Why is there such a difference in Long Distance calls?

Telephone lines are like highways. Sometimes too many people want to use the same ones at the same time.

Most Long Distance calls go through all right. But some circuits are crowded almost all the time. You'll know where the traffic is thick if you have delays. We can handle the really essential calls if you will ease up on the others.

### What You Buy With WAR BONDS

There are still some radios on the market, but factories are not producing them until the war is won. You probably want a new radio... one of the big console models, and you can have it by saving your War Bonds bought today.

Your War Bonds bought with regular, systematic savings every payday will buy that new radio when the war is won. For every \$3 you invest as a loan to Uncle Sam you get \$4 back... and that's good interest on your money from the safe security in the war.
