THE OLD

American Virtue of Thrift

STILL LIVES ON!

BACK in the days when Thanksgiving was new, thrift was the first law and the abiding rule.

The happiness and health of the earliest Americans—yes even their very existence—depended upon their frugal, saving ways.

And today, with millions of Americans putting big percentages of their incomes into War Bonds—the bonds upon which our country's independence and our own freedom depend—thrift has come into its own again in America!

We must all sacrifice and skimp and save to help win the war!

Please join in this pledge: "I will make the things I have last longer and go further. I won't buy anything I don't really need."

And for the things you simply can't get along without, come to Penney's! Penney's has always been a haven

for careful shoppers and wise buyers—we have specialized in thrift and savings since our first store was founded over 40 years ago.

Penney's way of doing business eliminates waste and costly frills. It keeps its operating expenses very, very low. And the result is substantial savings for Penney's and for you, for these savings are passed along to all our customers in the form of lower prices and better values.

So, shopping at Penney's is doubly important in wartime—when dollars must be stretched further than you have ever stretched them before!
