Men, Women of 40, 50, 60! Want Pep?
Need New Vim and Vitality?

You may feel exhausted, nervous, and weary, have little energy, and generally feel that you are not doing your best. This is because your blood is low. Blood is the life of the body. It carries the oxygen and food to the cells. If it is low, the cells cannot do their work. This is why you feel tired and weak. You need a good blood tonic. One that will build up your blood and give you the vim and vitality you need. This is the purpose of the "Men, Women of 40, 50, 60! Want Pep?" advertisement.

DAILY DEVOTIONS

DR. CHARLES A. EDWARDS

For all have sinned and come short of the glory of God. Jesus by His own shed blood has entered into the holy place and obtained eternal redemption for all who believe on Him. The apostle puts it this way: "If any man sin we have an advocate with the Father, even Jesus Christ the righteous." Not by works of righteousness which we have done, but according to His mercy He saved us. Nearly two thousand years before Christ the Passover was instituted. Wherever the blood was applied, the destroyer to smite the first born. Jesus Christ the Lamb of God is our Passover, and through faith in Him we have the deliverance from the penalty and practice of sin. The children of Israel were commanded to partake of the Passover feast with their loins girded, shoes on their feet and a staff in their hands. We who partake of Christ are to have our loins girded about with truth, having the breastplate of righteousness and our feet shod with the preparation of the gospel of peace putting on the whole armor of God that we may stand firm to the end." Amen.

Jo Anne De Bernardi, Al Pfeiffer, Betty Cokeran, Ross Barker, Wayne Helms, Wynn Oliver, Virginia Barker, Edna Belle Nutt, Ernest Marrier, Lincoln Kennedy, Mr. Smith, Chester Cook and Miss Helen Macpherson.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many doctors believe that backaches are caused by poor posture. But the real cause of these troubles may be found in the blood. The blood is the life of the body. It carries the oxygen and food to the cells. If it is low, the cells cannot do their work. This is why you feel tired and weak. You need a good blood tonic. One that will build up your blood and give you the vim and vitality you need. This is the purpose of the "Men, Women of 40, 50, 60! Want Pep?" advertisement.
