Winter Legume, Ryegrass Price Schedules Fixed

A liberalized price schedule that will permit eligible county producers to sell all grades of winter legumes and annual ryegrass seed to commodity credit was announced by the county AAA office.

The new schedule provides a much wider range of grades than the 1941 program, and permits the purchase of lower grades of seed that come within minimum requirements. Deductions for each one per cent that germination and purity tests fall below requirements for the top grade will give the farmer full value for his seed and eliminate the need for recleaning to make a specified grade, the county AAA office pointed out.

Prices for the top grades are the same as announced last fall, when many county growers signed agreements to sell at least half of their 1942 seed crops to the government. Requirements and prices for top grades, and deductions for lower grades, were announced as follows:

Austrian winter peas—germination, 90 per cent; purity, 90 per cent; \$5.00 per hundred. Discounts for each one per cent below these requirements are germination, 7.5 cents; purity, 1.5 cents. Minimum requirements are germination, 70 per cent; purity, 70 per cent; total winter legumes 98 per cent.

Hairy vetch—germination, 90 per cent; purity, 95 per cent; total winter legumes, 98 per cent, \$10 per hundred. Discounts for each one per cent below these requirements are germination, 15 cents; purity, 8 cents. Minimum requirements are germination, 70 per cent; purity, 70 per cent; total winter legumes, 98 per cent.

Common vetch—germination, 90 per cent; purity, 90 per cent; total winter legumes, 98 per cent; \$5 per hundred. Discounts for each one per cent below these requirements are germination, 7.5 cents; purity, 1.5 cents. Minimum requirements are germination, 70 per cent; purity, 70 per cent.

Willamette vetch—blue tag, \$6.50 per hundred; red tag, \$6.30 per hundred; yellow tag, \$5.90 per hundred; white tag, \$5.50 per hundred.

Crimson clover—germination, 85 per cent; purity, 96 per cent; \$10 per hundred. Discount for each one per cent below the germination requirement is 15 cents per hundred. Minimum requirements are germination, 65 per cent; purity, 96 per cent.

Common ryegrass—germination, 90 per cent; purity, 98 per cent; \$5 per hundred. Discounts for each one per cent below these requirements are germination, 7.5 cents; purity, 5 cents. Minimum requirements are germination, 75 per cent; purity, 95 per cent.

Schedules were also announced for purchase of Monantha vetch at \$6.50 per hundred, and rough and perennial peavine at \$10 per hundred for top grades.

The price of hairy vetch will not be discounted for the presence of woolypod, rough or perennial

peavine. Purple and Hungarian vetch will be purchased as common vetch.
