It Must Not Happen Again!

TWENTY-FOUR years ago today an electrifying message was flashed from a railway coach...

Today that railway coach from which came the news of a longed for peace reportedly is in the hands of a madman...

That railway coach, an insignificant thing in itself, has become a potent symbol, a symbol of a war that was won and a peace that was lost...

To the veterans of that first world war there must come the thought that their sacrifices were in vain...

But today the veteran of world war I stands vindicated. His hands have unfailingly held the torch...

Soon, we hope, there will be an end to this unfinished business which was recessed from Nov. 11, 1918...

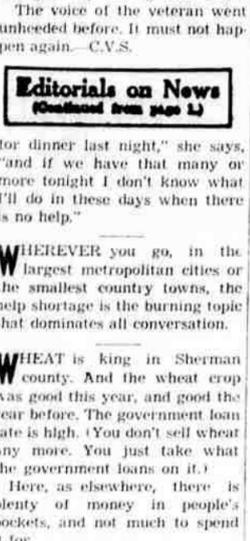

Now on a special civilian defense training assignment, W. M. McEachern, wire chief for The Pacific Telephone and Telegraph company here will be away from Roseburg most of the time the next 30 days...

He has been selected to give final instructions and training to telephone employees throughout a part of the state on civilian defense, particularly as it relates to air raid protection...

OUT OUR WAY

By J. R. Williams

THANK HEVINS! HELP AT LAST!

DOMESTIC HELP

WHEAT is king in Sherman county. And the wheat crop was good this year, and good the year before...

WHEREVER you go, in the largest metropolitan cities or the smallest country towns, the help shortage is the burning topic that dominates all conversation.

A situation that contains unmistakably the seeds of inflation unless people put into WAR BONDS the loose money that is jingling in their pockets...

HERE in Sherman county there are no military installations— which is a change.

NOWHERE is there glee over these huge new enterprises. Everywhere, instead, there is sober realization of the changes they will work in the life of the communities in which they are located.

There are no complaints, of course. We are at war, and people realize it fully. What has to be done has to be done.

But instead of the wild enthusiasm with which the spending of millions of dollars, under strong pressure and at high wages, would have been greeted before the war...

Concerning the NORTHWEST

As Viewed at the National Capital

By John W. Kelly

WASHINGTON, D. C., Nov. 11.—The thoughts of a good share of the residents of the Pacific northwest, in the last days of October, turned from wars, election day, traffic congestion and the futility of life in general to food and drink—particularly drink.

Announcement of the rationing of coffee started a run on all the stores handling that beverage and in a short time most of them had exhausted their supply.

Ed Weinbaum of the Portland chamber of commerce said this postponement was "big news" to the turkey growers whom he said "have a big investment in birds" and need a good return "awfully bad because the labor situation has run up their production costs terrifically."

While the coffee dealers had their troubles, liquor dealers in Oregon and Washington report the greatest rush of business since pre-prohibition days, customers stocking up in advance of the November 1 price increase due to the increase in taxes.

As originally conceived, the army specialist corps was designed to furnish qualified men for certain behind-the-lines army duties. The corps was to be made up of men who by reason of age or physical condition were not acceptable for unlimited military service but who were able to perform efficiently certain important jobs and thus relieve the physically fit for active duty.

Tom Fletcher, county dog law enforcement officer reports that sheep and poultry raisers in the Dixonville area have suffered greater losses from depredations by dogs than in any other part of the county.

Under the law made effective by the voters of the precinct, any dog found running at large may be destroyed by any law enforcement officer. Killing of such animals, however, is restricted to vested officers and cannot be done by other persons.

Appointment of a food administrator is expected in the immediate future—a job which proved a stepping stone to the presidency for Herbert Hoover following the last world war.

Office of civilian defense has already launched a publicity campaign for more victory gardens next spring, basing this latest appeal on reports from the department of agriculture of actual and impending food shortages in 1943.

Shoppers who complain of the lack of choice opportunities in grocery stores today may well realize that they "hain't seen nothing yet."

This does not imply that the American people will necessarily go hungry, but it does forecast a considerable change in dietary habits in all parts of the country.

W. B. A. To Meet—The Women's Benefit association will meet Thursday at two o'clock at the Maccabee hall.

Gas Rationing

Deferment Boon

To Turkey Raisers

PORTLAND, Or., Nov. 11.—Postponement of nation-wide gasoline rationing by OPA from Nov. 22 to Dec. 1 is welcome news to approximately 17,000 Oregon turkey growers, who have a year's work invested in approximately 1,750,000 birds.

Roy G. Martindale of Swift & Co. estimated the 1942 Oregon turkey crop will be worth \$9,817,500. This estimate is based on the trade average weight of 17 pounds per bird and 33 cents per pound average wholesale selling price.

Ed Weinbaum of the Portland chamber of commerce said this postponement was "big news" to the turkey growers whom he said "have a big investment in birds" and need a good return "awfully bad because the labor situation has run up their production costs terrifically."

News of Men

From Douglas County

In War Service

The Rev. John A. Barney, former pastor of the First Christian church of Roseburg, now stationed at Fort Bliss, Texas, is an army chaplain, recently was promoted to the rank of captain, according to word received here.

Captain Barney is now the regimental chaplain at the anti-aircraft training center and in addition is supervising the work of 14 other army chaplains. He writes of a most impressive religious service recently held at the station. Twenty anti-aircraft searchlights were stationed in a 10-mile circle and all were focused on the beam of the pilot light, more than 300 men participated in the religious service held under this canopy of light beams.

The men urged, Captain Barney reported, that the impressive service be frequently repeated.

ASTORIA, Ore., Nov. 11.—(AP)—The Oregon fish commission decided Tuesday to ask the next legislature to restore the poundage tax on fall salmon to pre-depression levels and to increase the tax on crabs.

The commission met with fishermen and packers both from the river and Oregon coastal points. No objection was voiced to another cent-per-pound tax on fall salmon, bringing the total to 3 a cent, which prevailed before the economic slump of the early '30s.

Commissioners estimated that in a normal year this tax would produce between \$12,000 and \$15,000 revenues.

The tax will apply to salmon taken between August 11 and September 30.

The commission also obtained an agreement on increasing the tax on crabs above its present level of 15 cents a gross. It was pointed out that Washington levies a tax of 6 cents in the Puget sound region.

Boost in Salmon Tax to Be Asked Of Legislature

ASTORIA, Ore., Nov. 11.—(AP)—The Oregon fish commission decided Tuesday to ask the next legislature to restore the poundage tax on fall salmon to pre-depression levels and to increase the tax on crabs.

The commission met with fishermen and packers both from the river and Oregon coastal points. No objection was voiced to another cent-per-pound tax on fall salmon, bringing the total to 3 a cent, which prevailed before the economic slump of the early '30s.

Commissioners estimated that in a normal year this tax would produce between \$12,000 and \$15,000 revenues.

WAKE UP YOUR LIVER BILE

Without Calomel—And You'll Jump Out of Bed in the Morning!—Go

The liver should pour 2 pints of bile into your bowels every day. If this bile is not flowing freely, your food may not be digested. It may just decay in the bowels. Then you'll wake up in the morning. You get constipated. You feel sour, and the world looks gray.

Baby Kidnaping Charge Faced in Klamath Episode

KLAMATH FALLS, Ore., Nov. 11.—(AP)—Jean Foster, Salt Lake City, arrested last night near Tule Lake, Calif., today faced a kidnaping charge which District Attorney Irvine D. Brown of Bend said grew out of the abduction of Foster's wife's daughter by a former marriage.

Mrs. Foster and the child, Sharon Pelford, aged two, were with Foster when he was captured last night.

An Oregon police officer recognized the Foster automobile yesterday from police radio descriptions. When he attempted to arrest Foster, the man drove off and escaped despite the fact the officer tore off one of the machine's tires with a shotgun blast, according to a California state police report in Sacramento.

The couple walked 35 miles across the state line into California and were finally captured on a ranch, the Sacramento report said.

District Attorney Brown said the Fosters, formerly of Klamath Falls, called at the Pelford home yesterday to visit Sharon, who is in the custody of Mrs. Foster's former husband, Sherman Pelford. Brown added that Foster attacked Pelford and Mrs. Foster carried off the little girl. The three then drove off.

The Sacramento police report said that Foster waived extradition.

Navy Flier Who Rescued Six Men Wins Decoration

HEADQUARTERS ALASKA DEFENSE COMMAND, Nov. 11.—(AP)—The heroic action of a navy flier in effecting the rescue of six army bomber crew survivors in the Aleutian combat area was revealed by Maj. Gen. Simon B. Buckner with the unusual award of a distinguished flying cross to the pilot and other awards to three members of his crew.

The flying cross went to Lieutenant George W. Smith (no address given) for a feat performed August 13, when, said the announcement of the award, "while acting in his capacity as pilot of a navy patrol plane he effected the rescue of six army bomber survivors."

"The principal Japanese operating base lay not more than 75 miles away," the citation continued, "whereas the lieutenant's home base was more than 600 miles from the scene. Weather conditions, distance and the known presence of enemy aircraft made rescue extremely hazardous."

"Facing these obstacles with commendable persistence, technical skill and fortitude as well as disregard for his own safety, his action reflects great credit on himself and the United States navy."

Dixonville Dog Control Law Soon To Be Effective

The dog control law passed by voters of Dixonville precinct at the general election Nov. 3 will become effective early in January, County Clerk Roy Agee reported today. The official notice of the result of the election will be given this week, and the law will become effective 60 days after the first notice is published.

Under the provisions of the law, no dogs will be permitted to run at large unless muzzled. Otherwise, dogs must be kept on the premises of the owner or must be under the control of the owner or keeper. A fine of \$10 is provided for the first violation and a fine of \$25 is provided for each and every subsequent offense.

Tom Fletcher, county dog law enforcement officer reports that sheep and poultry raisers in the Dixonville area have suffered greater losses from depredations by dogs than in any other part of the county.

Under the law made effective by the voters of the precinct, any dog found running at large may be destroyed by any law enforcement officer. Killing of such animals, however, is restricted to vested officers and cannot be done by other persons.

First Methodist Woman Preacher Dated in Roseburg

Miss Willia Cartray, one of the most noted women in the field of missions and religious education in the Methodist church, will be in Roseburg Sunday to start a series of special meetings, which will continue nightly through Nov. 29.

The first woman in the world licensed to preach by the Methodist church, she has ventured to 52 countries the last 10 years and has had experiences known to few women.

She has travelled throughout Africa and India, as well as in South America, and has ventured into the remote areas, where she has talked with cannibal chiefs, lappet colonies, Arab chiefs, Indian and peons. During her journeys she has had many exciting and dangerous adventures, many of which are recounted, it is stated, in her messages.

The Rev. Miss Cartray is now engaged in evangelistic work and comes to Roseburg with an outstanding record in this field, according to the Rev. Melville T. Wire, pastor of the local church.

She will occupy the pulpit at the local church Sunday and will conduct services each evening throughout the week, starting at 7:30 o'clock.

O. & C. Offices Moved to U. S. Natl. Bank Building

The office of the O. & C. administration has been moved from the federal building to quarters in the U. S. National Bank building. The administration, which has charge of the grant lands in this district, was formerly quartered with the U. S. land office, but due to the rapidly increasing volume of work additional office and working space was made necessary.

Exchanges to be visited by Mr. McEachern include Baker, Pendleton, The Dalles, Bend, Klamath Falls, Ashland, Medford and Grants Pass, as well as Roseburg.

In early childhood Daniel Webster first studied the Constitution—as printed on a cotton handkerchief.
