## DAILY DEVOTIONS

DR. CHARLES A. EDWARDS

Four men bore crosses on that Good Friday the two thieves, Jesus, and Simon. But Simon's was not his own cross; it was an unexpected cross that he had to bear. Life is full of unexpected crosses. The real test of life does not come when things are running smoothly, but when we are compelled to bear one of life's unexpected crosses, and when they come, we have three possible courses. We may try to escape, which is the way of cowardice, and is simply running away from an enemy, which sooner or later must be faced. We may choose the way of defeat. Thousands of people when some handicap comes to them become bitter, pity themselves, and give up in despair. Such have been defeated by their crosses, or we may accept the unexpected cross as a challenge, an opportunity, a blessing. If we bear them in the right spirit our crosses will become a means of grace, and we will be grateful that we have been counted worthy to share a cross with our Lord.

(Upper Room)

"Must Jesus bear the cross alone,  
And all the world go free;  
No, there's a cross for every one,  
And there's a cross for me."  
Amen.

## Food Shortage to Become Serious, OWI Forecast

WASHINGTON, April 19.—(AP)—An Office of War Information prediction that American civilians face various shortages in a "serious food situation" drew nationwide attention today.

Underscored by the recent resignation of 15 OWI writers who indicated they felt the food report was either not strong enough or not issued soon enough.

After an extensive survey of national prospects, OWI reportedly that "conservatively and roughly estimated, and assuming average weather, civilians will have about 3 per cent more food (this year) than in the pre-war years but about 6 per cent less than 1942," although stating that more will be produced.

However, the OWI pointed out that home front food prospects are governed by many factors not completely predictable, adding that the purpose of the report was neither to "alarm nor reassure." It had been many months in preparation and Director Elmer Davis said it had been held up since January because of differences between federal agencies over the facts.

It also was the subject of controversy within the OWI itself, members indicated, with those who resigned issuing a statement that they left "because of our conviction that it is im-

## Man Located to Receive Medal Awarded in 1922

EUGENE, Ore., April 21.—(AP) Portland police, who are looking for Granville M. (Jim) Smith, former Eugenean, to give him a medal which he received in 1922 will find him at 2135 Vine street, Klamath Falls.

The former Eugenean, son of Mrs. H. F. Gerlach, Eugene, received the Carnegie award for saving his step-father Hans Gerlach, on June 26, 1922.

Gerlach had gone down into a well which was being dug on his place and was overcome by fumes. Smith, 22 at the time, climbed down into the well and tied a rope around his step-father, making the rescue possible.

He was identified through his mother. Smith now works in a Klamath Falls sawmill. The award was found by Luther J. Neuffer, now of Portland, several years ago in Klamath Falls.

## SEED SPUD PRICES

A new OPA regulation limits the 75 cents premium for seed potatoes to potatoes sold, delivered or in transit as seed stock before April 10, sales by a producer to another nearby farmer for seed and potatoes sold to dealers or others who have a certification from the county USDA War board that seed potatoes are needed in the county. All other sales must be made at not more than the ceiling price for table stock potatoes.

—Just as it was written in the Mayflower's log.

And it seems that all through our early American history beer sort of tempered the hardships and helped to make us a tolerant, moderate people.

From where I sit, beer is the American drink of moderation and friendliness—kind of a symbol of our personal liberty.

Well, that was a new one on us, but Grandma showed it to us

**BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys**

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 10 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty urination with scanty flow and burning or stinging when you urinate—these warn you that your kidneys or bladder may be in trouble.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give a happy relief and will help the 10 miles of kidney tubes pass out poisons and waste from the blood. Get Doan's Pills.
