Carrier-Based Planes Needed to Win, Flier Asserts

WASHINGTON, Sept. 30— AP)—Lieutenant Commander AP)-Lieutenant John S. Thach, thrice decorated for his exploits as leader of a squadron of navy fighter planes in the Pacific, declared yesterday that only carrier-based airpower can clear the way for invasion and defeat of Japan.

Horizontal bombers, whether operated by the army or navy, cannot do this job nor can they stop any force of enemy warships directed against American object-

directed against American objectives, he said.

He declared that "not one major ship in this war has been sunk by horizonfal bombing," and when asked whether that included the Haruna. Jap battleship which the army reported sunk by a flying fortress in the Philippines, he repeated his assertion.

"But with a couple of dozen aircraft carriers and supporting task

relatives.
Dr. and Mrs. I. A. Dunlap are building a new garage and wood-shed at their home on Calapoola street. A. Metzker is the carpencraft carriers and supporting task force units," Thach continued, "and with enough marines to Mrs. Clyde Holman and sons, Russel and Jimmy, returned Sat-urday from Ashland where the former has been receiving medi-cal treatment. She is much imcarry out landings, I'm convinced we can cut a path across the Pa-cific—and cut it quickly—right to

Japan. And, we can make it stick."

Thach, who fought in the battle of Midway, told a press conference at the navy department that carrier-based dive bombers and topped planes with carrier-based. torpedo planes, with carrier-based fighter protection, had dealt the decisive blows which routed the enemy and produced America's foremost victory of the war.

Allied Air Raids Weaken Balkans Link With Axis

By GLENN BABB An optimistic but anonymous Yugoslav official in London has likened today's frenzied situation

in the Balkans to that of 1918 on the eve of the collapse of the satellite members of the Hohenzollern-Hapsburg axis. That au-tumn Turkey, Bulgaria and Austria-Hungary one by one raised the white flag and the German surrender followed quickly. But hopes built on any imagin-ed parrallel between that Septem-

ber and this almost certainly will prove illusory. Undoubtedly Hit-ier, like the Kaiser, is having trouble keeping his lesser allies of the southeast up to the mark. There can be little doubt that it requires the strongest kind of pressure to keep the Rumanians and Hungarians fighting side by side against the red army, not to mention the Italians. But the parallel ends about there. In 1918 the British already had conquer ed large sections of the Turkish empire; Bulgaria had been invad ed by the French and Serbs. The polyglot armies of the Austro-Hungarian empire were simply

melting away.
Today the threat of invasion
is far away from Hungary and
Rumania. The armies they have
contributed to the Russian campaign are fighting from 500 to 1,000 miles from home and the promises that they are to share in the spoils of conquest, or at least have favored places in the Hitlerian new order, have the ap-

IS YOUR CHILD A NOSE PICKER?

pearence of fairly sound currency. Then, too, the ties with which the nazi conqueror grapples his satelites to his cause are of far tougher fiber than those of 1918, far more ruthless terrorism, greater the coughness of rolling control. thoroughness of political control, the all-prevading fear invoked by

the gestapo.

Alliance Getting Shaky

But signs are appearing that
the one-sided alliance is suffering increased stresses. Fear was ing increased stresses. Fear was the primary force that brought the Balkan states into the com-bination, fear and greed. Now fear is being exerted from the other side and far away the war has been brought home to Bucha-rest, Budapest, Sofia and Zagreb

rest, Budapest, Sofia and Zagreb by the long-range bomber, American, British, Russian.

United States Liberators are known to have raided Rumania last June and there are apparently well-founded reports that the same far-ranging machines had much to do with the recent spread of air raid panic through the axis capitals of the Balkins. If these reports are substantiated and their truth brought home to the peoples of the Balkins the moral effect is likely to be tremendous. effect is likely to be tremendous
