

F. R. Vetoes Bill Providing Loss Of Citizenship

WASHINGTON, July 6.—(AP)—President Roosevelt vetoed today legislation which would have granted overtime pay to certain classes of war and navy department workers and deprived of citizenship any persons making false statements in connection with government contracts.

With reference to the latter provision, Mr. Roosevelt said in a message to the house:

"Under this bill, if enacted, citizenship may be lost as the result of a misdemeanor. The extreme nature of this sanction not only constitutes a bad precedent, but does violence to our democratic concepts of fair and reasonable punishment for a particular crime."

He noted that such a drastic penalty had been confined under existing law to the crimes of treason and desertion from the armed forces in time of war, and expressed the opinion that the criminal code supplied adequate authority to deal with the evil of false statements about government contracts.

Rather than provide extra compensation for specific classes of employees of the war and navy departments, Mr. Roosevelt said congress should provide "a uniform and equitable basis of compensating the lower-paid employees of the federal government for overtime work." He urged such legislation for workers in all departments and agencies in the lower-paid brackets.

Japs Couldn't Keep This Old Sea Dog Down

Remember the Shaw? She's the old sea dog that had her bow blown off during the Jap attack on Pearl Harbor. She was patched up with a temporary wooden fore section, limped to a West Coast port, where she underwent extensive overhaul operations and now here she is at San Francisco going through her trial runs before going back to war on the Axis again.

Deposits of Bank Reach New High

The United States comptroller's call on the nation's banks for statement of condition was made as of June 30. It marked an epoch period so far as Oregon is concerned in that the first time in the history of the state, one of its banks showed deposits in excess of 200 million dollars. The bank reaching this mark is the United States National, which maintains one of its important branches in this city. Its statement showed the high mark in its history at any time of official call, deposits standing at \$208,105,063.48 and resources at \$220,822,120.93. Deposits at the corresponding date a year ago were \$177,090,911.27, a gain of over 31 million dollars. The highest previous mark ever recorded by the United States National was the call April 4, 1942, when deposits were \$197,112,447.19, of approximately 11 million less than at this time—3 months later.

According to the local management of the United States National, an ever increasing tempo of war activities is reflected in the large deposit gain. It is pointed out that this is in spite of tremendous public response in the purchase of war bonds.

What You Buy With WAR BONDS

A scout car is a low-riding motor car armored with heavy steel plate, used to transport troops from one point to another. It is of low silhouette and gives protection against machine gun and other ground fire. A scout car costs \$5,000.

You and your neighbors joining together can buy one of these vehicles for the Ordnance Department of our army with your purchase of War Bonds. We need hundreds of them and need them quickly. Put at least ten percent of your wages or income into War Bonds every pay day and help your fellow Americans top the War Bond Quota in your county.
