IF YOU WALK IN A RAIN THAT IS FALLING STRAIGHT DOWN, SHOULD YOU HOLD YOUR UMBRELLA DIRECTLY OVER YOUR HEAD, OR SLANTED IN FRONT OF YOU?

ANSWER: Slanted in front of you. If you held it overhead as you did when standing, your legs would get wet.

Beavers Defeat Sactos; Turpin Loses to Padres

(By the Associated Press)
Portland held to the pace yesterday and continued as one of the three Pacific Coast league teams with unsold early season records, defeating Sacramento 2 to 1 when an error gave the Beavers a run to break a 1-1 tie in the eighth. Seattle has yet to break into the win column, losing yesterday 6 to 5 to San Diego.

At Sacramento, Portland Catcher Easterwood, who had walked, came home on an error, to keep Portland at the top of the heap, along with San Francisco and San Diego. Wildness by Brazle, Sacramento pitcher, contributed to the Beaver victory. Wilson, pitching for Portland, allowed six hits.

The Padre victory over Seattle was the result of a four-hit, four-run combination in the eighth inning. First Baseman McDonald started the rally with a triple which spelled defeat for Pitcher Hal Turpin, who yielded 10 hits. Dasso, pitching throughout for San Diego, allowed 13.

In other league games San Francisco defeated Hollywood 4-3 when Outfielder Uhalt singled to score two men in the ninth, and Oakland defeated Los Angeles 8-5 with a six-run burst in the first inning.

Localities Try To Double Quotas In War Bond Drive

WASHINGTON, April 21—(AP)—Treasury officials reported today that many communities have reset their sights in the record-breaking \$13,000,000,000 second War Loan campaign and are now trying to double their original quotas.

This development was reported as sales passed the \$10,000,000,000 mark and signs pointed to achievement of the goal well in advance of the three week deadline.

Because of the enthusiastic response throughout the country, treasury officials said, many communities already have reached or passed their quotas and now have started out to double their original goal.

"Double the quota" has become the slogan for these communities.

Despite the record outpouring of funds, treasury officials, including Secretary Morgenthau, expressed disappointment at the sales of bonds to individuals and made plans to concentrate more heavily on this group during the next two weeks.

Up to last Saturday these bonds—series E, F and G—accounted for only \$403,000,000 of the total collected in the first week.

DAILY DEVOTIONS

DR. CHARLES A. EDWARDS

The world is full of emblems. There is the Crown and Scepter, which combined denotes Royalty and power. The cup is an emblem of charity and hospitality and teaches us to give generous aid to the victims of poverty and distress. The scythe is the emblem of the grim reaper, and teaches us to be always prepared to meet death. The skull and cross-bones is the emblem of poison and teaches us to beware of the wages of sin, which is death. The star is the emblem of hope and immortality. The rod is the emblem of correction and protection. The hour glass is an emblem of human life, behold how swiftly the sands run. The beehive is an emblem of industry. But none of them are of such deep significance as the emblem of the cross. There is no other emblem which men may use that will bring to them the deep satisfactions brought by the cross. Men come to it with their burdens, the secret sins of their lives and always find relief for all of life's woes. This emblem once despised, has become the most impressive emblem in the world. Millions wear it in loving memory that Christ died for them, and made reconciliation between God and man. "Were the whole realm of nature mine, that were a present far too small. Love so amazing, so divine, demands my soul, my life, my all." Amen.

Currency Stabilization Extension Is Approved

WASHINGTON, April 21—(AP)—The house today passed the senate-approved bill extend-

ing for two years the president's authority over a \$2,000,000,000 stabilization fund, but added an amendment which its author said would prevent use of the money in the proposed Joint \$5,000,000,000 international banking fund.

The measure extends the president's authority over the \$2,000,000,000 stabilization fund but withdraws his power to devalue the dollar.
