### B-Z-B NOW C-B

HELENA, Mont.—The town of Lodge Grass was pretty well cut short when B. A. Zimmerman enlisted in the Seabees.

Zimmerman was: City councilman, school board member, garage operator, oil company manager, draft board clerk and assistant fire chief.

PHOENIX, Ariz.—The charge of "robbery"—in its fullest legal sense—was lodged against an umpire for the annual Phoenix Police and Firemen Benefit softball game.

A soldier reported he was robbed of \$2 as he walked from the ball park. Two suspects were jailed and charged with robbery. One was an umpire.

### Fixed All-Season Prices Advised by War Food Chief

MONROE, La., Aug. 19—(AP)—War Food Administrator Marvin Jones said today the best method of securing production of essential war food crops next year is to have a "support, or definite, price that would last throughout the production and harvesting season."

Such a price, he said, should be sufficient to cover not only normal costs but also the added risks and hazards, as well as the added equipment that is closely linked with increased production. At the same time he said it would be necessary to avoid "any undue burden on the consumer."

In a speech at a meeting of the American Farm Bureau federation, the food administrator said that a farm price support program would make it necessary for the government to "stand ready to purchase any surplus of the commodity that might not flow at the time into the regular channels of trade."

In some instances, Jones said, such purchases may involve resale at a loss to the government. (Jones' speech was the first official confirmation of an Associated Press dispatch from Washington last Wednesday, reporting that such a program was in the making.)

"As to some commodities, it would be desirable," Jones said, "to license processors and handlers. I think it is altogether desirable that the existing processor and wholesale and retail facilities be utilized."

The food chief reiterated that

there would be no restrictions on agricultural production.

"It will not be necessary," he said, "to ask farmers to sign written contracts. They have always shown that they will respond without them."

Jones said he expected to consult members of congress, farmers and farm groups for advice and help in formulating details of the 1944 program. He said that if a better method than that of supporting farm prices can be found, he would be anxious to have it.

"If after consultations, modifications are found to be desirable, we shall not hesitate to adopt them," he added.

### FLAT TIRE

DALLAS—A husband, asking a divorce, told the Judge his wife wouldn't cooperate in making a living.

"In the morning," the plaintiff said, "she lets air out of my tires and I have to push the car a block to the filling station. It's awful aggravating when the weather is hot."

The divorce was granted.
