I'VE FOUND IT!

The Tissue with ALL FOUR QUALITIES

- Soft . . .** The glacial water used in making M-D is especially soft and solvent . . . making a tissue that is non-irritating even when used on the most sensitive skins.
- Tough . . .** Though every sheet of M-D tissue is soft as down yet the texture is of sufficient toughness for thorough cleansing and practical use.
- Absorbent** The sponge-like absorbency of M-D tissue is one of its most important qualities. Yes, without this absorbency thorough and hygienic cleansing is impossible.
- White . . .** The whiteness of M-D tissue adds a lot to the daintiness of your bathroom. It assures you, too, that M-D is sterilized many times in its manufacture.
