planes into separate fighter and bomber commands to make "cannibalizing" easier.

THESE significant new phases in our air war are noted: Vastly stepped-up tempo.

BRITISH and U. S. air leaders are said to agree that no matter what the Germans do, we can win FULL CONTROL OF THE AIR within seven to 10 days after the invasion starts.

ACROSS the world in Burma, "chindits" are reported to have cut the Mandalay-Myitkyina rail-road and the alternate Mandalay-Bhamo-Myitkyina highway route.

IT looks like a determined effort is being made to clear a route into China.

Under the strain, her economic system has utterly collapsed.

REFERRING obviously to this hopeless situation, an important Chinese official says: "It is high time for our allies to call a halt to our sufferings by helping us to win the war sooner through an increased supply of armaments."

ON the home front, the Ward ruckus in Chicago has been settled by the simple process of calling a choice-of-union election, which the CIO wins handily.

turned back to its owners. The public wonders why this election wasn't called WEEKS AGO, and SUSPECTS it was because the government was afraid the CIO WOULD'NT win.

KEEP THE BRAKES WORKING

By Charles V. Stantos

WE have received a communication from a New Deal agency which offers to write our editorials for us. That statement is a little blunt.

Actually, we appreciate editorial suggestions. But as a sample of some of the material offered we submit the following quotation: In its recent decision affirming the constitutional right of Negroes to participate in the primaries of Texas, the United States Supreme Court has done an about-face.

Inconsistent the two decisions of 1935 and 1944 undoubtedly are when placed side by side. But certainly the Supreme Court must be expected to grow with its times and change with its membership.

Did you ever drive an automobile without brakes? We have, and, frankly, we were scared stiff—just as we're frightened now by the danger this country is facing when we have a Supreme Court which bases its findings upon political expediency.

The founders of our form of government recognized the need for a system of checks and balances. The Supreme Court was designed as a brake upon possible runaway tendencies of either the legislative or executive branches of government.

It would be extremely dangerous to drive an automobile upon which the brakes functioned intermittently. A brake, to be efficient, must be consistently dependable.

If our Supreme Court is to fluctuate with changes of membership and with every new idea or policy of political administration, then we are, indeed, in real danger.

The New Deal gave us the "rubber stamp" congress and the packed court. Congress no longer jumps through the presidential hoop, but the Supreme Court has shown a tendency to be governed by ideology and expediency rather than by the strictly legal field which is its province.

Precedence is the rock foundation upon which our legal structure is erected. If the Supreme Court is to change its mind as frequently as a woman alters her hair-do, we have only shifting sand as our foundation.

We do not expect nor want our Supreme Court to "grow with its times and change with its membership," nor do we expect nor want our Supreme Court to be a "living mechanism whereby orderly change and social growth may be achieved."

Those present were: Mrs. Jack Farris, Jr., of Seattle, a guest, and Mrs. Gene Mills, Mrs. Carrie Bell, Mrs. Helen Saar, Mrs. Alvina Wetherell, Miss Florence Sneider, Miss Vera Fredrickson, Miss Ina Farnsworth, Miss Verna Carothers, Miss Amanda Anderson, Miss Ruth Roberts, Mrs. Arlene Myers, Miss Margaret N. Johnson, Miss Dolma Grobe, Mrs. Mildred Hensen, Mrs. Nance Atkins, Mrs. Elsie Baker, Miss Hallway, Mrs. Mary Moore and Mrs. Nell Cummings.

THE federal judge in Chicago before whom injunction proceedings had been brought drops them WITHOUT ruling on their legality—thus again side-stepping a court test of the war powers of the president.

THE whole Ward incident is unbelievably unfortunate because it has added vastly to distrust and suspicion of the government. Distrust and suspicion of government doesn't help to win wars.
