## BIRTHDAY DINNER IS ENJOYED MONDAY

YONCALLA, Sept. 15 Honoring the first birthday of their daughter Linda, Mr. and Mrs. Francis Bigelow entertained at a dinner at their home Monday evening. Covers were laid for Mr. and Mrs. Francis Bigelow, Mr. and Mrs. Merrian Bigelow, Mr. and Mrs. Fred Lee, Lytle and Edson Lee.

able in the state now. The larger-sized cookers are especially useful for large families or neighborhood groups which are pooling their canning. To obtain a canner, it is necessary to locate one and obtain a purchase certificate from the county farm rationing committee.

## WAR APPROVED SEED SPUDS

Growers who want to qualify part of their potato production for the new "War Approved Seed" grade established by the War Food administration should request field inspection from the regular certifying agency. Standards for the new grade, which was set up to avert a threatened shortage of good seed spuds for next year, are not as rigid as for regular certified seed. OPA contemplates setting price ceilings that will permit sale of War Approved seed potatoes at 50 cents a hundred above prices for table stock.

## CRAWLER TRACTORS

County farmers whose farming operations are such that a new crawler tractor will be required this fall are requested by the county USDA War board to file the required application with the war board before October 15. Distribution of the state's fourth quarter quota of crawlers will be considered by the state war board soon after that date.

## MACHINERY PRICE CURBS

OPA has added used hay loaders, side delivery rakes and manure spreaders to the list of farm machinery and equipment under price control when sold by anyone, including farmers and auctioneers. Maximum prices for such sales had already been established for used combines, corn binders, corn pickers, farm tractors and hay balers. All farm equipment, new or used, when sold by dealers is subject to price ceilings.

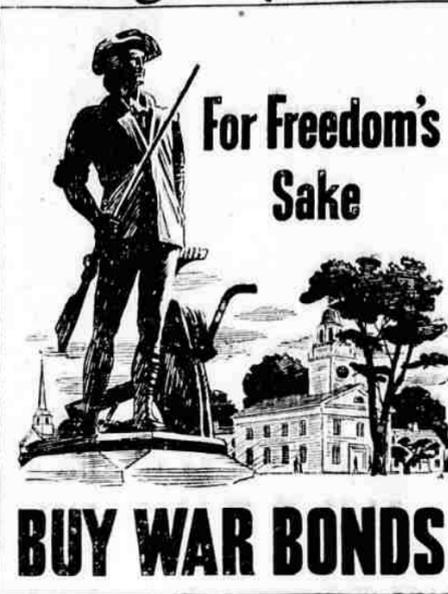

## TURKEY MARKETING

The embargo on turkey sales to civilian channels, through which the government wants to get 10 million pounds of turkey for the armed forces, will have the effect of giving Douglas county produc-

and established handlers will have no trouble in disposing of any number of turkeys to qualified buyers. In addition to the

satisfaction of having helped supply holiday dinners for American boys on the battlefronts, county growers will find it profitable to move early birds to market now. Government purchases will be made at OPA ceiling prices, which are higher for early-season sales.

# "You'll always be glad you did"

For Freedom's Sake

BUY WAR BONDS

None of us will be completely happy until the day of Victory. The day our boys are back; our sons, brothers and husbands. We want our way of life to go on, and we're fighting to make sure it does. We want Jim or Bill (you know his name) to be sitting right there in his easy chair with his pipe or studying in his own room. We want to have friends in for dinner again... and a big roast beef for

them. We want to be able to take a long drive in the country, buy a new car, have fun, be happy. We want to live again on that sunny side of things of which Coca-Cola, itself, is such a symbol. There are so many things we want back. Yes, so many. None of them will come unless we win. All, and more, will come when we win. The War Bonds you buy will hasten the day... the day of Victory.

# Food for Freedom Farm WAR NEWS

## Fresh Milk Or Butter

The War Food administration is working on a plan to prevent further increases in fluid milk consumption by controlling fluid milk sales. American consumers are using more fresh milk and cream than ever before—20 per cent more than 1941 and 12 per cent above last year. This record consumption is increasing at the rate of about one per cent a month, resulting in a steady decline of milk available for production of butter, cheese, evaporated and dried milk. Total milk production through July was about the same as last year's record output almost 10 billion pounds more than 1940. WFA emphasizes that the contemplated control plan is aimed at stabilizing fluid milk consumption, not reducing it below recent levels.

## Sugar For Feeding Bees

Under a recent OPA amendment, beekeepers may obtain an additional sugar allowance up to 15 pounds per colony for feeding their bees. Applications are made to the local OPA Rationing Board on OPA Form R-715, and must contain certification by the County USDA War Board that the additional sugar is required to prevent loss of bees.

## 1944 Production Goals

Tentative plans for the 1944 production program call for each state to determine how much of needed crops and commodities it can produce. Early in October, representatives of the War Administration will meet with the USDA War board and other farm leaders. The nation's food needs will be outlined, and the best contributions this state can make will be discussed. Goals for 1944 to guide farmers in planning all-out production, will be announced soon afterward.

## SLAUGHTER QUOTAS

The two-month suspension of livestock slaughter quotas by the War Food administration will permit all licensed slaughterers in Douglas county, including farm slaughterers, to operate without quota limitations until October 31, the county USDA War Board reports. All other provisions of the licensing program remain in effect, however. It is still necessary, the War board reminds, to obtain a license to slaughter livestock for other than home consumption, collect ration points for all meat delivered, stamp each carcass or cut with the license or permit number, and pay for tags not less than WFA support prices or more than OPA ceilings.

## 14-QT. PRESSURE COOKERS

Home owners who have use for large-sized pressure cookers are advised by the county USDA War board that a number of 14-quart pressure cookers are available larger-than-normal markets.

# This Weapon is No Secret!

It is a weapon everyone can use... it is a weapon that every man woman and child can wield to help win the war... it is GOOD HEALTH!

Without good health we here on the home front can't carry on the important task of backing up our boys at the front. We must have good health to produce the ships, the planes, the guns, the food for our boys. We must have good health to carry on our volunteer work of Civilian Defense, Red Cross, Aircraft Warning Service. We must have good health to do our job at home. The health of our fighting forces is safeguarded by the Medical Corps. But our health and the health of our families is our own responsibility... and an important responsibility it is too.

## HERE ARE 12 SIMPLE RULES TO FOLLOW:

1. Protect children and adults against communicable diseases by immunization especially against diphtheria and smallpox.
2. Keep children away from all sick persons.
3. Keep children at home if they are ill.
4. Maintain sanitary conditions in your home, block and community. Report rats and mosquitoes to your local health department.
5. Eat the right foods. Conserve food values by proper storage and cooking.
6. Keep cheerful and busy. Don't forget to play.
7. Wear proper clothing and maintain room temperature at 65 degrees.
8. Expectant mothers should seek medical care early. The health of the mother and baby depends on proper care.
9. When ill, get a competent physician's advice EARLY.
10. Give yourself a chance. Children and adults should have periodic physical examinations by a competent physician and dentist. Any evidence of illness should receive immediate attention.
11. Know and practice good home nursing care.
12. Call upon your local health department for help in protecting the health of those living in your block.
