THIS, TOO, IS A Task Force

-and the task is War. Under the busy fingers of the long distance operators flow messages that move troops, locate and assemble supplies ... that help to build ships, guns, tanks and planes.

To handle the gigantic volume of long distance calls, we could use more equipment if we could get it. But that would draw upon critical war materials that are needed at the fighting fronts.

So we carnestly ask you to co-operate by making, to war-busy centers, only long distance calls that are absolutely necessary.

Thank you for your help and your understanding.
