Zip 'Em! THERE is a cute little phrase heard and seen often now—"Zip Your Lip." It is important.

But somehow in the quiet peace of this Umpqua Valley, we may find it difficult to realize that the enemy might derive some benefit from loose talk in this corner of the world.

The enemy will likely not spend much time looking for needed information in the obvious places. In the immediate vicinity of a defense installation, for example, would be a very poor place to obtain accurate information regarding it—that is if such information were secret.

More Rubber Needed OREGON has every right to be very proud of its record in the rubber salvage drive. We are either third or fourth in the 48 states—50 counting the District of Columbia and Alaska.

But the job is not finished. The drive for scrap rubber did not yield enough. We must dig deeper—even we Oregonians who have done their part in getting the old rubber to the reclaiming depots.

City Folk Urged to Help Harvest Cherries, Berries SALEM, July 7.—(AP)—Salem business men said today they would urge their employes to take their families into the cherry orchards, where hundreds of pickers are needed to harvest the cherry crop.

Governor Sprague appealed to residents of Portland and nearby communities to pick berries. He said 2000 pickers are needed immediately.

Bill Creating Ranks for Nurses in Navy Signed WASHINGTON, July 6.—(AP)—Ranks of navy nurses—ranging from ensign to lieutenant commander—were established today by a bill which President Roosevelt signed into law.

The navy nurses corps, established in 1908, never had a legally prescribed relative rank. The new law will bestow upon nurse superintendents the relative rank of lieutenant commander. Assistant superintendents, not to exceed one for each 300 corps members, will have lieutenant's ranks. Chief nurses become lieutenants, junior grade, and ordinary nurses, ensigns.

Father Penalized for Aiding Draft-Dodger Son SEATTLE, July 6.—(AP)—Fred Langenbach, 63, who aided his 22-year-old son, Floyd, to evade the draft, was sentenced today by Federal Judge Black to serve 15 months in the McNeil Island penitentiary.

OUT OUR WAY

Concerning the NORTHWEST As Viewed at the National Capitol By John W. Kelly

WASHINGTON, D. C., July 7.—One of the shells which whanged away on the coast of Clatsop county landed and exploded almost 1,000 feet from the summer home of Rufus Holman, junior senator from Oregon, at Gearhart. The senator busied himself on the wire, being a member of the military affairs committee, and telegraphed Gen. "Hap" Arnold why the northwest coast was not better guarded. The senator, it appears, made a check-up on the aerial defenses and he wanted to know where were the observation and other planes supposed to be stationed in that region. His own investigation was poorly rewarded. The war department replied with a many-worded message couched in such careful language that it told the senator nothing.

Senator Holman wondered why, with the submarine bombardment continuing for 30 minutes, patrol planes did not appear from Tongue Point, in the estuary of the Columbia. With a 24-hour alert, engines warmed up, planes from Tongue Point could have been dropping eggs on the submarine in two minutes. Nor were planes from Portland or Pendleton brought to the scene. Nor could the senator learn that any planes from McChord field or Everett looked for the submarine off Vancouver island.

Suspicion is that all the available air force in the Pacific northwest had been sent to the Alaskan theater of war, where it is said that the Japanese are so certain of holding their Aleutian foothold that they are planting potatoes at Kiska.

Rubber Situation Bad A good showing has been made by Oregon and Washington in the rubber scrap drive sponsored by President Roosevelt, but the nation as a whole has fallen down. Nor has all the waste rubber been collected in the northwest states.

Thus far the old rubber collected is insufficient for the needs of the armed forces, with nothing for the United Nations (which United States is supposed to supply) nor anything for civilian demands. The rubber situation is worse than originally surmised and while every effort will be made to provide means of transportation for workers in war industries, the prospect of what it implies for this country to be deprived of cars is causing apprehension. The effect on the morale of the domestic scene when 60,000,000 or more people are handicapped with no means of transportation is disquieting.

In a desperate attempt to overcome the rubber shortage the government is endeavoring to expedite the production of synthetic rubber or plastics and is impatiently awaiting the results of dandelion, goldenrod and other plants which yield something like rubber. A dozen different proc-

esses are claimed for synthetic rubber but only a few have received encouragement from war production board. The one principal hope is that American ingenuity will discover something that will provide tires.

Dispute in Logging Industry Three different groups are arguing over the price of logs in the northwest states. There is a differential favorable to Washington mills and certain of the Oregon loggers resent this. Washington loggers reply that the differential was established by the loggers many years ago without any government suggestion.

Sawmill men, particularly in the plywood industry, do not want the price of logs increased, and sawmill operators not manufacturing plywood say that if the log price goes up it will be necessary to ask more from the consumer, which would automatically curb the market. This is the controversy which the office of price administration is trying to straighten out.

Passengers on Evacuee Ship Under FBI Scrutiny

JERSEY CITY, N. J., July 7.—(AP)—The last of 942 passengers were allowed to leave the diplomatic exchange vessel Drotningholm last night, just 12 hours short of a week of the arriving from Lisbon last Tuesday. They had been held while federal agents gave ship and passengers a searching examination.

Three hundred passengers have been sent to Ellis island for further questioning. State Department questioning, State Dept. Representative J. E. Saugstad said. He did not disclose the object of the investigation, which FBI and military agents have been carrying out with much secrecy.

News of Men From Douglas County In War Service

First Sergeant Olaf Peterson of Roseburg prefers Oregon winters to those of Australia, according to a letter received by his parents, Mr. and Mrs. J. A. Peterson, of 1026 Military street, Roseburg. Sergeant Peterson, who left for Australia in February, reports that the rainy season has started and that he is becoming quite tired of the continued wet weather. It was the first letter his parents had received since his departure, and he reported that mail from home, long delayed, was starting to arrive. He reported himself and the members of his company in good health and spirits. Sergeant Peterson was employed by the News-Review before entering military service.

Word has been received here by relatives of Richard A. Eastman, Jr., a resident of Winston, that he has been promoted to corporal, and has been assigned to officers' training school. He now is located at Brookley field, Mobile, Ala., where he has been serving as an inspector of airplanes. However, he is being transferred to Miami, Florida, where he will be commissioned as a second lieutenant after attending training school.

Patch and Chat Club to Meet—The Patch and Chat club will meet Wednesday evening at the home of Mrs. C. Domenico

Baseball Stars In Military Service Billed Tonight

Opponents Will be American All-Stars, Victors Over Nationals on 2 Home Runs

CLEVELAND, O., July 7.—(AP)—A great patriotic throng of 60,000 to 70,000 spectators is expected to comfortably fill Cleveland's massive municipal lake front stadium tonight to witness the greatest stars in baseball battle to swell the fund of the army and navy emergency relief funds.

The competing teams will be Uncle Sam's soldiers and sailors managed by Lieut. Gordon "Mickey" Cochrane, one-time pilot of the Detroit Tigers, and the ever-familiar stars of the American league, victorious in New York's Polo Grounds last night over the National league All-Stars, 3 to 1. The American leaguers will be led by the veteran Joseph McCarthy, manager of the world's champion New York Yankees.

Feller, Cleveland's own great 23-year old fireballer, or Rigney, former ace of the Chicago White Sox, both right handers, will be on the firing line at the start for the service All-Stars, with Cleveland's Bagby, another right hander, the choice of manager McCarthy. Bagby has won nine and lost four to date.

Two 1st INNING HOMERS TRIUMPH FOR AMERICANS NEW YORK, July 7.—(AP)—Better All-Star games possibly will be played than last night's spectacle at the Polo Grounds in which the American league once again slugged the National into defeat, 3 to 1, before a benefit crowd of 33,649, but it is difficult to imagine one more dramatic.

One minute after Lombardi of the National leaguers lifted a lazy fly to right field to end the contest, pitch darkness closed over the big arena as part of New York City's second wartime blackout. For 22 minutes the crowd that had cheered itself hoarse for two hours sat tense and almost silent.

They sat as at a wake for the blasted hopes of the National leaguers, who had entered the 10th annual struggle with a burning determination to win and had seen their chances vanish almost with the first pitch.

Last night's game was over to all intents and purposes when Boudreau, Cleveland's manager, laced the second ball pitched by Cooper of the St. Louis Cardinals into the deep left field stand. The Nationals from that instant must have felt it was hopeless. The crowd did, anyway.

The next American leaguer, Henrich, bumped a double into right-center, and after the next two men went down York of the Detroit Tigers lofted a homer into the upper deck in right field.

From there on, with the Americans boasting a three-run lead and their pitchers—Chandler of the Yankees and Benton of Detroit—setting the Nationals down inning after inning, there never was much doubt that the Junior leaguers had won their seventh victory in 10 All-Star duels.

Owen Also Gets Homer Mickey Owen, the Brooklyn catcher whose failure to stop a third strike made him the goat of the 1941 World Series, saved his side from a shutout with a pinch home run off Benton in the eighth. He was the only National leaguer to get past second base, as Chandler and Benton issued only six hits.

Joe Gordon, the Yankees' great second baseman, found the National league hurling particularly puzzling, striking out his first three times at bat and rolling out weakly on the fourth. His fielding, however, made up for his lapses at the plate.

Canada Strengthening West Coast Defenses VICTORIA, B.C., July 6.—(AP)—Vice-Admiral Percy W. Nelles, Chief of Staff in the Royal Canadian Navy, disclosed over the weekend that the heads of the three armed services on the Canadian Pacific coast and their operational staffs are being moved to Vancouver, "setting our house in proper order to meet an attack if it comes."

Admiral Nelles said the danger of attack was not more imminent, but that it was believed Vancouver Island and all Canadian west coast defenses would be strengthened by the move.

Baughman's Cats Claw Dunham's in Softball Battle

Softball League Standings. W. L. Pct. Boucock's... 2 0 1.000 Texaco... 1 1 .500 Baughman's... 1 2 .333 Dunham's... 1 2 .333

Baughman's Alley Cats marked up their first victory of the season in the local softball league last night by defeating Dunham's Transformen 4 to 2 in an exciting contest. The game was marked by much sensational fielding, with the Alley Cats making some seemingly impossible plays to nip rallies of the Dunham sluggers.

Hits were even, with each team turning in five safeties, but the Alley Cats were able to bunch the blows gathered off Kenny Laurance, while Applegate kept the bingles by the Transformen well scattered and was given excellent support in the field.

Despite the fact that the teams this year contain many new players, games so far this season have been very close and interesting. A league game is played each Monday and Wednesday at Finlay field, starting at 7 p. m. No admission is charged.

Wednesday night Boucock's Butchers will meet the Texaco Chiefs in what is expected to be a very hard-fought contest for league leadership.

The short score of last night's game: R. H. E. Alley Cats... 4 5 5 Dunham's... 2 5 5 Applegate and Glenn; Laurance and Schermer, Dunham.

Glendale Engages New School Superintendent GLENDALE, Ore., July 7.—Franklin Shaw, formerly of St. Maries, Idaho, has been elected by the directors of the Glendale school district to serve as superintendent of the Glendale school during the coming year. He takes the place made vacant by the resignation of B. C. Huntington, Jr., who has accepted a position at Bandon.

Mr. Shaw is a graduate of Stanford university and has taught in Wyoming and Idaho as well as at Vale and Hermiston in Oregon.

HEAT KILLS POULTRY ELKTON, July 6.—The hot weather of last week proved very costly to Charles Henderer, local farmer. Mr. Henderer lost 113 friers which he was preparing to market when the birds were overcome by heat.

It's Oldest The University of North Carolina is the oldest state university in the United States. It was chartered in 1789 and opened in 1795.
