

Nurses Called in Effort to Supply Mercy Hospital

A meeting of all graduate nurses and women who have had nurses' training has been called by Mrs. Vernon Keels, president of the Graduate Nurses association of District No. 11 for 8 p. m. Tuesday, Aug. 17, at the Women's club building.

All nurses from Roseburg, Sutherlin, Oakland and Myrtle Creek are particularly urged to be present.

"Unless qualified help can be obtained immediately, it will be necessary for Mercy hospital at Roseburg to close," Mrs. Keel announced. "Sister Mary Austin, superintendent, has exhausted every possible recourse and has failed to secure the nurses necessary to keep the hospital in operation. We must have nurses from the surrounding community at once. We are urging women to volunteer, even though they may be able to give only a few hours of service at a time."

Mrs. Keel is requesting all women who can be of service to be present at Tuesday's meeting, at which time all details will be discussed.

that if the Italians fulfilled the requirements necessary to make Rome truly an open city any defense of southern and central Italy would be virtually impossible.

All railroad lines on the west side of Italy run through Rome and without them the forces to the south could not be supplied nor could axis forces now retreating from Sicily be moved north of the capital.

The London Express asserted that "no declaration by Badoglio can bring peace in penny numbers to any parts of Italy. His declaration of three weeks ago is one we will continue to take note of—the war goes on. The war goes on or it stops for Italy as a whole."

trip in 15 or 20 minutes. By necessity most of the evacuation traffic is carried on by night.

British and Canadian bombers are hammering this nocturnal traffic. By daylight allied warplanes of all types, swarming through the heavy anti-aircraft fire, are raining bombs, cannon shells and machine-gun bullets upon the escape craft.

British and American warships meanwhile are patrolling the outer perimeter of the area, braving the fire of enemy shore batteries.

U.S. TIRES
The sign of a local, independent business—built on experience, knowledge, skilled service and products of quality.

SURE WE CAN FIX THAT BREAK IN YOUR TIRE!

- 1. WE PREPARE THE TIRE . . .** First we thoroughly examine the injury inside and out for hidden trouble. Then we ream out the break and cut away any broken cords much like a dentist cleans a tooth for filling.
- 2. THEN WE VULCANIZE IT . . .** Rubber is cemented into the hole outside; a "section repair" is built up inside replacing the broken cords. The repair is then welded into the tire under heat and pressure.
- 3. IT'LL STAND UP . . .** Our tire men are so skilled in scientific vulcanizing that we know our repairs will last for thousands of miles—under today's conditions of slow driving.

YOU MAY BE ELIGIBLE to buy a Grade I tire. If so, your certificate entitles you to the best—
