ward us and the British.

THIS writer has no use for communism in the United States, but feels that if Russia wants a communist government that is HER affair and none of our business.

But as long as Russia harbored a semi-official organization designed to THRUST COMMUNISM UPON other peoples it was hard for nations such as the U. S. and Britain to place in Russia the complete trust that allies in a war such as this should place in each other.

Hitler's propagandists have been trading on this feeling and really getting somewhere with it. This development will make their job harder.

THE Japs on Attu have been crowded out onto a point of land somewhat similar to Cape Bon in Tunisia. The still scanty reports we get from there indicate that we have them surrounded and cut off from reinforcements and supply.

When the Germans in Tunisia reached that point, they SURRENDERED.

It looks now as if the Japs on Attu will fight to the last man—as they did on Guadalcanal and the Buna beaches.

THAT has a bearing on the now sharply debated question as to who is our principal enemy in this war.

INCIDENTALLY, there's a hint that the Attu victory and the clearing out of Kiska that is officially expected to follow Attu may result in closing the fishing grounds of the North Pacific to the Japs. Fish is an immensely important item in the Jap diet.

IN three days our planes destroyed 285 axis planes in Mediterranean Europe—most of them smashed on the ground, which in itself is important.

Planes are effective ONLY IN THE AIR. When they're smashed before they can get off the ground it's a bad sign for the smasher.

HITLER and Mussolini exchange congratulations on the fourth anniversary of the Rome-Berlin treaty. (In an exceedingly hollow tone of voice, you may be sure).

AN ominous silence prevails on the Russian front, and evidence points to the approaching zero hour of the long-expected German offensive.

Moscow tells us the Germans are continuing to pile up supplies of men, tanks and ammunition. It is certain the Russians are piling up corresponding supplies to meet the thrust if it comes.

Watch it. If Germany DOES NOT attack, it will be a pretty sure sign of weakness.

READ all the rumors. Listen to all the talk. Watch all the developments.

But remember that the primary purpose back of all of it is to mislead the other fellow if possible and hit him hard when he isn't looking and WHERE HE ISN'T READY.

Leave For Tacoma—Mr. and Mrs. R. L. Daniels, of Tacoma, spent the weekend in Douglas county visiting relatives and friends. Mrs. Daniels is a sister of Miss Pearl and Ben Jones and Mrs. C. T. Tipton, of Roseburg. The Daniels were accompanied home by their daughter, Mrs. Lloyd Curtis, and son, Bobby, of Myrtle Creek.

EDITORIAL

By Charles V. Stanton

HENRY J. KAISER, the nation's shipyard wizard, has announced plans to convert his west coast shipbuilding plants to the manufacture of light-metal trains following the war.

Railroad rolling stock is deteriorating in alarming measure as a result of the terrific transportation requirements, occasioned by the necessity of moving unprecedented loads of war materials and fighting men.

An important factor in Kaiser's program, is that the manufacturing industry is to be established at the west coast shipyards, while raw materials will come from the development of power and mineral resources of the Pacific coast states.

It is sincerely to be hoped the Southern Pacific Railroad company will be the first to take advantage of this opportunity to replace its present antiquated, milk-stop passenger service in southern Oregon with a modern system.

We recognize that the Southern Pacific company is doing a magnificent war-time transportation job at the present time. While we still are irked by the company's discrimination against southern Oregon in passenger schedules, bus line connections and seemingly deliberate policies of offering as much resistance as possible to passenger travel in southern Oregon, we credit the company with an outstanding record of services connected with the war effort.

We believe, however, that after the war is won there should be a united demand in southern Oregon for efficient and co-operative railroad service, unless steps are taken by the company to provide suitable facilities voluntarily.

The deliberate stifling of southern Oregon industry by the Southern Pacific company, and the woefully inadequate passenger service furnished the southern Oregon territory cannot be tolerated as a continuing condition after the war.

Goodrich Co. Workers Strike Over Pay Issue

AKRON, O., May 22—(AP)—Several thousand CIO United Rubber Workers left their jobs at the B. F. Goodrich Co. plant today and George Bass, president of the local union, said the walk-out was in protest against a reported War Labor board decision limiting proposed wage increases for four major rubber companies to three cents an hour.

DIAL LOG

This is rather late in the day to be calling your attention to Monday programs—but don't forget Faces and Places 6:15 daily now, Monday through Friday; Eye Witness News at the new time, 7:15, Bulldog Drummond at 8:00 and the usual Double or Nothing show at 8:30. This week they salute the sisters of the skillers—in other words they pay tribute to all the girls who save their waste fats faithfully, even as you and I. Frank Forest will sing "Oh, What a Beautiful Morning"—and we'll admit we don't get the connection between the salvage campaign and the weather unless it's bacon drippings from the breakfast they have in mind—and we're not supposed to pour those in the salvage can.

Tuesday morning you'll find something very different on your morning listening spot at eleven—because from now on you'll be hearing "Eyes Aloft" at that time. So, you gals out on the hill-top watches, just tune 1490 every Tuesday morning after this and you'll hear what your fellow workers up and down the coast are doing and besides you'll get 30 minutes of swell entertainment. In case you are wondering what you'll be hearing in the spot where Eyes Aloft used to be, here's the inside dope: Dr. Watson and Sherlock Holmes, that famous pair, will air their adventures every Wednesday evening.

at 8:30—and, speaking of Sherlock Holmes reminds us to remind you that the other famous sleuth, Nick Carter, is on Tuesday evenings at 6:30.
