## DAILY DEVOTIONS

DR. CHAS. A. EDWARDS

"In the world ye shall have tribulation." We are in the midst of great tribulation. "Sweat and toil, blood and tears" are easily understood these days. Tears and blood are gushing forth to form a rolling stream along the highways of the world. Uncertainty, suspicion, and hatred are planted deep in human hearts. Pride and racial prejudice drag men into the flames of martyrdom, while innocent victims flee or fall before the monster of war in countless thousands. Truly, "In the world ye shall have tribulations," but Jesus did not end His message here. His message was one of confidence and cheer. "Be of good cheer; I have overcome the world." After long and dreary days of anguish He will be triumphant. They cannot conquer Christ; that is our surety. The world is powerless to inflict more than temporary pain upon those who go hand in hand with the Master. Christ does not promise immunity from suffering, but He does assure us that we shall at last be victorious, and He never gave a promise which He did not keep. If thou lovest God, thou wilt not be afraid of anyone or anything, for perfect love casteth out all fear. "Thou wilt keep His mind in perfect peace, for He trusteth in Thee." Amen.

## Soldiers Not To Labor on Farms, McNary Advised

WASHINGTON, Aug. 20. (AP)—Secretary Stimson has told Senator Charles L. McNary, Oregon, that soldiers could not be used to supply needed farm labor, because they had to be trained in the shortest time to be "more highly proficient in the science of warfare than our enemies."

The senate had forwarded to Stimson a suggestion of hop growers of the Willamette valley of Oregon that soldiers at the Corvallis cantonment be granted furloughs to help get in the crop. The secretary in a letter to McNary added:

"If it should develop that the American people are confronted with a food emergency which cannot be met by existing surpluses, the use of military personnel may be considered, but only if all sources of harvest labor have been exhausted and the military personnel is employed as units and not as individuals."

## Tank Destroyer Units Feature Of Army's Progress

By STUART WELCH  
A PACIFIC NORTHWEST ARMY CAMP, Aug. 20. (AP)—No other army in the world has anything like the newly organized tank destroyer battalions of the U. S. fighting forces.

The tank destroyer troops and the lightning-like self-propelled weapons operate like jackals chasing a herd of deer. At one moment they cut down the stragglers at the rear of the pack, the next moment they ambush at the flank.

"Keep this in mind about our tank destroyers," Battalion Commander Lieut. Col. John Lemp, emphasized during a tank destroyer field exercise. "Our mode of attack is purely aggressive. We hunt out the tanks, we don't sit and wait for them like anti-tank units of other armies."

Every man in a destroyer outfit rides. Every trooper carries a carbine. The outfit is completely mobile. The self-propelled weapons including the big 75's on half tracks (armored trucks with tank-like treads), 37 mm cannon, and deadly 50-caliber rapid fire machine gun.

Colonel Lemp admits the destroyer outfits do not meet tank forces face to face like the recent destruction tank vs. tank battles in Northern Africa.

"We get into battle fast, and before the tanks wheel around to get back at us, we are out of the area, worrying their rear or another flank. We work in packs—like jackals. And like jackals, we fight dirty."

The war department, in an aggressive sweep, changed all anti-tank battalions into tank destroyer units. With the new name, they also provided a new plan of tactics and a new set of mobile weapons.

"We lose our effectiveness if

we go on the defense," explained the commander. "We must always take advantage of our superior fire power and our superior mobility."

## U. S.-Seized Plant Is Restored to Owners

WASHINGTON, Aug. 20. (AP)—President Roosevelt terminated today the navy's possession of the plant of the General Cable corporation at Bayonne, N. J., and restored it to private management.

This action was taken on recommendation of the navy. Mr. Roosevelt ordered the navy to take over the plant last Friday after employees had voted to continue a strike in protest against a war labor board decision denying them a pay increase.

Subsequently, the workers voted that there would be no more work stoppages, whether the plant was run by private management or by the government. The company has contracts for war supplies and Mr. Roosevelt had ordered the navy to step in in order to assure their continued production.

## Accidents Outrace Diseases in Toll Of Human Life

CHICAGO—The nation's manpower for years to come is being killed off by avoidable accidents faster than by any single disease.

That is the report of the National Safety Council in its 1942 edition of Accident Facts.

Based on accident experience through 1941, Accident Facts reports:

- Ages 1 to 4—Accidents are the most important cause of death, pneumonia second, diarrhea and enteritis third.
- Ages 5 to 9—Accidents most important cause of death—four

times as many deaths as appendicitis and pneumonia, the next causes.

Ages 10 to 14—Almost three times as many deaths from accidents as from the second cause, heart disease.

Ages 15 to 19—Accident deaths most numerous. Tuberculosis second—only three-fifths as many deaths as accidents.

For the ages 3 to 25 years, accidents kill more persons than any disease. For the ages 3 to 38, accidents kill more males than any disease.

# Let's "keep 'em BOOMING"

General W. D. Styer of the U. S. Army Engineers told the Pacific Northwest—  
"We'll house the troops—you train them!  
We'll help build the planes and gliders for attack—you invade Europe! We'll have the timbers ready for pontoons—you cross the Rhine! We promise timbered decks for all the aircraft carriers and mosquito boats you want—you go after Tokio.  
Right now nine out of ten logs rolling from forest to mill are going to war! No war job must ever be delayed! We'll "Keep 'em Booming!"
