## HEALTH QUIZ

- Do you have poor digestion?  YES  NO
- Do you feel headachy after eating?
- Do you get sour or upset easily?
- Do you feel tired—listless?

Now everyone knows that to get the good out of the food you eat—you must digest it properly. But what most people don't know is that Nature must produce about two pints of the digestive juices—liver bile—each day to help digest your food. If Nature fails—your food may remain undigested—be sour and heavy in your digestive tract.

Thus, it is simple to see that one way to aid digestion is to increase the flow of liver bile. Now, Carter's Little Liver Pills start to increase this flow quickly for thousands—often in as little as thirty minutes. When bile flow increases, your digestion may improve. And, soon you're on the road to feeling better—which is what you're after.

Don't depend on artificial aids to counteract indigestion—when Carter's aid digestion after Nature's own order, when taken as directed. Get Carter's Little Liver Pills today—at any drugstore—only 25¢. You will be glad you did.

## Alleged Weakness In Liberty Ships Will be Probed

SEATTLE, Jan. 4.—(AP)—A sea captain who successively had two Liberty ships develop faults was quoted by Rep. Warren G. Magnuson (D-Wash.) last night as saying "you can hear them crack like gunshot. And the cracks, once started, run like a woman's stocking."

developed faults at sea or in port. Magnuson said he would begin an on-the-spot investigation of two of them which he said were being repaired here. He said Captain Eckholm told him the ships were not sufficiently strengthened longitudinally. The skipper told him: "These ships stand on a crest of a wave, with both ends shaking like jelly."

Magnuson said he was "whole-

heartedly in support of Senator Wallgren's demand that conversion of these slow freighters to troop ships be stopped pending complete investigation."

Sen. Mon C. Wallgren (D-Wash.) disclosed last week that he had learned of five ships developing faults at sea. On the basis of this report, Senator Truman (D-Mo.) announced yesterday his war investigating committee had asked for a report on Liberty ship performance.

**How many more days, Mummy?**

"Tell me. How many more days before Daddy can come home?"

And mother doesn't know. So she answers the same way she's answered a hundred times.

"Not so many days... we hope. Daddy can't come home to us until the war is over. Until we win, you know."

Nobody can tell the thousands of bewildered little hearts when their Daddies will come home.

Nor the millions of other Americans when their husbands, or sons, or sweethearts will be back.

The tragic truth is that many of them will never see their loved ones again. Never.

But this we do know...

Every minute by which the war can be shortened means fewer lives lost—fewer white crosses on a lonely hillside.

Your job is to put every dollar you can possibly dig up into War Bonds. The fighting equipment bought by your dollars will hasten the day of Victory—the day when the boys come marching home.

Don't slacken your Bond purchases while victory is within our grasp! Never let it be said that while the attack grows stronger on the fighting fronts, we at home failed to back it to the very limit of our ability.

Dig down deeper. Buy extra War Bonds. Help shorten the war by those vital minutes—or days, or months—which mean American lives saved!
