DAILY DEVOTIONS

DR. CHARLES A. EDWARDS

The Christian must possess the right outlook. Blind people know they are blind and act accordingly, but often those who think they see have a warped viewpoint. Today we see the war destroying things in which we always believed. We may even think that God is being threatened with destruction and forget that He is eternal. Facing an uncertain future, the distorted outlook says: Let us squander the present in eating, drinking and merry-making. Confusion and muddled thinking are always the results of a warped viewpoint. We can see the armies, navies, and air corps of the world as mighty forces, but can we see that spiritual forces are more powerful and more important? Only Christ can give us the right outlook. We should see ourselves as children of God, and give to the world a radiant example of what Christ can do through us: If we have a distorted picture of the Christ, others will never see Him clearly through us. Our daily need is to pray that God will open our eyes that we may behold His beauty, and being transformed by power divine, men shall take knowledge of us that we have seen Jesus, and then we will know that they that are for us are more than they that are against us. Amen.

RIVERSDALE GRANGE TO MEET FRIDAY NIGHT

Riversdale grange will meet Friday evening at 8:15 o'clock at the hall with Master C. T. Tinton, presiding. Refreshments will be in charge of Mr. and Mrs. C. T. Tinton, Mrs. Edward Silven and daughter, Miss Priscilla, and Mr. and Mrs. Elden Oyle. All members are urged to be present.

POET'S CORNER

THE LONELY SOLDIER SLEEPS

(By WALTER A. RHULE)
 "Soft, Air Corps, Mather Field,
 When the lone, long war is over
 And we sit in the evening light,
 We will know we have done our duty."

"In the terrible gruesome fight,
 We will think of those not with us,
 Those buried in the dark of night
 In the furnace heat of the desert
 To the cruel's blizzards and ice,
 Those soldiers will sleep where
 the dunes and
 And the clover hangs its head
 And the shifting sands of the
 desert lands
 Disturb their lonely bed,
 And the wild birds come and the
 wild bees hum
 And the icy wind blows a blast
 It's a foolish thing for the wind
 to do
 For they've found a safe bed at
 last.
 They fought the fight they kept
 the faith
 Their fame shines bright and
 clear,
 Their memory lives in loving
 hearts,
 Which will hold it ever dear
 The winter snows will wrap their
 couch
 In a mantle broad and white—
 A smooth robe for spotless souls
 Who kept their honor bright,
 And the burning sun and the
 burning stars
 Will keep close watch over all
 Till that glorious day when they
 rise again—
 That day when the "Master" will
 call.

Outputs of Apples, Pears Decreased

WASHINGTON, Oct. 12.—(AP)—Prospective production of apples in 1943, previously reported to be well under year ago totals, probably will be 2 1/2 per cent less than that indicated a month ago, the Agriculture department said yesterday.

The commercial production is now estimated at 90,057,000 bushels against 128,597,000 bushels in 1942.

The indicated 1943 production in important producing states includes: Washington 23,520,000, and California 8,715,000.

The general drop in fruit production in 1943 also held true with pears as the Agriculture department estimated production at 23,753,000 bushels, 23 per cent less than the 30,717,000 bushels in 1942.

In Washington, Oregon and California, production of Bartlett's alone is indicated to be 15,856,000 bushels, while other varieties in this area are expected to total 4,130,000 bushels, 18 per cent below 1942.

The 1943 indicated pear production in important producing states include: California 11,709,000 bushels; Washington 5,366,000; Oregon 2,911,000.

WASHINGTON, Oct. 12.—(AP)—When the housewife begins planning her Thanksgiving and Christmas dinners, she will have to be satisfied with 11 per cent fewer cranberries than she bought a year ago.

The department of agriculture today estimated the 1943 crop at 705,500 barrels. The 1942 production was 813,200 barrels. The Washington crop is expected to be equal to that of last year. Production in Oregon is estimated to be slightly smaller.

Massachusetts, producing more than half of the cranberries grown in the nation, had favorable weather for harvesting during September, with frost damage negligible. Its crop was estimated at 495,000 barrels against 520,000 in 1942, with Wisconsin,

the next largest producer, yielding 110,000 barrels, an increase of 3,000 over 1942.

King Willing To Suffer With Jews

STOCKHOLM, Oct. 12.—(AP)—King Christian of Denmark was quoted yesterday by a Danish refugee as saying:

"If the Germans want to put the yellow Jewish star in Denmark I and my whole family will wear it as a sign of the highest distinction."
 The refugee said that King Christian, who has protested against Germany's persecution of Danish Jews, made the statement to leaders of the Danish Lutheran church.

(Germany has forced Jews in other occupied countries to wear stars in public as a means of identification.)

King Christian was quoted as requesting Bishop Fuglsang Damgaard:

"Tell everyone that peace is on its way.

"We have allies in other countries fighting for our case. Let everyone know that so long as the Germans are in this country I will sign no decree forming a new Danish government. What I have signed so far has been forced."

"God protect you all. God protect our country."

NICE, BUT—

SAN DIEGO, Calif.—A LaJolla woman:

Rented eight rooms in her home, rented her garage for living purposes, built a new garage and rented that for living quarters, then pitched a tent in the yard and rented it. She even set up a bed under a canopy in the back yard and rented that.

The OPA commended the woman—then ordered her to cut rental charges 50 per cent.

The cantaloupe was named after the gardens of the Castle of Cantalupo in Italy, where it was first grown.

Kilday Bill On Draft Quotas Is Taken From Shelf

WASHINGTON, Oct. 12.—(AP)

The Kilday bill was revived by the house military committee today as its answer to congressional agitation against the induction of pre-war fathers and the insistence of the armed services that fathers must be called up if manpower quotas are to be met.

Passed by the house last April and shelved by the senate military committee, the bill provides for filling draft quotas on a state-wide basis and sets up four categories in the order which men shall be inducted, with pre-war fathers last.

Chairman May and other house committee members said they would not be surprised if the Kilday

day bill were added, by way of amendment, to legislation passed by the senate last week as a compromise for the Wheeler no-father draft bill.

The house group started hearings today on the senate measure which tightens deferment regulations for childless government workers, permits pre-induction physical examinations, and sets up a board to study the possibility of lowering army and navy physical standards to take in some men now deferred because of defects.

With general provisions of the senate bill, house members said they had no particular quarrel except that they did not believe it went far enough.
