Mr. and Mrs. T. C. Johns had an old shepherd dog that lived to be sixteen years old before he

died. He had been caught in several traps and salmoned when young dog. About six years ago he was run into by a car and got his leg broken, and had to have it in splints for quite a while. And he was lost all of one day in a severe snow storm. When found, his long fur was all matted up and he had to be carried home. In spite of all his misfortune he lived a long life for dog.

### TOO LITERAL

DALLAS, Tex.—A marriage license clerk told R. J. Moon when he applied for a license that he would have to present health certificate.

Moonie obtained the certificate and bought the license. A few minutes later he rushed back to the bureau, protesting the wrong name was on the license.

After all, he said, he was getting the license for a friend, not himself.

# This is War too...

## WE'RE FIGHTING TWO WARS.. AND YOUR HELP IS NEEDED!

Forest fires are a form of sabotage and a serious menace to the war effort. In order to win this war it is imperative that we command unlimited amounts of timber—a critical war material. We must also be certain that the men working in the forests will be able to devote ALL of their time to getting essential lumber to the production lines rather than spending long hours in fighting destructive fires . . . These fires

further menace the war effort by reducing visibility, hampering the operation of defensive air and sea patrols and rendering the work of aircraft warning observers useless . . . The Keep Oregon Green Committee in this state is working in close cooperation with military defense, federal and state forest service organizations and industrial groups in a determined campaign aimed at making Oregon people fire-conscious, in spreading the gospel of sound forest conservation and especially safeguarding our timber resources in wartime. Our safety and economic welfare depend upon the help of EVERY Oregonian in this program to KEEP OREGON GREEN!
