

News of 4-H CLUBS

Once more the pupils of the Edenbower school have organized clubs and taken up their 4-H work.

Perhaps one of the largest clubs was the group enrolled in victory arts and crafts, under the able leadership of Mrs. Barbara Parrott.

The club held the first regular business meeting October 19. The girls discussed color harmonies, made color chart and discussed color combinations in styles clothes.

Nine girls, with Mrs. E. H. Verrill as leader, have organized a cookery club. With the exception of one member, who has enrolled in division three, the group is carrying the second year project.

Another club organized Thursday was a group of boys enrolled in forestry. The boys elected Duane Pope as president, Dean Bartlett as vice-president, and Earl Baquet as secretary.

A health enrollment of nineteen members was sent in by Mrs. Bertha Blundell, teacher of the Middle school. The members include the fifth and sixth grades.

The second health enrollment from the Riddle school, including the seventh and eighth grades, was sent in by Mrs. D. H. Pullen, teacher of that room.

Fourteen boys and girls of Youca school enrolled in a health club, with Mrs. Gertrude Stout as the leader.

The fourth health club enrollment to be received this week was sent in by the Drew school, with Mrs. V. R. Fremersdorf as leader.

Ann Lingemann and Rose Lingemann, also of the school, have enrolled for both clothing and cookery projects in addition to the health project.

The livestock project scoring schedule has been made out by County Club Agent Britton. It is as follows: On Saturday, November 14, Arthur and Bill Ward, Days Creek, poultry project, 7 a.

Two Soldiers Write New War Bond Theme Song, "Ev'rybody Ev'ry Payday"

WASHINGTON, D. C. — Two young soldiers have combined their musical talents to write a new United States War Savings Bond theme song, "Ev'rybody Ev'ry Payday," which will soon be heard from coast to coast on the radio, in theatres and from juke boxes.

Corp. Tom Adair (left) and Sgt. Dick Uhl (right), Army buddies, wrote new War Bond theme song which Treasury Department will feature from coast to coast shortly.

The new War Bond theme song's lyrics, written by Corp. Adair, follow:

Ev'ryone can help to save the nation Ev'ryone can help to win the war There's no time for restin' Let's begin investin' In the things our country's fighting for.

Ev'rybody ev'ry payday Buy a Bond the U. S. A. Way That's the job, it's up to you and me

Ev'rybody ev'ry payday Ev'ry farmer ev'ry dayday Top the crop with dimes for Uncle Sara Ten per cent. That's the rent Ev'ryone can pay For a home in the U. S. A.

Farmers Advised To Plan for Full 1943 Production

Agriculture Assured Ample Share of Labor, Chairman Of County Board Believes

The war manpower commission's recent order freezing workers on livestock, poultry and dairy farms is seen by Leo Sparks, chairman of the county USDA war board, as definite recognition of the fact that feeding an army is just as important as arming it.

Mr. Sparks believes that county farmers can now plan for all out production in 1943 with assurance that agriculture will get its share of the nation's manpower. This view is shared by Robert B. Taylor, chairman of the state USDA war board.

The program will include classification of dairy, livestock and poultry workers into 3B under selective service, occupational deferment of such workers who have no dependents, non-recruitment of such workers by the armed forces, recruiting of additional workers to replace those who have gone into military service or war industries, and training of unskilled workers, including women, to keep vital war foods and raw materials flowing into the war effort.

Provisions are also included to halt the drain on the farm labor supply caused by farm workers leaving for work in the shipyards and other war industries.

The stabilization program is being applied only to livestock, poultry and dairy farms because milk, meat and eggs can be classified along with planes, tanks and shells as basic war materials, the chairman explained. While all farms are producing food needed in the war effort, it was necessary to put "first things first," Mr. Sparks said, in explaining what will constitute an "essential farm" under the program.

Requirements for classification as an essential farm is one which has at least 8 dairy cows (milking or dry) and a minimum annual production of 30,000 pounds of milk or the equivalent in livestock or poultry or a combination of animal units which meet the standard. At the expiration of three months of the program, the basis minimum standard is 10 or more dairy cows (milking or dry) with a minimum annual production of 37,500 pounds of or the equivalent in livestock or poultry or a combination thereof.

After the second three months period of the program, the basis minimum standard is 12 dairy cows (milking or dry) with a minimum annual production of 45,000 pounds of milk or the equivalent in livestock or poultry or a combination thereof. Livestock and poultry farms are related to minimum steel dairy farms, based on the following standards: 12 dairy cows, 85 hogs raised; 32 beef cows; 48 yearlings; 39 two-year old steers; 35 feedlot cattle; 165 ewes; 80 feedlot lambs; 71 hens; 250 chickens raised; 500 broilers and 40 turkeys. The above standards do not apply to range animals for which standards will be issued at an early date.

Farm WAR NEWS

Secretary Claude Wickard has requested immediate action to keep manpower on the farms for the crucial 1943 production job, the Oregon USDA war board reports. He has recommended that all essential farm workers get occupational draft deferment, and that war industries holding government contracts be prevented from hiring such workers.

Information received by the Douglas county USDA farm machinery rationing committee indicates that milk cans and fencing supplies will shortly be added to the list of items rationed by the committee. It is expected, the committee reports, that OPA's recently acquired authority to ration milk cans and fencing will be delegated to the department of agriculture.

Producers of spray-dried skim milk have been directed to set aside 90 per cent of each month's production for government purchase to meet needs of the armed forces and lend-lease.

Farm applications for new trucks are now filed with the

county farm transportation committee, the county USDA war board has announced. This new procedure has been agreed upon by the ODT and the department of agriculture. L. S. Compton is chairman of the county transportation committee, which has headquarters at the county agent's office, Roseburg.

The 1,000 tons of superphosphate allocated to Oregon for distribution this fall "lasted quick," the state AAA office reports. All of it was speedily requested by counties and orders from farmers indicate that twice that amount could have been used.

The state USDA war board has been informed that the department of agriculture has announced a new price support program for dry edible beans. Prices will be supported at levels equivalent to 90 per cent of parity.

The present "freeze" on new farm machinery will remain in effect until the new rationing program is announced, the county USDA war board reports. In cases where new machinery is needed immediately to maintain production, appeals can be filed with the county farm machinery rationing committee. Repair parts are not frozen, but attachments may be sold only by a retail dealer, provided he has them in stock.
