

Dedication Week Services Set At Methodist Church

At the altars of the Roseburg Methodist church next week, members will pledge rededication of "self, service and substance" to the wartime tasks and opportunities of Christians, as the culminating feature of the denomination's nationwide second annual Week of Dedication, February 27 to March 5, it was announced today by the Rev. Rink A. Feenstra, pastor of the church.

Nearly 8,000,000 Methodists will take part in the observance in 42,000 churches, where they will "renew their covenant with God and give of their substance to building His kingdom in the hearts and lives of men," states Bishop Paul B. Kern of Nashville, Tenn., chairman of the national committee for the Week of Dedication.

Special services during the Week of Dedication will be held in Roseburg Methodist church as follows:

"Dedication for Life" will be the theme of the messages of Mr. and Mrs. Feenstra at the Sunday services, February 27, the opening day of the "Week of Dedication."

Monday the Keystone class will hold its monthly potluck supper at 7 p. m. The speaking will be at the tables following the meal at which time Dr. Charles A. Edwards will finish the review of the book he began a month ago. Marion Felter, superintendent of the church school, will give a message of inspiration, also.

Tuesday will be choir night and the service will be held in the auditorium at 8 p. m., following choir practice. Speakers will be men of the choir, H. A. Canaday and Paul Geddes.

Wednesday the service will be led by women and will be held in the main auditorium at 8 p. m. Mrs. A. J. Geddes and Mrs. Lucion Cobb will be the speakers. Thursday night will be a part of a sub-district conference of pastors and Rev. Victor Phillips of Klamath Falls will preside. Mrs. Lucille Libby will speak on "Twenty Five Years of Medical Work in China." Dr. James W. Workman, a national secretary, will speak on the theme, "For the Facing of These Days."

Friday will be a continuation of the conference with a morning session at 9:15 and an afternoon session closing with an address by Bishop Bruce R. Baxter, and a Communion service at 2 p. m. At 6:30 Friday evening a young people's banquet will be held to which all the youth of the church and community are invited. Rev. Gene Elliott will be the devotional speaker and it is hoped to have Bishop Baxter for the main address.

OUT OUR WAY

Two-Toothed Tot

To the amazement of her mother, Mrs. J. E. Diemert of Seattle, Wash., little Zelda Karen sported two teeth at birth. The baby girl doesn't seem impressed with her head-start in life.

Junior High Faculty Is Addressed by Dr. Roach

The Roseburg Junior high faculty held its regular meeting Monday in the Junior high library with Dr. Morris H. Roach, pastor of the First Presbyterian church, guest speaker. He spoke on "Comparative Religions," tracing the origin, development and growth of various religions and philosophies. The talk was followed by a group discussion on various phases of the topic. After this program, the teachers held their regular business meeting with R. R. Brand, Junior high school principal, presiding.

Deport All Japs After War, Urge of Former Internee

PORTLAND, Feb. 21.—(AP)—Raymond P. Cronin, former Associated Press bureau in Manila who was interned in the Philippines, would like to see all Japanese deported after the war.

"They have their islands out there and let's put them back on them—every one of them," he told 2,500 persons here last night. "I've never met a Jap in any country in the world or at any time when he wasn't a Jap first, last and always."

Earlier he had said in an interview that the Yanks should execute every member of the Japanese military police when they win the war.

The Japanese make military police out of army incorrigibles, he said, adding that "these gorillas recognize no authority other than their own and even the other Japanese fear and hate them."

He predicted the Japanese treat captured Americans better as the war approaches their homeland.

No prisoners have been allowed to broadcast directly to relatives in America, he said. The messages are made up from letters written home and broadcast by an American traitor and an English-speaking Russian girl, he said.

Speaking at the annual Oregon press conference in Eugene Saturday, Cronin said it might take 10 years to defeat the Japanese unless a mighty effort is made at once to cut off their vast captured resources of rubber, foodstuffs, copper and oil.

Home Nursing Class at Tiller Red Cross Plan

A Red Cross home nursing class is to be held Wednesday, February 23, at the Tiller schoolhouse at 1 p. m. for all women of Days Creek, Tiller and Drew. Mrs. Ethel Littler, R. N., has been obtained to instruct these classes. Arrangements have been made for the care of young children at

the schoolhouse for mothers who wish to attend. Mrs. Ruth Jackson and Mrs. Horace Corbett organized the class and information may be obtained from them or

from Mrs. Tighe at the Tiller store.

American bombers now fly higher and stay at high altitudes

longer because of a new chemical development which lengthens by about 50 times the high altitude life of carbon brushes in the planes' generators.

NOTICE

Instructions Relative to Personal Property Assessment

Expiration Date March 1, 1944

Extension of time will not be granted this year.

\$10.00 Per Day Penalty

For each day of the continuance of refusal or neglect to file return.

PRIVATELY OWNED IMPROVEMENTS ON PUBLIC LANDS: Any privately owned structure or improvement on land owned by the United States is personal property and should be reported as such.

Privately owned improvements situated on land owned by the state or by a county, city or other municipal corporation are real property and should be listed as such.

Give the legal subdivision, section, township and range, on which such improvements are situated; also, the year of construction and the total cost and the true cash value as of January 1 of the current year.

MERCHANDISE AND STOCK IN TRADE: The amount listed should agree with the inventory as shown by the books, including shipping and other charges. Take no discount or other deduction.

FIXTURES, FURNITURE AND EQUIPMENT IN BUSINESS OR COMMERCIAL USE: The true cash value of all furniture and equipment in auto courts, apartments, hotels, offices, and that part of household furniture and equipment used for commercial purposes in rented rooms, etc., should be listed.

The value given should correspond to the cost of replacing with like furniture and equipment (not new), rather than the amount which might be realized from a forced sale.

Household furniture, domestic fixtures, household goods and effects actually in use as such in homes and dwellings, where not used for business or commercial purposes, are exempt from taxation and should not be reported on this form. Exemption also applies to wearing apparel, watches, jewelry, and similar personal effects actually in use.

The assessor shall cause blank forms for such returns to be prepared and distributed, but failure to receive or secure the form shall not relieve any such person, managing agent or officer from the obligation of making any return herein required.

LIVESTOCK: Horses, cattle, sheep, goats, hogs etc. Also poultry, chickens, ducks, turkeys and geese should be listed.

Space is also provided on the form for fur bearing animals, rabbits and bees. All farm implements and machinery, all industrial equipment—sawmill, logging and mining equipment, etc.

Garage and service station equipment, pumps, tanks, oil storage containers, etc. Motorized equipment not licensed with state. Boats, vessels and other watercraft, outboard motors.

Please read instructions carefully on the back of blank—DO NOT FAIL TO SIGN

NED DIXON, COUNTY ASSESSOR

Railroaders with their THINKING CAPS on

Here we tell you about some good ideas thought up by the people of our railroad to help Southern Pacific carry its greatest traffic load in history. Such ideas contribute directly to Victory, because the railroad is the war industry all other war industries depend on!

Only a few of the ideas received in recent months are presented here. And some of the devices shown can be fully appreciated only by railroaders. But these ideas have a common denominator everybody will understand: All represent better ways to run a railroad!

Back in the 1860's our railroad itself was a new idea. The first Southern Pacific tracks were built largely into virgin, sparsely settled regions where great cities later grew.

And through the years the S.P. "family" has steadily pioneered such new ideas in railroading as low coach fares; moderately priced meal service in dining cars; and store-door pickup and delivery for less than carload freight. We operate more air-conditioned cars than any railroad west of the Mississippi. Even today, in wartime, our hard-pressed streamliners are still the nation's most beautiful trains.

You can be sure that S.P. men and women in the shops, yards, offices, stores and on the trains will continue their constant search for improved methods of railroading.

In this spirit of enterprise we find stimulation and encouragement for the future. Then, as now, good railroad transportation will be needed . . . and we know that railroaders with their thinking caps on will do their part to provide it. S.P. is planning for peacetime progress NOW!

THESE FOUR MEN worked out a horizontal airjack which saves delay to flat cars and manpower in blocking of flat cars into rigid units for loading with long piling. S.P. District Car Service Agent J. E. Whalley of Eugene (third from left) conceived the idea. Car Foreman W. H. McAllister (left) built first working model. W. E. Jackson drew blueprints for another at Eugene, where Master Car Repairer W. B. Medill (right) produced a second working model. Device improves on manually operated track jacks used for same purpose.

Watering of passenger cars has been simplified by specially-shaped extension pipe suggested by General Car Foreman C. H. D. Hansen of S.P.'s Mission Road Coach Yard. Method eliminates ladder and need to climb up on top of car to fill water tank.

Two hours time daily is saved by this device developed by S.P. Machinist Dow Nichols of Bakersfield. His idea involves a centering attachment for driving box boring mill. Machinists see this as a valuable contribution to good workmanship.

To extract journal bearings more easily and minimize danger of accidents, E. P. Morgan, S.P. Electric Welder of the Los Angeles Car Department, worked out this ingenious and specialized tool.

Ideas for improved production of brake shoes which saves 156,000 pounds yearly of critical metal formerly scrapped was suggested by Charles Walls, General Foreman of S.P. Blacksmiths at the Sacramento Shops.

Increased reclamation of war-vital zinc from used batteries, now S.P.'s only source of zinc, is made possible by idea of Wayne Ramsey, Reclamation and Welding Foreman at Sacramento General Stores. By Ramsey's method, adapting the hammermill, 400 pounds of zinc are produced daily against 100 pounds by former method. Hammermill rips open the zinc covering and breaks up carbon. Zinc pieces and crushed carbon are run through tumbler where carbon falls through perforations while zinc remains behind.

To keep passengers posted as dining car seats become available, reducing wartime waiting-in-line, Conductor E. M. Benson suggested announcements over loudspeakers on S.P. Daylights. Our Conductors often contribute ideas.

S.P.
The friendly
Southern Pacific

First Officers of New Typo Union Installed

Roseburg Typographical union, No. 785, was installed last night by Ralph E. Mercer, representative of the International Typographical Union.

The local has 12 charter members, of whom eight are employed in the News-Review mechanical department.

The officers named to serve temporarily during the period of organization were permanently elected at last night's meeting and will serve through the remainder of the year. They are: Harlan B. Carter, president; M. O. Ream, vice-president; L. H. Gau, secretary-treasurer, and Percy Aikin, sergeant-at-arms.

Ralph L. Russell, R. F. Jacobs and H. B. Carter were appointed as a committee on scales and contracts, and Russell, Jacobs Aikin and Strom were named as an auditing committee.
