The rest-pause that refreshes
Welcome in peace...
more welcome in war work

WAR production needs are pressing. No time can be wasted on the job. Rest-pauses planned and timed are the efficient way to make every minute count. They lessen tension, break monotony, and increase output. Add refreshment to a rest-pause and you promote worker-contentment.

Ice-cold Coca-Cola is refreshment that does more than quench thirst. Drink it and you feel and enjoy a refreshing after-sense.

Its clean, exciting taste always pleases, never tires. Coca-Cola offers something extra. All the difference between something really refreshing and just something to drink.

Letters from plant managers from coast to coast emphasize that the little moment for an ice-cold Coca-Cola means a lot to workers in war plants. It's a refreshing moment on the sunny side of things... a way to turn to refreshment without turning from work.

You work better when you are contented on the job. Remember, contentment comes when you connect with a Coke.

The best is always the better buy!

"I told you to WATCH YOUR NEWSPAPER!"

This is no joke! It has happened to thousands accustomed to full ice-boxes before Pearl Harbor.

In this case, however, the icebox might have been better stocked had the lady not used up her ration coupons before more were available and expended too many points for too little.

It was all in the newspapers, her husband is telling her. Had she watched them for ration reminders this wouldn't have happened!

He is right. Keeping you up with your ration news is only one way your newspaper serves the home.

It helps you to meet the whole new impact of war on the home-front... to stretch your food dollars further... to safeguard your health through scientific diet and expert advice...

To make you a better homemaker whether it's to fashion your own spring suit or to refurbish the living room... to assist you in your war effort generally whether it's showing you how to grow a better victory garden or more ably serve civilian defense...

Imagine, in fact, waging this war without newspapers!
