Waste Paper Backs Up Bombardiers

(Official U. S. Army Photo)
Wherever there is fighting action waste paper is there on the job. At Midland, Texas, a crew of future bombardiers get used to handling the tools of their trade. Note the lines of square cases behind the men. They are bomb containers made from paper. When lethal "eggs" hit home to the enemy, waste paper has helped send them on their way. Save a bundle of waste paper a week. Help destroy the Axis.
