that was merely a foray by a few planes, they are proceeding on a wide front.

SEATTLE, the dispatches tell us, is stripped for action. Its state of mind may be guessed from this statement by Stephen F. Chadwick, former national commander of the American Legion, and now morale chairman for the Seattle civilian war commission:

"Morale is high, but rumor-mongering is continuing following the attack on Dutch Harbor and radio silences. More rumors are circulating this week than at any time since the war began. Each civilian must recognize that we are in a total war and must conduct himself accordingly."

THAT is true. The time is past when war was confined to the fighting services. Morale behind the lines is now as important as morale in the fighting lines themselves.

This fact, however, can't be overlooked:

Americans have been accustomed to ALL the news. They are not ignorant. They are not children. They have stamina. As long as they know what is going on, they can be trusted to keep their heads and follow leadership intelligently. The confusion and the sense of futility that follow the shutting off of news contribute to rumor-mongering and wild rumors spreading from mouth to mouth don't strengthen morale.

The public should be given every bit of news that is possible without tipping the enemy off to vital war secrets such as the disposal of forces.

Too rigid censorship, by undermining civilian morale and resulting in the spread of unfounded rumors, can work FOR the enemy as well as against him.

ON other fronts than the Pacific, the war news is relatively quiet.

Rommel is reported to be moving STRONG reinforcements into the tank battle in Libya. How strong his reinforcements may be is the point of chief interest. Germany has been moving heaven and earth to reinforce him from across the Mediterranean.

Of equal importance is the strength of the British reserves—which, of course we do not know. The Libyan tank battle isn't over yet.

RAF bombers report hits on the German battleship von Tirpitz and the heavy German cruiser Hipper at Trondheim. So far, the Germans haven't been able to get their surface navy into action against the American-British supply line to Russia, British bombers crippling it faster than it can be repaired.

We hail the formation of the local state guard company as a step toward the greater security of our home in the time of trouble over the world.

Farewell Auto Graveyards

LARGE loads of junk, obviously taken from auto "graveyard lots" have been passing through our city lately. The indication is that a lot of the stuff we formerly sold and shipped to the Japs is now being salvaged for our own use.

To gather up this iron and steel is a great thing for national production in the war effort. Certainly thousands of tons of the material is available. The Oregon State Motor Association estimates that around 7,000,000 junked cars are now piled up in various parts of the country, and will yield five million tons of scrap steel in addition to considerable amounts of aluminum, copper and brass.

But in addition to these benefits to the country is another extremely important one: These auto graveyards have been horrible unsightly messes and have contributed a problem for almost every city large and small, in America. Because a man who deals in junk autos is as much entitled to the peaceful operation of his business as any other man, these junk yards have not been molested. Instead they have grown and grown. Generally they occupy splendid locations right at the edge of the city. We have them here.

Although we respect the right of the junk car fellows to make a living in that way, we shall be delighted when all of their junk has been duly salvaged and shipped to conversion plants.

It is even possible that the heavy demand for metal may continue and may lead to the end for always of auto graveyards.

Editorials on News

(Continued from page 1.)

The first time Japanese battleships have been reported east of their home waters.

So large a force so far from home (Midway is more than 2,000 miles this side of Yokohama) suggests that the Japs mean business.

THE scope of the Jap plan is hinted at by their attack on Dutch Harbor, which is nearly 2,000 miles from Midway. Unless

Bonham's Victory Streak Snapped in Ninth Attempt

Yankees' Ace Hurler Loses To Cleveland on a Timely Hit by Opposing Pitcher

By AUSTIN BEALMEAR Associated Press Sports Writer

Nearly everybody in the major leagues, it seems, are working on a "streak" of some kind these days, but the ones who hope to keep them intact will take a tip from the New York Yankees and steer clear of Al Smith, the Cleveland southpaw.

Ernie Bonham is the latest to tangle with Lefty Al, whose portside tactics have made him an unpopular citizen in the vicinity of the Bronx.

Sporting a record of eight straight victories and topping the patching ranks of both leagues, undefeated Ernie Bonham of the Yankees went after number nine

in a four-run sortie, they drove out five safeties, as many as Sylvester Johnson allowed Sacramento altogether.

In spite of another loss Saturday, 5-1, earlier successes gave the Senators the series 6-4. Homer Offset Bad Hurling

Salveson of Oakland, gave Los Angeles 13 hits in six innings of a baseball game yesterday.

He gave the Angels five runs, all earned, in the same period of time, and before he retired early in the ninth he had been touched for 15 safe blows in all. Yet the Oaks won the game, 8 to 6, and Salveson received credit for the victory, although he wasn't around at the finish. A six-run eighth inning did it, rookie outfielder Westlake's round tripper with bases loaded providing the decisive punch.

Salveson's success, however, was but an incident in a week-end of flourishing good fortune for the Oakland team.

Outfit in both Sunday encounters, the Angels also won the second, 4-3, with four-ply blows again accounting for a major proportion of the runs. Glenn cracked one in the sixth, scoring Rigney ahead of him, and Westlake repeated in the extra-inning eighth to end the game.

Ananiev and Yelovick blanked the Angels on four hits from the third inning on after the league-leaders had connected for seven safeties in the first two frames.

The double victory, combined with a 6-1 win Saturday, salvaged for Oakland four games to three, a series which had seemed beyond recall and lifted the club into fifth place, a whisker above San Francisco.

Seals Win Series After losing to Hollywood 5-3 Saturday and 6-5 in yesterday's opener, San Francisco managed a 4-2 victory in the second Sunday game and by that margin took the series, 4-3.

A ninth-inning balk by Joyce broke up the first game yesterday. Two were out and Uhalt of Hollywood was holding down third base when the Seals right-hander made as if to throw to first, where Kalin reposed. The umpire waved Uhalt home with the winning run.

Hits by Lewis and Perry, together with a walk to Fain, brought San Francisco two fourth-inning runs in the night-cap and broke a 2-2 tie which had existed from the first.

A showdown battle for first place is the prospect for this week. Los Angeles and Sacramento are clashing in a series opening tomorrow on the Senators' grounds. Portland plays at Hollywood, Oakland at San Diego and Seattle at San Francisco.

against the Indians yesterday.

But Lefty Al Smith, Cleveland hurler, had ideas of his own.

Heving lasted less than an inning against the American league leaders, who drove him to cover with three hits and as many runs.

Then Smith came along and checked the Yanks with a single run the rest of the way while his mates tore into Bonham and tied the score.

And when Boudreau singled in the ninth for the 11th blow off the Yankee ace and moved to second on a sacrifice, Smith stepped up and lashed out a hit for the sum that won the game, 5-4.

Cleveland's success was short-lived yesterday, however, for the Yanks splattered home runs all over the place in the second game, winning 13-1 behind Chandler's five-hit pitching and dumping the Indians into fourth place as the Boston Red Sox moved into third.

Detroit Clings to 2nd Spot The Detroit Tigers held on to second place in the American league, ten games behind the Yanks, by dividing a double bill with the Washington Senators. Detroit took the first game, 6-4, with the timely hitting of Higginson and Cramer, but Masterson blanked the Tigers on four hits in hurling the Senators to an 8-0 win in the afterpiece.

The Boston Red Sox tripped the Chicago White Sox twice, winning both games by a score of 3-2 and scoring the winning runs in the final frames. Doerr and Tabor clouted ninth inning home runs for the opening victory and Finney drove in the run which decided the nightcap.

Continuing their flirt with the first division, the St. Louis Browns knocked off the Philadel-

phia Athletics in both games, 5-2 and 7-1.

Cincy Moves Up in Race

In the National league, the Cincinnati Reds took a pair from the tumbling Boston Braves and moved into third place, vacated by the New York Giants who lost a twin bill to the St. Louis Cardinals.

Four unearned runs helped the Reds win their first game, 6-2, but it took a ninth-inning homer by Lamanno to decide the second, 3-2.

Pollet pitched the Cards to a 4-1 triumph over the Giants in their opener and Cooper made it unanimous with a four-hit 2-0 shutout.

The Brooklyn Dodgers clung to their seven-game lead over the Cards by winning a pair from the Chicago Cubs, 8-4 and 4-3.

The Pittsburgh Pirates, who replaced the Cubs in sixth place and boosted their longest winning streak of the season to four straight, came from behind twice to nip the Philadelphia Phils, 5-4 in ten innings, and 8-6 in a game held to seven innings by the Sunday law.

Oregon Convicts to Get Outside for Ball Game

PORTLAND, June 8.—(AP)—Warden George Alexander predicted today that at least nine convicts would get away from the state penitentiary next Sunday.

They will be members of the prison baseball team, and their leave will be only long enough to permit them to play against the Portland army all-stars here in a benefit game for the army recreational fund.

It will be the convicts' first game outside prison walls.

AT THE NATIONAL

WASHINGTON, D. C., June 8.

Being contemplated is a "cavalade of heroes" to make a tour of the country to strengthen morale and pep the people in the war fever. At the head of the cavalcade is to be Gen. Jimmy Doolittle, who led the bombing attack on Tokyo. As headliner, he will be supported by an all-star cast of outstanding aces who have been developed in the war in the past six months. One of the purposes of the tour would be the sale of war bonds as the heroes would be a bigger drawing card than the recent cavalcade of movie stars.

Although Jimmy's group practiced in eastern Washington and Oregon, working out of Pendleton air field, and there were a number of boys from the northwest Jimmy is the only one who will be in the cavalcade, his associates still being, presumably, at Shangri-La. Wherever Shangri-La may be (it is an official secret) the Japanese suspect that it is somewhere in China and this is the explanation given for the Nips now making a drive to push the Chinese further inland and controlling the China coast so it cannot be used as a jumping off place when Jimmy bombs Tokyo again.

Native Oyster Threatened. The Japanese "drill" which may be considered as boring from within, has become so destructive to the high priced Olympia oysters that extinction of this native bivalve is threatened, according to a statement made to the senate committee on appropriations. This "drill" was imported along with the seed oysters from Japan. Plea for a federal investigation to overcome the Japanese "drill" was declared justified because of the high nutritive value of the Pacific coast oyster, which is higher in glycogen and other solids than eastern oysters; the necessity of increasing this type of sea food to compensate for the decrease in high-seas fisheries, and because the largest portion of the oysters produced on the coast is used for canning. The investigation has been requested by the department of fisheries of the state of Washington and by a similar organization in Oregon, as both states have an oyster industry.

Save Fats and Oils. About 250,000 meat dealers are to be pressed into war work. They will display posters where housewives can see them readily when they come to buy soup bone or porterhouse. Housewives of the northwest will soon be requested to save the fats and oils left over from cooking and give these materials to the meat shops.

Behind this newest drive is the need for glycerin and the fact that the packing plants, which have been directed to slice off all fats from meats, cannot produce enough. Before December 7, 1941, bulk of the glycerin supplies came in the form of oils (copra) from the southwestern Pacific and these oils were used in the manufacture of glycerin. The collecting will start as soon as the posters are ready for distribution to butcher shops throughout the country.
