hughes and John Ness are lost while three lettermen and a flock of experienced reserves are due back. In both football and basketball new recruits can be drawn from last year's B squad teams. In track Don Krogel and Marcus Wells are the two seniors who will fail to return but six lettermen will be back and an experienced man can be fielded next spring in every event which will be quite a difference from last year. Ed Hughes and Ralph Sandstede are the two lettermen in baseball who graduate while eight holdover lettermen are due back and in tennis John Ness and Mickey Campbell will be lost but two other lettermen will return. Thus it would appear that prospects in every department are bright.

#### Some Games Scheduled.

The football and basketball schedules have been tentatively completed and Roseburg has scheduled to date games with Springfield, Cottage Grove, Lebanon, Reedsport, University High, Ashland, Grants Pass, and Sweet Home for football and Grants Pass, Medford, and Ashland in basketball. Four games with each school have been scheduled for basketball giving the locals a 12-game schedule there and an eight-game schedule in football. The spring sports have not yet made their schedules as that is too far ahead to plan now.

Coach Davis expressed great pleasure with the support of the high school students who turned out in such large numbers for the various sports. A much larger turnout was recorded this year than usual and this was very pleasing in these times as physical conditioning is so important now. All sports reported a successful season.

CLASS OF 1942  
**ROSEBURG HIGH SCHOOL**  
Commencement, Friday, May 29

**PROGRAM**  
Processional, "Pomp and Circumstance".....E. Elgar  
High School Orchestra  
Invocation.....Dr. Morris H. Roach  
Salutatory.....Ruby Parker  
Vocal Solo, "A Spirit Flower".....Campbell-Tipton  
Mr. Leroy Hiatt  
Mrs. C. H. Beard, Accompanist  
Valedictory.....Anita Young  
Introduction of Speaker.....Supt. W. M. Campbell  
Address, "We Hold These Truths".....Dr. William C. Jones  
Treble Choir, "The Artisan".....(Repeated by request)  
Poem by Edwin Markham  
Music by Harriet Ware  
"That You May Know".....Margaret Thompson  
Presentation of Class.....Principal C. H. Beard  
Presentation of Diplomas.....A. A. Wilder  
Benediction.....Dr. Morris H. Roach

**CLASS MOTTO**  
It's not the gale, but the set of the sail, that determines the way we'll go.

**CLASS FLOWER**  
Gardenia

**CLASS COLORS**  
Red and White

**Class Roll**

### Oregon's Metals To Aid Heavily in War Production

The Oregon mining industry will make a most important contribution to the nation's effort in production of strategic metals during the ensuing months, Ray C. Treasher, field geologist with the state department of geology and mineral industries, reported here today. The production program now is being severely handicapped by continued snow in the mountain areas and the inability to open roadways into the mines, but as soon as weather conditions permit it is expected that mine operations will be begun on a scale heretofore unparalleled in Oregon.

Mining of chrome in the southern Oregon district and the development of the black sands of the southwestern Oregon benches for vital minerals already has started on a large scale, he reports, and will show increasing growth as soon as more favorable conditions arrive.

There is widespread activity in development of nickel deposits and several large concerns are preparing to take over operation of various nickel bearing properties in the southern part of the state.

Mr. Treasher reports that plans already are in progress to assure continuation of mining activities in the post-war period and it is believed that the industry will make a very rapid growth in importance and income during the next few years.

He spent today in Roseburg meeting with local persons having mining problems in which the advice or aid of the state department is needed.

### Serious Charge Faced By Boy Scout Leader

CANYON CITY, May 27.—(AP)—Trial of Leland S. Ewing, Prairie City assistant postmaster and boy scout leader, on seven indictments charging a statutory offense involving 20 scouts, was set today for July 8. Judge Hendricks, presiding, fixed the trial date.

### Roosevelt Names New Civil Aeronautics Head

WASHINGTON, May 27.—(AP)—Charles I. Stanton of Florida was nominated by President Roosevelt today to be administrator of civil aeronautics. He succeeds Donald H. Connolly.
