What You Boy With WAR BONDS

Barbed wire used by Uncle Sam's fighting forces is vastly different from that used on American farms. Army and Marine barbed wire is much heavior and the barbs, about three inches in length, are more victous than ordinary barbed wire.

The Marine Corps pays fifty cents for each twelve yards, or 36 feet of this specially manufactured barbed wire. The Army and Marine Corps needs thousands upon thousands of feet for defensive warfare. Your purchase of War Bonds and Stamps will insure sufficient quantity for their needs. Invest at least ten percent of your wages in War Bonds every pay day.

NATION'S HOLIDAY TOLL

(By the Associated Press)
Violent death took its lowest
holiday toll in years over the
two-day fourth of July week-end, with only 337 lives reported lost as against a 628 total for the three-day celebration of the fourth last year.

Gasoline rationing on the pop-ulous eastern scaboard, war plants operating everywhere over the holiday and fireworks re-strictions combined to lessen ac-cidental deaths. Of the total deaths reported in

a nation-wide Associated Press survey, 169 resulted from traffic accidents, 93 from drowning and 75 from miscellaneous cause
