Oregon War Bond Total \$37 Million Over Goal

PORTLAND, Oct. 7.—(AP)—The state war bond total from the Third War loan campaign reached \$141,332,472 today. The goal was \$104,000,000.

HE ASKED FOR IT

NEW YORK—Martin Murphy strode into a telegraph office. One hand thrust menacingly into a coat pocket, he approached a clerk and handed him a note reading:

"Call the cops or I will have to shoot you. I just want your money. I just want a jail sentence of about 10 years."

The clerk obliged. When police arrived, Murphy explained he couldn't endure the family arguments at his home and wanted peace and quiet in a cell. Police charged him with disorderly conduct.

Nazi Defense Stiffens In Struggle in Italy

Venice at Mestre, five miles to the northwest. Warehouses and engine shops were struck. It was another blow at the tenuous German communications serving the battlefields of southern Italy. Other targets nearer the combat zones were attacked and six German planes were destroyed at the cost of three.

Middle east bombers, supporting the British garrison on Coe, attacked Rhodes and Crete. Airfields on both islands were pounded along with a German camp near Kattavia on Rhodes and the harbor of Syros north of Crete.

British submarines sank six German ships and damaged two in the Mediterranean.

German defenses had increased appreciably in Italy and both allied armies were engaged in slugging matches necessary to reduce enemy strength.

Other war developments included:

Yugoslavia—Two German divisions were spread thin along the Adriatic coast of Yugoslavia. Daniel de Luce of the Associated Press reported from the headquarters of the partisan army of Gen. Tito. At one time after Italy's surrender, the partisans captured Fiume, Susak, Zara and Split. The Germans retook the ports and presently control most towns and cities, while the partisans hold great chunks of the country.

Spain—Trouble was brewing inside Spain for Franco, the newspaper El Espanol of Madrid suggested despite censorship. "There exists in Spain conspiracies against El Caudillo, which favor a regime of free-for-all shooting," the newspaper said.

Air war—German raiders scattered a few bombs in England and touched off an alarm in London. Swift U. S. Marauder bombers were said to be forcing the enemy to withdraw air bases deeper into Europe.

In view of the apparent willingness of most members of congress to be generous with soldiers and sailors—especially heads of established families—there was little to indicate that the house would consider the new senate figure too high.

Provisions of Substitute
The senate measure was passed after rejection, 48 to 26, of a final proposal by Senator Wheeler to prohibit further father drafting. In its final form the bill sent to the house would:

1. Deny federal employment to able-bodied, draft-age non-fathers whose "indispensability" can not be certified to congress within 30 days after the bills' enactment.
2. Require evidence of the indispensability of workers in war plants be submitted to draft boards for all occupational deferments of non-fathers of draft age.

3. Direct establishment of a medical commission (one army, one navy, three civilian doctors) to determine if physical requirements can be lowered to permit induction of some of the more than 3,000,000 men now in class 4-F.

4. Require draft boards to provide for pre-induction physical examinations for fathers whose induction appears imminent, if they demand them. The examinations, to be made at induction centers, would be used to certify a father's physical condition and would be binding on the boards.

So broad were the provisions that Senators Taft and Reed called the bill a victory for Wheeler, leader of the bloc opposing induction of fathers.

Reed said that "only the courage, the genius and the persistence of the senator from Montana has made this result possible."

Labor Waste Charged
A large number of letters were placed in the congressional record by Senator Wheeler in his fight to prevent the drafting of married men.

One of them, from J. A. Starr, Portland, said if war plan workers would put their shoulders to the "wheel and do a real day's work they could run the plant

Britain Repeats Vow For Finish War on Nazis, Japs

LONDON, Oct. 6.—(AP)—Agreeing with U. S. Navy Secretary Frank Knox that the Pacific war holds second place in the minds of Britons, Herbert Morrison, British home secretary, said today that this was only natural because of the nearness of the European conflict. He reiterated British determination to fight the war in full force until

both Germany and Japan are defeated.
"After all, it was not the Japs who bombed London," Morrison said in a discussion of possible sources of misunderstanding of British-American war problems.
