INFORMATION WANTED

EDITORIAL

By Charles V. Stanton

PERSONAL mail to the editorial desk has been very light this week. There has been no dropping off in the volume of bureaucratic propaganda...

It seems that a resident of Los Angeles has had a matter on his mind for nine years. He has been afraid to recount his experience and now is seeking confirmation so that he can tell the story without being made a candidate for the Liars' club.

He recounts that nine years ago he and his wife, driving in a car "loaded down with two dogs, a parrot and 25 canaries," were en route to Roseburg. While driving through a rain storm at night in Cow Creek canyon he saw an object lying on the highway...

The writer said he saw some railroad box cars on the adjacent railroad tracks and reached the decision there had been a wreck and that the lion, probably a performer in a circus, had escaped.

A short time before his experience with the lion, his car had struck a deer. He would like to tell about his experiences with "wildlife" in Oregon, but is afraid no one will believe him.

So if anyone knows of a lion hunt in southern Oregon about nine years ago, we would be glad to have the information so that we may pass it on to the friend in Los Angeles.

We also have a letter from a lady who is "burned up" by the appearance of the Oakland I. O. O. F. cemetery.

"In several places," she writes, "you cannot see a man standing 15 feet away. Poison oak bushes, oak grubs and Scotch broom bushes mark as many graves as do headstones."

She also is irked by the fact that flowers planted on her own lots are picked as soon as they bloom.

"Why don't we do something about it?" she asks. "Maybe all of us together can bring about a cemetery to be proud of, instead of the brushy sheep pasture it is now. Let's try."

We do not know whether the complaint is justified or not, as we have made no inspection of the property to which she refers.

It is a regrettable fact, however, that altogether too few cemeteries are properly maintained. There also are too many vandals who think nothing of the destruction of plantings, and monuments provided in memory of loved ones.

The condition does not apply to one locality alone but, instead, is entirely too general.

A woman, who spent a considerable sum of money recently to plant expensive flowering shrubs on a lot in one of the Roseburg cemeteries, reported that some contemptible person had carefully dug up and removed the shrubbery apparently to beautify his own home.

We know there is an old adage about flowers belonging to the living, but we can't at the moment think of anything much more despicable than grave-robbing.

be with us for her usual fifteen minute newscast, but you won't hear the rest of the news hour. A new 15-minute program made its debut today at 2:15 "Welcome Inn," which will be a salute to the new members of our Douglas county family...

Lots of old favorites on the program this week, with Lucia Albanese and Francesco Valentino of Metropolitan Opera time doing the warbling. Then, there's Your Date With Fort Lewis (7:30) and the Let's Talk It Over local forum at 8:30. This week you'll find out when the war will end—at least you'll find out what Dick Madrox, Paul Lund, Glenn Wimberly and Lawver Canaday think about it. Dean Bibar will act as moderator. And for tonight—remember Recital Hall of the Air—(we're sorry we weren't able to get the students' names in time for the paper). Take a Card (8:00), Sherlock Holmes (8:30) and Cal Tinney.

Medal Awarded Adm. Tisdale for Valor in Battle

Rear Admiral Mahlon S. Tisdale, U. S. N., a son of the late Mark Tisdale and Mrs. Lucy S. Tisdale, now of Fargo, N. Dak., has been awarded the Distinguished Service medal for his leadership of a task force in action off the Solomon Islands in the engagement fought August 24, 1942...

Admiral Tisdale is well known in Roseburg and Sutherlin having visited frequently at Sutherlin, where his parents resided for many years prior to the recent death of the senior Mr. Tisdale. Admiral Tisdale's citation reads: "For exceptionally meritorious service to the government of the United States in a duty of great responsibility as task group commander of a task force during action against enemy Japanese forces eastward of the Solomon Islands on August 24, 1942. By his astute leadership and gallant devotion to duty, Rear Admiral Tisdale, with superb coordination of the units under his command, inflicted heavy losses on attacking Japanese air groups, thereby contributing in large measure to the ultimate success of our forces in this engagement. His relentless fighting spirit and brilliant tactical skill were in keeping with the highest traditions of the United States naval service."

Farm Machinery Ration Changed To Speed Its Use

Changes in the farm machinery rationing program, designed to speed up the placing of equipment on farms where it's needed, were announced yesterday by Leo Sparks, chairman of the county USDA War board. County quotas have been eliminated for all seven items of farm machinery. The action was taken to make certain that no equipment will remain idle in dealer's stock until after its seasonal use is over.

Removal of county quotas and county "tags" will give farmers an opportunity to locate tractor-drawn and tractor mounted equipment, such as harrows, plows, mowers, discs and cultivators, of a make and type best suited to the tractor with which it will be used, the chairman explained. This was not always possible with quotas in effect, as both the make and number of machines allocated to the county were specified.

The change in the rationing program will not increase the amount of new farm machinery available in Oregon, nor will it eliminate purchase certificates. Applicants for any of the "no-quota" items will be required to locate the needed machinery in a dealer's stock.

Before any additional certificates are issued beyond the amount of the county's original quota, farmers already holding certificates will be given time to locate and buy their machinery, Mr. Sparks said.

The farm rationing committee's policy is to get available machinery into use as speedily as possible, the chairman declared. If the holder of a purchase certificate does not like the make of that particular machinery that a local dealer has in stock, the committee will give the machine to some other farmer who has immediate use for it.

Annual Banquet Stated By RHS Faraday Club

The members of the Faraday club of Roseburg high school will hold their annual banquet at Carl's Tavern this evening at 6 o'clock, at which time Dr. Kenny of the Veterans facility will speak.

One precious Ingredient contained in no other beer...

"IT'S THE WATER" . . . exceptionally pure and solvent from our own subterranean wells that sets Olympia apart in flavor and refreshing clean taste.

Truly fine beers, invariably, are made with choice hops and barley malt, and reflect the skill of a master brewer.

But . . . Olympia has a certain individual character and rare flavor surpassed in no other beer because "It's the Water" . . . this exceptional brewing water . . . performs these additional functions . . .

- "GARDENING FOR FOOD" ON THE AIR! 3 nights weekly by CECIL SOLLY Sponsored by Olympia on ten stations. A nationally renowned expert on home gardening, Mr. Solly gives valuable information to insure the success of Victory Gardens. FOOD PRODUCTION IS VITAL!
- Extracts hidden flavors and properties from the hops and grains.
- Promotes purity and clean taste throughout all processes including fermentation and ageing.
- Preserves Olympia's character and flavor when the beer is bottled.
