AMERICAN HEROES

BY LEFF

With the bomber pilot killed, the co-pilot seriously injured, both left motors shot away, left wing on fire and a swarm of Jap Zeros all around Col. L. G. Saunders took over his bomber's controls above Bougainville, escaped the Zeros and saved his seven remaining crew members' lives by a crash landing on the water at 95 miles an hour. Navy craft rescued them.

WHEAT—To Mr. and Mrs. P. R. Wheat, of Canyonville, at Mercy hospital, Wednesday, May 12, a daughter, Charlene Lorain; weight seven pounds, eight ounces.

Order Your Coal Now, Urge on Consumers

WASHINGTON, May 13—(AP)—To "avoid serious risks of grave shortages next winter," Transportation Director Joseph B. Eastman today urged coal consumers to order their supply immediately.

The railroads, he said, can transport enough coal to meet prospective demands for next winter only if the fuel is kept moving throughout the year.

Now She Shops "Cash and Carry"
Without Painful Backache

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pain, loss of pep and energy, getting up nights, swelling, puffiness under the eye, headaches and dizziness. Frequent or annoying passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give speedy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

This attractive contraption is known as the para-bike, or bicycle-jeep, a 30-pound vehicle that folds up like an umbrella and can be handily carried by a paratrooper. It has bars front and rear for mounting machine guns and attains greater speed with less pedaling effort than ordinary bikes. Its inventor came from Brooklyn, which explains things.

Oregon Farmers Will Meet Most Of Output Goals

PORTLAND, May 13—Oregon farmers will meet most of the war goals set for them this year despite shortages in labor, machinery and supply.

This was announced by the federal department of agriculture here after a survey by the AAA covering most of the state's 60,000 farms.

The survey indicated: Approximately 18,500,000 acres will be in production, less than one-half of one per cent of the state's crop land lying idle.

Goals will be met in three of the four war crops stressed in Oregon—potatoes, dry peas, dry beans and flaxseed.

Plantings of nearly all important crops will increase.

John L. Denny of the agriculture department said the potato goal was 44,500 acres, an increase of 16 per cent over last year, but actual plantings will reach 48,100 acres.

Almost no dry peas were planted last year. The goal is 29,000 acres this year. Plantings are expected to be from 34,500 to 44,000 acres.

Only in dry beans are plantings short of the goal, 5,000 acres. Plantings are expected to be 3,500 acres, an increase of more than 1,000 acres over 1942.

Bright spots included: Hogs, 15 per cent increase for a total of 80,000 litters; chickens for meat, 19,000,000 pounds, up 15 per cent; turkeys, 36,000,000 pounds, up 15 per cent; eggs, 41,000,000 dozen, up 3 per cent; cattle and calves slaughtered, 422,000 head, up 14 per cent.

Denny said 51,000 acres of vegetables would go to canners and an additional 22,500 acres would go to fresh vegetable markets.

Pasture conditions, feed supplies and other factors will determine whether the 1,500,000,000-pound milk goal is met, but Denny said there are 20,000 more dairy animals in the state this year.

Conditions Told For Wire Merger

NEW YORK, May 13—(AP)—Executives of the Western Union telegraph company and the Postal Telegraph company announced yesterday conditions for the consolidation of the two big wire companies, made possible by recent congressional action.

Albert N. Williams, president of Western Union, and Edwin F. Chintund, chairman of Postal, disclosed in a joint statement that under terms of the agreement, Western Union would acquire all the assets of Postal and assume liabilities and obligations of the Postal company, including the amount owed at the time of closing the agreement by Postal to the Reconstruction Finance Corp. The merger is to become effective on or before next October 1.

Williams stated the Postal is to continue operations as an independent company until the plan is approved by the Federal Communications commission and there would be no inter-connection of the two systems until that

Victory Garden Water Rate to be Pruned by Copco

The California Oregon Power company, to encourage Victory gardens, is providing a domestic metered irrigation rate on water, starting June 1. H. C. Wells, local manager, announced today. Persons with Victory gardens will be entitled to monthly discounts on bills for water usage, the discounts being graduated in accordance with the size of the garden plots, Wells stated. The allowances are such, he stated, that they will cover the cost of effective watering for all gardens without cost to the garden owner, the discounts being planned to absorb the cost of the irrigation required over and above normal usage.

The credit will be given only for the purpose of irrigating Victory gardens. Before the discount can be obtained, the consumer must secure a form of application from the company and must be approved by inspection of the garden by Copco representatives. No credit will be given for gardens of less than 200 to 400 square feet, a credit of 24 cents per 100 square feet will be given for the season of June, July, August and September, the

amount to be divided into quarters and allowed in the form of discounts each month. For the next 600 square feet the discount will amount to 20 cents per 100, while all over 1000 square feet will have a discount of 16 cents per 100 square feet.

There will be no discounts on bills which do not exceed the monthly minimum. Credit will not be given persons growing vegetables for sale. Credit will be cancelled if periodic inspections shows that irrigation has been stopped or if the garden is not properly maintained and cultivated.

It is pointed out that the garden irrigation service is a war-time concession by the company and is not to be construed as an obligation to provide indefinite continuance of the special rates and service. The company also reserves the right to discontinue the service at any time in the event of water shortage.

Annual Banquet Friday—Members of the graduating class of senior high school are invited to attend the annual banquet to be sponsored by the mothers at 6:45 Friday evening, May 14, at the Hotel Umpqua. Mrs. Clair K. Allen is general chairman of the affair. Mothers of the graduating class members will be in charge. Following the banquet, the class members will be guests of Dr. Radabaugh at Hunt's Indian tre.

Notice to Patrons
Due to OPA regulations and other conditions, we are forced to discontinue serving meals for a short period.
